University Of Forethare:

Brochure University College of Fort Hare,1958 **A History of the University College of Fort Hare, South Africa, the 1950s** Donovan Williams,2001 This book examines how staff and students opposed the legislation to place the college under government control and reduce its staff to civil servants The affairs of the college are discussed against the background of rapidly changing conditions in South Africa with campus disturbances and protests sometimes linked to the wider application of apartheid **BOOK JACKET** University of Fort Hare ... Autonomy ... University College of Fort Hare,1970 **University College of Fort Hare, Etc. (Edited by F.H. Rand.) [With Illustrations.].** University College of Fort Hare,F. H. RAND,1958 Climate Action in Southern Africa Philani Moyo,2023-10-27 Using climate justice as an analytical tool this volume examines the role of local mitigation and adaptation actions in Southern Africa in furthering climate resilient development Climate Action in Southern Africa examines the intrinsic connection between local climate actions climate resilient development and strides towards a just transition The theoretical grounding in climate justice allows the authors to analyse whether current climate actions in Africa are truly effective for the poor and marginalised whose lives and livelihoods are impacted by a climate crisis largely not of their making The authors also question the extent to which pathways to net zero carbon emissions by 2050 are achievable in Africa and ask whether this can be attained without undermining livelihoods and human development Overall this book argues that for any transition to be a just transition it has to be aligned with the pursuit of sustainable development and climate justice for current and future generations on the African continent Drawing out key factors including politics gender and migration this volume will be of great interest to students and scholars of climate change climate justice and African development South African Urban Change Three Decades After Apartheid Anthony Lemon,Ronnie Donaldson,Gustav Visser,2021-06-10 This book provides an analysis of South African urban change over the past three decades It draws on a seminal text Homes Apart and revisits conclusions drawn in that collection that marked the final phases of urban apartheid It highlights changes in demography social as well as economic structure and their differential spatial expression across a range of urban sites in South Africa The evidence presented in this book points to a very complex set of narratives in urban South Africa and one that cannot be reduced to a singular statement so the conclusions of the various investigations are in many ways open As urban apartheid represented one clear outcome its post apartheid urban legacies varies greatly from city to city As such this book is a great resource to students and academics focused on urban change in South African cities since the demise of apartheid and scholars of urban policy making in South Africa and Southern urbanists generally Socio-ecological-economic reflections on the impacts of COVID-19 in Africa Willie Chinyamurindi,Philani Moyo,2025-02-28 This scholarly book magnifies reflections from young scientists in South Africa Africa and beyond around the COVID 19 pandemic With contributions by upcoming scientists this scholarly book provides a synopsis of socio ecological economic views on the impact of COVID 19 Through its chapters the

book takes a multi disciplinary approach to reflecting on what it was like to be a scientist during the COVID 19 pandemic By doing so each chapter re imagines science from the viewpoint of its discipline offering insights from the perspective of young scientists that could benefit other scholars academics and policymakers

Culture, philosophies and reforms in public administration for the globalizing world Edwin O.C. Ijeoma,Ogochukwu I. Nzewi,2018-12-31 The aim of this scholarly collected work is to contribute to the scientific discourse on public administration in a globalised environment The book reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives the so called grand debates such as New Public Management and specifically the role of technology It also reflects on the so called middle range discourses concerning organisational level

issues in government e.g. leadership and work procedures and explores new solutions to old governance challenges like corruption and service delivery. The uniqueness of this collected work lies in its ability to reflect on existing philosophies and practices in an innovative way. Through its multidisciplinary lens, the book opens up a new vision for the future of public administration in the South African context and on the African continent, not neglecting the current local, regional and global environment. Until recently, globalisation was considered an entrenched world order, but international political events during the course of the past few years have resulted in one of the biggest challenges to its endurance in recent history. This includes developments such as the successful referendum in Britain to exit the European Union, highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of the unravelling of the current globalism world order. These developments inspire deeper interrogation of the challenges to effective public administration globally and the ripple effects in South Africa and Africa as a whole. Pointedly, it is evident that ensuring the voice of citizens in policy decision making remains a critical governance challenge. On the policy front, there are perennial challenges of land reform, service delivery and poverty, while on the governance front, corruption has metastasised with a growing culture of impunity and lack of accountability in leadership. In the midst of growing corruption and more than 20 years into democracy, South Africa's income inequality remains one of the highest in the world. This setting constitutes the context of the research outcome published in this scholarly work.

