Brown, Gavin Yamey, Sarah Wamala, 2014-04-08 The Handbook of Global Health Policy provides a definitive source of the key areas in the field It examines the ethical and practical dimensions of new and current policy models and their effect on the future development of global health and policy Maps out key debates and policy structures involved in all areas of global health policy Isolates and examines new policy initiatives in global health policy Provides an examination of these initiatives that captures both the ethical critical as well as practical empirical dimensions involved with global health policy global health policy formation and its implications Confronts the theoretical and practical questions of who gets what and why and how when and where Captures the views of a wide array of scholars and practitioners including from low and middle income countries to ensure an inclusive view of current policy debates **Nutrition and HIV** Saurabh Mehta, Julia

Finkelstein, 2018-05-15 The world continues to lose more than a million lives each year to the HIV epidemic and nearly two million individuals were infected with HIV in 2017 alone The new Sustainable Development Goals adopted by countries of the United Nations in September 2015 include a commitment to end the AIDS epidemic by 2030 Considerable emphasis on prevention of new infections and treatment of those living with HIV will be needed to make this goal achievable With nearly 37 million people now living with HIV it is a communicable disease that behaves like a noncommunicable disease Nutritional management is integral to comprehensive HIV care and treatment Improved nutritional status and weight gain can increase recovery and strength of individuals living with HIV AIDS improve dietary diversity and caloric intake and improve quality of life This book highlights evidence based research linking nutrition and HIV and identifies research gaps to inform the development of guidelines and policies for the United Nations Sustainable Development Goals A comprehensive approach that includes nutritional interventions is likely to maximize the benefit of antiretroviral therapy in preventing HIV disease progression and other adverse outcomes in HIV infected men and women Modification of nutritional status has been shown

to enhance the quality of life of those suffering HIV AIDS both physically in terms of improved body mass index and immunological markers and psychologically by improving symptoms of depression While the primary focus for those infected should remain on antiretroviral treatment and increasing its availability and coverage improvement of nutritional status plays a complementary role in the management of HIV infection

*Tackling the World's Fastest-Growing HIV Epidemic* Feng Zhao, Clemens Benedikt, David Wilson, 2020-06-26 The Eastern Europe and Central Asia region has the world's fastest growing HIV epidemic Although still concentrated the epidemic has diversified affecting several key populations in many countries This change has increased the number of people in need the ways the epidemic can spread and the complexity of formulating an effective strategy to combat it At the same time international funding is insufficient to cover the growing need and domestic plans to cover the funding gaps in many cases fall short In this environment the need to use data to make the best possible decisions about using available funds is essential *Tackling the World's Fastest Growing HIV Epidemic* tells the story of how in 11 countries across Eastern Europe and Central Asia small groups of decision makers and experts came together to carry out innovative groundbreaking analyses for each country It details the steps these nations have taken to strengthen their HIV programs based on the findings while highlighting critical issues for the road ahead In so doing the book also shows the potential of what can be done with a mathematical model and how it can support real life improvements in policy and more efficacious budget allocations It is the record of a unique undertaking to improve public health investments that offers lessons for many communities

**A Decade of Human Security** David R. Black, 2016-03-03 Human security has been advanced as an alternative to traditional state based conceptualizations of security yet controversies about the use and abuse of the concept remain Investigating innovations in the advancement of the human security agenda over the past decade this book identifies themes and processes around which consensus for future policy action might be built It considers the ongoing debates regarding the human security agenda explores prospects and projects for the advancement of human security addresses issues of human security as emerging forms of new multilateralisms and examines claims that human security is being undermined by US unilateralisms This comprehensive volume explores the theoretical debate surrounding human security and details the implications for practical application It will prove ideal for students of international relations security studies and development studies

**Zero Tolerance to HIV Infection** Prof. (Dr) Vikas Bhatia, Dr. Swayam Pragyan Parida, Dr. Babita Raghuwanshi, Dr. Saubhagya Kumar Jena, Mrs. Dharitri Swain, Globally an estimated 34 million people have HIV More than 35 million people have died from the virus making it one of the most destructive pandemics in history Today many scientific advances have been made in HIV treatment there are laws to protect people living with HIV and we understand so much more about the condition But despite this people do not know the facts about how to protect themselves and others from HIV and stigma and discrimination remain a reality for many people living with HIV The idea for this book grew out of a institutional consultation by various departments under the patron ship of the director each chapter provides

trenchant and provocative yet always balanced and complete discussions of the central issues in a given topic Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how it has developed Whatever the area of HIV AIDS related study each topic will fascinate the reader the book is a handy and affordable guide that will likely prove indispensable

