Classical

World Literatures Wiebke Denecke, 2014 Ever since Karl Jaspers's axial age paradigm there have been a number of influential studies comparing ancient East Asian and Greco Roman history and culture However to date there has been no comparative study involving multiple literary traditions in these cultural spheres This book compares the dynamics between the younger literary cultures of Japan and Rome and the literatures of their venerable predecessors China and Greece How were writers of the younger cultures of Rome and Japan affected by the presence of an older reference culture whose sophistication they admired even as they anxiously strove to assert their own distinctive identity How did they tackle the challenge of adopting the reference culture's literary genres rhetorical refinement and conceptual vocabulary for writing texts in different languages and within distinct political and cultural contexts Classical World Literatures captures the striking similarities between the ways early Japanese authors wrote their own literature through and against the literary precedents of China and the ways Latin writers engaged and contested Greek precedents But it also brings to light suggestive divergences that are rooted in geopolitical linguistic sociohistorical and aesthetic differences between early Japanese and Roman literary cultures Proposing a methodology of deep comparison for the cross cultural comparison of premodern literary cultures and calling for an expansion of world literature debates into the ancient and medieval worlds Classical World Literatures is both a theoretical intervention and an invitation to read and re read four major literary traditions in an innovative and illuminating light *The Routledge Companion to World Literature* Theo D'haen, David

Narrative Truthiness Annjeanette Wiese, 2021-10. Narrative Truthiness explores the complex nature of truth by adapting Stephen Colbert's concept of truthiness, which on its own repudiates complexity into something nuanced and positive. What Annjeanette Wiese calls narrative truthiness, Narrative truthiness holds on to the importance of facts while complicating them by looking at different types of truth as well as the complexity, contradictions, and consequences of truth in the context of human experience. Wiese uses narrative theory to analyze several examples of hybrid non-fiction works that refuse to exist as either fiction or nonfiction alone and that challenge monolithic definitions of truth. She examines memoirs by Lauren Slater, Michael Ondaatje, Benjamin Wilkomirski, Tim O'Brien, fiction by Julian Barnes, Richard Powers, W.G. Sebald, Onion headlines, comics, and graphic memoirs by Joe Sacco, Art Spiegelman, and David Small, and fake news. Narrative Truthiness foregrounds the complexity that is inherent in human understanding and experience and in the process demonstrates the significance of the complex tensions between what we feel to be true and what is true and how we are shaped by both.
