The Trials of Nina McCall Scott W. Stern, 2018-05-15 The nearly forgotten story of the fight against the American Plan a government program designed to regulate women's bodies and sexuality A consistently surprising page turner a brilliant study of the way social anxieties have historically congealed in state control over women's bodies and behavior New York Times Book Review Nina McCall was one of many women unfairly imprisoned by the United States government throughout the twentieth century Tens probably hundreds of thousands of women and girls were locked up usually without due process simply because officials suspected these women were prostitutes carrying STIs or just promiscuous This discriminatory program dubbed the American Plan lasted from the 1910s into the 1950s implicating a number of luminaries including Eleanor Roosevelt John D Rockefeller Jr Earl Warren and even Eliot Ness while laying the foundation for the modern system of women's prisons In some places vestiges of the Plan lingered into the 1960s and 1970s and the laws that undergirded it remain on the books to this day Nina McCall's story provides crucial insight into the lives of countless other women incarcerated under the American Plan Stern demonstrates the pain and shame felt by these women and details the multitude of mortifications they endured both during and after their internment Yet thousands of incarcerated women rioted fought back against their oppressors or burned their detention facilities to the ground they jumped out of windows or leapt from moving trains or scaled barbed wire fences in order to escape And as Nina McCall did they sued their captors In an age of renewed activism surrounding harassment health care prisons women's rights and the power of the state this virtually lost chapter of our history is vital reading

Notes from the Old Blair and Bush Ernest Organic, 2008 Notes from the Old Blair and Bush explores the

world of organic farming the need for an organic economy and the effects that this is having on the world we live in With fear over climate change and the use of fossil fuels becoming ever more prevalent the organic farming industry is becoming more and important in our society As the industry grows has the ideal behind organic farming been lost What problems have been caused by the urgent demand for an organic economy Written with first hand experience of the industry Notes from the Old Blair and Bush looks at all these vital issues and much more The Lost Colony: Pax Draconis Campaign #1 ,
