Spy Ships Norman Polmar, Lee J. Mathers, 2023-07. Almost from the first days of seafaring men have used ships for spying and intelligence collection. Since early in the twentieth century with the technological advancements of radio and radar the U S Navy and other government agencies and many other navies have used increasingly specialized ships and submarines to ferret out the secrets of other nations. The United States and the Soviet Union, Russia have been the leaders in those efforts especially during the forty five years of the Cold War. But as Norman Polmar and Lee J Mathers reveal so has China which has become a major maritime power in the twenty first century with special interests in the South China Sea and with increasing hostility toward the United States. Through extensive meticulous research and through the lens of such notorious spy ship events as the Israeli attack on the USS Liberty, the North Korean capture of the USS Pueblo and the U S Central Intelligence Agency's success in clandestinely salvaging part of a Soviet submarine with the Hughes Glomar Explorer, *Spy Ships* is a fascinating and valuable resource for understanding maritime intelligence collection and what we have learned from it.

The China-Burma-India Campaign, 1931-1945 Eugene L. Rasor, 1998-03-19. The China Burma India campaign of the Asian Pacific war of World War II was the most complex if not the most controversial theater of the entire war. Guerrilla warfare, commando and special intelligence operations and air tactics originated here. The literature is extensive and this book provides an evaluative survey of that vast literature. A comprehensive compilation of some 1 500 titles, the work includes a narrative historiographical overview and an annotated bibliography of the titles covered in the historiographical section. Following an introductory historical essay and a chronology, the historiographical narrative covers land, water, underwater, air and combined operations, intelligence matters, diplomacy and logistics and supply. It also examines the memoirs, diaries, autobiographies and biographies of the personnel involved. Such cultural topics as journalism, fiction, film and art are analyzed and existing gaps in the literature are looked at. The bibliography provides both descriptive and evaluative annotations.

U.S. Navy Patrol Vessels Ken W. Sayers, 2021-08-23. During the past century U S Navy patrol vessels have operated everywhere, larger warships have as well as in places where the big boats could not operate. These bantam warriors have performed in a variety of roles from antisubmarine warfare to convoy escort and offensive operations against enemy forces afloat and ashore. Patrol vessels battled German units in the Mediterranean, fought insurgents along rivers and canals in China and Vietnam and protected U S ships and facilities in the Persian Gulf. Covering more than 1000 of the Navy's small combatants, this comprehensive survey provides all-time rosters, histories, specifications and illustrations of patrol vessels from before World War I to the present. World War II PT boats and

submarine chasers and Vietnam War swift boats are covered along with less well known ships such as Eagle boats patrol yachts hydrofoil gunboats and control escorts A detailed accounting of patrol vessel exports transfers and shipbuilders is included *Between the Lines of World War II* Paul M. Edwards, 2014-01-10 This is a collection of 21 accounts of people and events that illuminate the strange adventures mysterious circumstances extreme behaviors and forgotten tragedies of World War II Ranging from a look at Adolf Hitler's children factory to the smuggling of gold bullion from the besieged island of Corregidor to those who flew with the Chinese Air Force against Japan years before the more famous Flying Tigers these accounts provide insight into the larger scope of the war *Admiral William Veazie Pratt, U.S. Navy* Gerald E. Dorwart's History of the Office of Naval Intelligence, 1865-1945 Jeffery Dorwart, 2019-10-01 This is the history of the founding in 1882 and operation through two world wars of America's first permanent intelligence agency the Office of Naval Intelligence In this study Dr Jeffery M Dorwart shows how and why a tiny late 19th century U S Navy bureau created to collect information about foreign warship design became during two world wars a complex and sometimes troubled domestic and worldwide intelligence agency More significantly this history of ONI demonstrates how the founders and first generations of U S naval officers trained to man warships at sea confronted what seemed an inherent dilemma in new missions that interfered with providing technical and operational information to their navy Dorwart explains the forces that created this dilemma and how ONI officers responded in different ways to their intelligence mission This history recounts how from the very beginning ONI duty during the last decades of the 19th century seemed conflicting Some found the new assignment very rewarding in collecting and collating data for the U S to build a New Navy of steel and steam powered warships armed with the latest rifled ordnance But other naval officers saw assignment to this tiny office as a monotonous dead end assignment endangering their careers as shipboard operators Dorwart shows how the first and second world wars and interwar period dramatically accelerated the naval intelligence office's dilemma The threats in both oceans from powerful enemy navies equipped with the latest technology and weaponry gave an urgency to the collection of information on the strategies warships submarines and aircraft development of potential and actual naval enemies But at the same time ONI was asked to provide information of possible domestic threats from suspected enemy spies terrorists saboteurs or anti war opponents This led ONI officers to wiretap break and enter pursue surveillance of all types of people from foreign agents to Americans suspected of opposition to strengthening the U S Navy or becoming involved in world wars This history explains that many ONI directors and officers were highly motivated to collect as much information as possible about the naval military capabilities and strategies of Germany Italy Japan and even allies ONI officers understood that code breaking was part of their job as well But this all led some to become deeply involved in domestic spying wiretapping breaking and entering on private property These extralegal and at times illegal operations Dorwart argues confused some ONI officers leading to too much information that clouded vital intelligence such as Japanese plans to attack American naval bases In the
