Global excellence in ethnopharmacology: Africa Hellen Oketch-Rabah, David R. Katerere, Fawzi Mohamad Mahomoodally, 2025-07-31 The practice of traditional medicine in Africa African Traditional Medicine ATM has a long history dating back thousands of years and has resulted in a wealth of therapeutic agents from plants and animals used in the treatment diseases Most of the associated knowledge about these medicines has been passed down from generation to generation via oral folklore However as a result of westernization and globalization and the loss of natural habitats and biodiversity as well as the loss of oral traditions the empirical knowledge associated with medicinal substances is at a risk of being lost forever A great deal of related research has been done and published in academic doctorate and master s theses most of which are available only as hard copies at the respective universities in herbal texts and journals Most of these works have not been published and made available to the international community It is well acknowledged that the origin of many drugs can be traced back to natural sources for example artemisinin ephedrine tubocurarine digoxin reserpine Some popular herbal medicines have their origin in African plants for example Umckaloabo EPs 7630 a standardized proprietary extract of *Perlagonium sidoides* used in some over the counter medicines for upper respiratory infections Other African plants have also offered medicines and or healthcare products and pharmacologically active compounds e g *Prunus africana* bark extracts for the management for prostate and lower urinary tract symptoms LUTS yohimbe from *Pausinystalia johimbe* or Bitter Aloe or Cape Aloes *Aloe ferox* This Research Topic is intended to highlight primary research on pharmacological and biological effects of plants fungi animals microorganisms and minerals used in African traditional medicine for humans and livestock We welcome articles on the documentation of indigenous knowledge on medicines and medical practices the pharmacology and pharmacognosy of indigenous African medicines and the search for pharmacologically active principles of traditional African medicines Review articles covering the study areas delineated above should reflect the multi disciplinary nature of ethnopharmacology The sub topics to be covered within this Research Topic include but are not limited to the following Pharmacological and biological effects of organisms plants fungi animals microorganisms and minerals used in African traditional medicine Indigenous knowledge on medicines medical practices ethnoveterinary food and cosmetic uses Pharmacology and or pharmacognosy of indigenous African medicines The search for pharmacologically active principles of traditional African medicines antivirals antibacterial antifungal Clinical trials using formulations based on ATM Commercialization and R D utilizing African bioresources All the manuscripts submitted to the collection will need to fully comply with the Four Pillars of Best Practice in Ethnopharmacology you can freely download the full version here We also expect that the MS follow the standards established in the ConPhyMP statement *Front Pharmacol* 13 953205

Innovations as Key to the Green Revolution in Africa Andre Bationo, Boaz Waswa, Jeremiah M. Okeyo, Fredah Maina, Job Maguta Kihara, 2011-08-30 Africa can achieve self sufficiency in food production through adoption of innovations in the agriculture sector Numerous soil fertility and crop production technologies have been generated through research however wide adoption has been low African farmers need better technologies more sustainable practices and fertilizers to improve and sustain their crop productivity and to prevent further degradation of agricultural lands The agricultural sector also needs to be supported by functional institutions and policies that will be able to respond to emerging challenges of globalization and climate change

Innovations in Global Mental Health Samuel O. Okpaku, 2021-11-02 Over the course of the last decade political and mental entities at large have embraced global mental health the idea that psychiatric health is vital to improved quality of life Physicians globally have implemented guidelines recommended by the National Institute of Mental Health NIMH in 2007 thereby breaking down barriers to care and improving quality of life in areas where these practices have been implemented Programs for training and education have expanded as a result Clinicians benefit more from both local resources in some regions as well as in international collaboration and technological advancements Even amidst all of these positive outcomes clinicians still face some stumbling blocks With worldwide statistics estimating that 450 million people struggle with mental neuropsychiatric and neurological disorders 25 percent of the world's non communicable disease burden rising to these challenges prove to be no small feat even in wealthy Western nations Various articles and books have been published on global mental health but few of them thoroughly cover the clinical research innovative and social implications as they pertain to psychiatry often only one of these aspects is covered A comprehensive text that can keep pace with the rapidly evolving literature grows more and more valuable each day as clinicians struggle to piece together the changes around the world that leave open the possibility for improved outcomes in care This book seeks to boldly rectify this situation by identifying innovative models of service delivery training education research funding and payment systems that have proven to be exemplary in implementation and scalability or have potential for scalability Chapters describe specific barriers and challenges illuminating effective strategies for improved outcomes This text is the first peer reviewed resource to gather prestigious physicians in global mental health from around the world and disseminate their expertise in the medical community at large in a format that is updateable making it a truly cutting edge resource in a world constantly changed by medical scientific and technological advances Innovations in Global Mental Health is the ultimate resource for psychiatrists psychologists primary care physicians hospitalists policy makers and all medical professionals at the forefront of global mental health and its implications for the future Beauty P.Y.