**Globalization for Development** Ian Goldin, Kenneth Reinert, 2012-02-16 Globalization and its relation to poverty reduction and development are not well understood This book explores the ways in which globalization can overcome poverty or make it worse The book defines the big historical trends identifies the main globalization processes trade finance aid migration and ideas and examines how each can contribute to economic development By considering what helps and what does not the book presents policy recommendations to make globalization more effective as a vehicle for shared growth and poverty reduction It will be of interest to students researchers and anyone concerned with the effects of globalization on international development

Poverty, Livelihoods, and Governance in Africa K. Hope, 2008-09-29 This book analyzes the outstanding development problems confronting Africa today and the policies necessary for improving Africa's governance economic performance and the very possible achievement of the Millennium Development Goals

**The State of the World's Children 2001** Carol Bellamy, UNICEF., 2001 Drawing on reports from the world over this details the lives of parents and daily caregivers who are striving in the face of war and poverty to protect the rights and meet the needs of young children from birth to the age of 3

Politics in Africa Professor Nana Poku, Doctor Anna Mdee, 2013-07-04 Democracy prosperity and self rule this was the vision of African independence Across the continent however the optimism that characterized the immediate post independence period has largely faded Meanwhile ordinary Africans lurch between undemocratic unaccountable and unresponsive governments and a decaying traditional African past How did things go so wrong Why has the continent lagged behind others in economic development despite its potential natural resources Why are so many African states prone to conflict And why has democracy been slow to take root in a majority of the countries Covering everything from African economies to the role of the state rural livelihoods to issues of gender Politics in Africa offers a fresh perspective in answering these questions making the continent's problems more understandable less wretched and even intensely hopeful Up to date concise and provocative this is indispensable reading for anyone interested in African politics

*The State of the World's Children 2006* UNICEF., 2005 The 2006 edition of UNICEF's annual report focuses on the millions of children who are most in need of access to essential education health and protection services but who are also the hardest to reach and often overlooked by current development programmes These include children living in the poorest countries and most deprived communities within countries children who face discrimination on the basis of gender ethnicity or disability children caught up in armed conflicts or affected by HIV AIDS children who lack a formal identity and who suffer from abuse and exploitation The report examines the factors which result in their exclusion from current child development programmes and services and highlights the policy options and actions required to address these challenges in order to

ensure all children benefit from the progress being made to achieve the Millennium Development Goals Topics discussed include income disparities and child survival the marginalisation of Roma communities and their children disability issues children and HIV AIDS children living on the streets early marriages child labour child protection and child rights HIV Epidemics in the European Region Lucy Platt, Emma Jolley, Vivian Hope, Alisher Latypov, Peter Vickerman, Ford Hickson, Lucy Reynolds, Tim Rhodes, 2015-02-12 This report describes the dynamics of HIV epidemics among vulnerable and high risk populations in the European region in particular people who inject drugs sex workers and men who have sex with men It aims to inform future HIV responses and guide HIV prevention surveillance and research HIV and Young People Gary Jones, 2015-11-30 Revisiting the thinking on vulnerability to HIV and risk of infection this book provides better understanding by considering the risk of HIV infection alongside notions of personal and collective resilience dignity and humiliation The work shows that young people in the urban slum dignify their world and in doing so establish priorities and draw on a set of references oftentimes intelligible to them alone Moreover humiliation as an interpersonal event adds to a sense of vulnerability and lies closely behind choices directly affecting personal health and livelihood Thus dignity and humiliation are shown for the first time to have a critical role in health seeking and risky behavior related to HIV and this is an area in great need of further research The crucial focus of this work is further emphasized by the rapid growth of urban slums and high rates of HIV among both slum dwellers and young people who continue to bear the brunt of the AIDS epidemic thirty years on This comprehensive literature review provides a compelling argument that the time is right to further explore the nexus of risk and resilience from a people centered perspective Fresh insight is critical to reach the goal of ending AIDS by 2030