Human Rights and Dynamic Humanism Winston P. Nagan, John A.C. Cartner, Robert J. Munro, 2016-11-07. This book emphasizes a forgotten aspect of human rights, i.e. to establish that human rights captures its meaning from human activism and advocacy. It explores factors which drive the advocacy of human rights, integrating religious values reflected in human rights law. The book explores human rights activism in the history of ideas and the contributions of Celtic culture. It develops the framework for understanding the human rights struggle and the advocacy functions which drive it, exploring the critical role of emotion in the form of sentiment, either positive or negative, that promotes or prevents human rights violations. The negative sentiment chapter explores the major forms of human rights violations. Positive sentiment explores the role of affect, empathy and human solidarity in the promotion of the culture of human rights. Further chapters explore affect, gender and sexual orientation, human rights and socio-economic justice, human rights and revolution, transitional justice, indigenous human rights, nuclear weapons and intellectual property.

The Origin and Growth of Geography as a discipline at South Africa Universities Gustav Visser, 2016-09-20. The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities. The book showcases a broad and textured review of South Africa's geography departments, their staff members, their times and the different Geographies they engaged in. The book lays the foundation from which more expansive individual departmental histories can be written in the future.

Contemporary issues in South African education, 2025-09-01. South African education is widely regarded as being in crisis, facing deep and persistent challenges. This reality is

starkly reflected in international assessments such as the 2021 Progress in International Reading Literacy Study PIRLS where South Africa ranked last among 43 countries and recorded the steepest decline of all participants This book brings together leading scholars to examine critical issues shaping South African education today Each chapter focuses on a key topic offering authoritative insights into the system s weaknesses and potential pathways for improvement Employing qualitative research methods the authors provide in depth analyses that enrich scholars understanding of the country s educational landscape and point toward solutions for a more equitable and effective system Getaway Guide Eastern Cape & Wild Coast Michael Brett,2012-02-23 The Eastern Cape province has something to offer every visitor whether you are looking for a relaxed beach holiday or a close encounter with wildlife a cultural experience or a trip back into history The province contains areas of almost unrivalled natural beauty and the range of landscape and vegetation types is simply incredible from the snowy mountains of the Drakensberg the wide open arid plains and rugged mountains of the Karoo gently rolling grassy hills with forest patches tucked into their valleys and deeply incised thicket crowded river valleys not to forget the finest sandy beaches set on a pristine coastline This authoritative and comprehensive guide contains up to date information that will help you to make the most of your visit to this region This guide includes Background information on the province s geography climate people and culture Ten regional chapters from Tsitsikamma to the mountainous interior Over 50 maps including a map of each region all the major towns and most of the smaller towns The latest info on national parks and provincial reserves Accommodation options from camping sites and backpackers lodges to guesthouses and hotels that will suit all budgets Where to eat and where to shop Engineering Design and Mathematical Modelling Nnamdi Nwulu,Mammo Muchie,2020-12-17 Engineering Design and Mathematical Modelling Concepts and Applications consists of chapters that span the Engineering design and mathematical modelling domains Engineering design and mathematical modelling are key tools techniques in the Science Technology and Innovation spheres Whilst engineering design is concerned with the creation of functional innovative products and processes mathematical modelling seeks to utilize mathematical principles and concepts to describe and control real world phenomena Both of these can be useful tools for spurring and hastening progress in developing countries They are also areas where Africa needs to skill up in order to build a technological base The chapters in this book cover the relevant research trends in the fields of both engineering design and mathematical modelling This book was originally published as a special issue of the African Journal of Science Technology Innovation and Development Livelihoods and Landscapes Paulus Gerardus Maria Hebinck,Peter C.
