The New Ecology of Leadership David K. Hurst, 2014-10-07 David Hurst has a unique knowledge of organizations their function and their failure both in theory and in practice He has spent twenty five years as an operating manager often in crises and turnaround conditions and is also a widely experienced consultant teacher and writer on business This book is his innovative integration of management practice and theory using a systems perspective and analogies drawn from nature to illustrate groundbreaking ideas and their practical application It is designed for readers unfamiliar with sophisticated management concepts and for active practitioners seeking to advance their management and leadership skills Hurst's objective is to help readers make meaning from their own management experience and education and to encourage improvement in their practical judgment and wisdom His approach takes an expansive view of organizations connecting their development to humankind's evolutionary heritage and cultural history It locates the origins of organizations in communities of trust and follows their development and maturation He also crucially tracks the decline of organizations as they age and shows how their strengths become weaknesses in changing circumstances Hurst's core

argument is that the human mind is rational in an ecological rather than a logical sense In other words it has evolved to extract cues to action from the specific situations in which it finds itself Therefore contexts matter and Hurst shows how passion reason and power can be used to change and sustain organizations for good and ill The result is an inspirational synthesis of management theory and practice that will resonate with every reader s experience      **2,001 Amazing Cleaning Secrets** Jeff Bredenberg,2004 Keep your house sparkling with this comprehensive and fun encyclopedia of cleaning Featuring ZAPthe Zone Attack Plana unique toptobottom system with a complete stepbystep weekly plan ZAP provides timesaving ground rules plus detailed instructions for cleaning more than 300 common objects ZAP was designed by cleaning specialists and is used by professionals B N from the publisher July 2007      *The ^AOxford Companion to American Food and Drink* Andrew F.