**Morbidity and Mortality Weekly Report**, 2006 **Perspectives on Palliative Care for Children and Young People** Rita Pfund, Susan Fowler-Kerry, 2010 Advances in medical science and technology are saving the lives of more children worldwide than ever Some survive and live out a normal life expectancy others have a life limiting life threatening diagnosis where death may come early and still others will live on well past projected life trajectories into adulthood With so many different care pathways children parents and communities often find themselves facing challenges for which neither they nor their healthcare systems are prepared This book opens a global discussion of these issues Extending Rita Pfund's text Palliative Care Nursing of Children and Young People it invites paediatric palliative care professionals parents and children from around the globe to share their knowledge and experience This book is of vital interest to palliative care professionals parents policy makers and academics It is an important move towards ensuring that all children and their families regardless of geographical location gender ethnicity or socio economic class have equal and guaranteed access to comprehensive paediatric palliative care services **Stearns 2 in 1** Richard Stearns, 2014-10-28 Read the book that has inspired hundreds of thousands to change the world and the book that shows how best to accomplish that change Together for the first time in one volume The Hole in Our Gospel revised and updated and Unfinished take us on a breathtaking

journey to rediscover the critical mission of Christ in our world today and the richness of God's calling on our lives. *The Hole in Our Gospel* is a compelling true story of a corporate CEO who set aside worldly success for something far more significant and discovered the full power of the gospel of Jesus Christ to change his own life. He uses his journey to demonstrate how the gospel, the whole gospel, was always meant to be a world-changing social revolution, a revolution that begins with us. This special edition of *The Hole in Our Gospel* includes a new epilogue from author Richard Stearns, a church resource guide, color charts and graphs on the needs of the world, and a concordance on poverty and justice. *Unfinished* might just challenge everything you thought you understood about your Christian faith, says Bill Hybels, senior pastor of the Willow Creek Community Church. If every Christian read this book and took it seriously, the world would never be the same again. Just before he left, Jesus sent his followers into the world with a revolutionary mission to change the world by proclaiming God's truth and demonstrating his incredible love. But the single task he gave us to accomplish remains unfinished. Just when I dare think my work is done, Rich reminds me that we are just getting started, says Max Lucado, pastor and best-selling author. Why are we here? What is our purpose and where do we fit in the bigger story that God is writing? How should our faith affect our careers, our money, our families, and our lives? And why does it matter? We will find our deepest purpose only when we discover the unique role God created for us to play in his unfolding story.

**Handbook on Well-Being of Working Women**

Mary L. Connerley, Jiyun Wu, 2015-07-27. This handbook provides an overview and synthesis of relevant literature related to the issue of the well-being of working women. This focus addresses a gap that currently exists in the quality of life and well-being fields. The work of the authors answers the following broad questions: Does gender matter in the well-being of working women? Do prejudices against and stereotypes of women still play a role in interpersonal interactions in the workplace that could hinder women from flourishing professionally? Does the organizational context, such as organizational culture, reward systems, and leadership, contribute to the well-being of working women? What impact does the national context have on the well-being of working women? And finally, how can public policies help enhance the well-being of working women? These are important issues for academics, researchers, and graduate students interested in gender issues in the fields of management, sociology, psychology, social psychology, economics, and quality of life studies. Policy makers and practitioners will also find this book beneficial. Equitable treatment and outcomes for all, regardless of gender, remains a challenging goal to achieve with various barriers in different contexts and different cultures, and this book provides strong coverage of this important topic of well-being of working women.

**Prescribing HIV Prevention**

Nicola Bulled, 2016-06-16. Critical health communication scholars point out that the acceptance of HIV risk prevention methods are bound inside inequitable structures of power and knowledge. Nicola Bulled's in-depth ethnographic account of how these messages are selected, transmitted, and reacted to by young adults in the AIDS-torn population of Lesotho in southern Africa provides a crucial example of the importance of a culture-centered approach to health communication. She shows the clash between traditional western perceptions of how

increased knowledge will increase compliance with western ideas of prevention and mixed messages offered by local religious educational and media institutions Bullard also demonstrates how structural and geographical forces prevent the delivery and acceptance of health messages and how local communities shape their own knowledge of health disease and illness This volume will be of interest to medical anthropologists and sociologists to those in health communication and to researchers working on issues related to HIV

*Human Development Report 2005* United Nations Development Programme,2005 The Human Development Report 2005 examines the scale of the challenge facing the world at the start of the ten year countdown to the 2015 Millennium Development Goals mark The Report focuses on three pillars of cooperation each of which is in urgent need of renovation The first pillar is international aid the Millennium Development Goals MDGs project has been compromised by chronic and sustained under financing allied to problems in aid quality The second pillar is international trade Under the right conditions trade can act as a powerful catalyst for human development The development round of World Trade Organization talks launched in 2001 provided northern governments with an opportunity to create those conditions The third pillar is that of security violent conflict is a source of systematic human rights violation and a barrier to progress towards the MDGs that must be overcome