Kiprop-Mbaaga, 2015-07-27 Works of art broadly speaking is interesting To be able to do something in creative writing is joy for an artist This is most especially through poetry as a talent hobby The hundred compositions mirror five things principally Firstly is how poetry makes an earnest attempt to capture language at its deeper level Secondly is how poetry can be made to

appeal indiscriminately Thirdly is pursuing the possibility of poetry being a catechetical tool in the Roman Catholic Tradition Fourthly like an ice berg is of the immensity of a recognized and actualized talent more so when it flexes its muscles as a hobby in constructive leisure thanks to the God given poetic spark Lastly the acme for that matter is the Judaic age old adage that the reverential fear of the Lord is the genesis of knowledge wisdom and discipline cf Prov 1 7 Ps 111 10 Is 11 2 All this is in the context of a reading reflecting writing culture This is a culture that is worth inculcating in our lives Try it today if you have not and you will behold its beauty Is it not the nature of those who read and or reflect to write The Poems are arranged on seven fold broad based thematic sections These are Wonder Moments Events Circumstances Personalities Dedications and Institutions In a word Beauty Book I present poetry for everybody anywhere everywhere *Shareholder Value and the Common Good* David Lutz,Paul Mimbi,2005 What is the objective or purpose of business Management According to the dominant theory of contemporary financial management scholarship agency theory business managers are obligated to maximise owner or shareholder value According to most theories of business ethics however some owner value maximising actions should not be performed because they would be unethical Because business management scholars and business ethics scholars have not resolved this contradiction students of commerce receive a contradictory education The twenty five essays in this interdisciplinary international volume address the question of the objective or purpose of business management from a wide range of theoretical perspectives Since some of the writers contradict one another it is not possible that all of them are correct Nevertheless the fact that many of them argue persuasively that business managers should aspire to more than maximisation of a financial variable challenges everyone with a theoretical or practical interest in commerce to reconsider acceptance of the owner value paradigm and to develop a richer conception of the profession of business management **Child Maltreatment in Residential Care** Adrian V. Rus,Sheri R. Parris,Ecaterina Stativa,2017-08-11 This data rich volume reviews short and long term consequences of residential or institutional care for children across the globe as well as approaches to reducing maltreatment Up to date findings from a wide range of developing and developed countries identify forms of abuse and neglect associated with institutionalization and their effects on development and pathology in younger children adolescents and alumni The sections on intervention strategies highlight the often conflicting objectives facing professionals and policymakers balancing the interests of children families and facilities But despite many national and regional variations two themes stand out the universal right of children to live in safety and the ongoing need for professionals and community to ensure this safety Included among the topics Maltreatment and living conditions in long term residential institutions for children Outcomes from institutional rearing Recommendations to improve institutional living Historical political socio economic and cultural influences on Child Welfare Systems Latin American and the Caribbean African Asian Middle Eastern Western and Eastern European countries and the United States of America are presented Child Maltreatment in Residential Care will inform psychology professionals interested in the role of residential care in the lives of

children and possibilities for improved outcomes It will also interest social workers and mental health practitioners and researchers seeking evidence based interventions for families adopting children from residential care
