Teaching short stories in the EFL-Classroom  
 Berenice Walther, 2008-02-29 Seminar paper from the year 2007 in the subject American Studies Literature grade 1 3

University of Münster course Teaching Short Stories in the EFL Classroom language English abstract The short story has its origins in traditional oral storytelling Many of the world s greatest literary classics such as El Cid La Chanson de Roland Beowulf or the Odyssey were originally orally transmitted In most cases the story has undergone many modifications in the course of the telling processes still they are today s primary testimonies for language history culture and people of the past They were told in rhyming and therefore functioned as a mnemonic device for easier recall In Europe the short story began to evolve from oral storytelling in the early 14th century with Chaucer s Canterbury Tales and Boccaccio s Decamerone books consisting of individual short stories within a larger frame story Only in the 19th century modern short stories began to be considered a proper genre Print magazines represented a strong market for short fiction theories related to this began to surge as for example Edgar Allan Poe s The Philosophy of Composition Nowadays the number of commercial magazines publishing short stories has decreased but they appear to have found their place in online publications Today reading has become a minor activity in people s lives with globalisation technological progress and a fast growing media industry In schools pupil s interest is increasingly difficult to stimulate especially when it comes to literature in the English Second Language classroom Students are used to fast information input without necessarily having to become active themselves they lose concentration easily when the learning process takes too long or they lose patience when they do not understand right away The use of short stories in the English Foreign Language classroom is one possibility to respond to this problem teachers of foreign languages have to face Therefore this paper is going to define the genre of the short story as such to create a basis for the following presentation of the benefits of short stories for the North Rhine Westphalian English Language Classroom In the next step the curricula and guidelines are taken into consideration in order to develop some

ideas on how to implement *The Machine that Won the War* by Isaac Asimov in class These will be integrated into a lesson plan with several activities around the story There are several theoretical works dealing with the lecture of short stories starting with Poe's work mentioned above Allen Walter's *The Short Story in English* Charles E May's *The Short Story The Reality Artifice* or Frank Myszor's *The Modern Short Story* Some articles have been written e.g. by Rüdiger Ahrens *Die bisherige Rolle der Short Story im Englischunterricht der Sekundarstufe II* dealing with the use of short stories as a way of teaching literature Most has certainly been written about didactics of English in German classrooms such as Wolfgang Gehring's *Englische Fachdidaktik Eine Einführung Englisch lernen und lehren Didaktik des Englischunterrichts* by Johannes P. Timm or Egon Werlich's *Praktische Methodik des Fremdsprachenunterrichts mit authentischen Texten* [Hollywood or History?](#) Scott L. Roberts, Charles J. Elfer, 2021-01-01 The challenges of teaching history are acute where we consider the world history classroom Generalized world history courses are a part of many if not most K-12 curricular frameworks in the United States While United States history tends to dominate the scholarship and conversation there are an equally wide number of middle level and secondary students and teachers engaged in the study of world history in our public schools And the challenges are real In the first place if we are to mark content coverage as a curricular obstacle in the history classroom generally then we must underscore that concern in the world history classroom and for obvious reasons The curricular terrain to choose from is immense and forever expanding dealing with the development of numerous civilizations over millennia and across a wide geographic expanse In addition to curricular concerns world historical topics are inherently farther away from most students' lives not just temporally but often geographically and culturally Thus the rationale for the present text *Hollywood or History An Inquiry Based Strategy for Using Film to Teach World History* The reviews of the first volume *Hollywood or History An Inquiry Based Strategy for Using Film to Teach United States History* strategy have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioner Classroom utility and teacher practice have remained our primary objectives in developing the *Hollywood or History* strategy and we are encouraged by the possibilities of Volume II and the capacity of this most recent text to impact teaching and learning in world history We believe that students' connection to film along with teachers' ability to use film in an effective manner will help alleviate some of the challenges of teaching world history The book provides 30 secondary lesson plans grades 6-12 that address nine eras in world history *Educators Guide to Free Internet Resources* Educators Progress Service, 2007-05 To provide our customers with a better understanding of each title in our database we ask that you take the time to fill out all details that apply to each of your titles Where the information sheet asks for the annotation we ask that you provide us with a brief synopsis of the book This information can be the same as what may appear on your back cover or an entirely different summary if you so desire **Using Internet Primary Sources to Teach Critical Thinking Skills in World Literature** Roxanne M. Kent-Drury, 2005-03-30 Presenting web sites from around the world covering much of the world's literature this

book provides creative and interesting thinking activities to enhance student understanding of literature and culture and to promote critical thinking This book will be very useful to teachers of world history and literature at the senior high school and undergraduate level Part of a well reviewed series of titles Using Internet Primary Sources to Promote Critical Thinking carries on the tradition of excellence in instructional tools Grades 9 12
