**Distant Readings of Disciplinarity** Benjamin Miller, 2022-12-28 In *Distant Readings of Disciplinarity* Benjamin Miller brings a big data approach to the study of disciplinarity in rhetoric composition and writing studies. RCWS by developing scalable maps of the methods and topics of several thousand RCWS dissertations from 2001 to 2015. Combining charts and figures with engaging and even playful prose, Miller offers an accessible model of how large-scale data-driven research can advance disciplinary understanding both answering and amplifying the call to add replicable data analysis and visualization to the mix of methods regularly employed in the field. Writing studies has long been marked by a multitude of methods and interlocking purposes partaking of not just humanities approaches but also social scientific ones with data drawn from interviews and surveys alongside historical and philosophical arguments and with corpus analytics in large-scale collections jostling against small-scale case studies of individuals. These areas of study aren't always cleanly separable; shifting modes mark the discipline as open and welcoming to many different angles of research. The field needs to embrace that vantage point and generate new degrees of familiarity with methods beyond those of any individual scholar. Not only a training genre and not only a

knowledge making genre the dissertation is also a discipline producing genre Illustrating what the field has been studying and how Distant Readings of Disciplinarity supports more fruitful collaborations within and across research areas and methods Issues in Teaching and Education Policy, Research, and Special Topics: 2013 Edition ,2013-05-01 Issues in Teaching and Education Policy Research and Special Topics 2013 Edition is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Education Testing and Evaluation The editors have built Issues in Teaching and Education Policy Research and Special Topics 2013 Edition on the vast information databases of ScholarlyNews You can expect the information about Education Testing and Evaluation in this book to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Issues in Teaching and Education Policy Research and Special Topics 2013 Edition has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>

**INVESTIGATING COMPARABILITY OF WRITING TASKS WITH PICTURE PROMPTS IN AN IN-HOUSE ENGLISH PROFICIENCY TEST** YALI SHI,2022-04-28 For security reasons using parallel writing tasks within or across different test administrations is common practice in large scale language testing Lack of task comparability would result in unjustified variance in test performance and consequently jeopardize test validity and fairness Thus it is crucial for test developers to gather empirical evidence from different aspects to substantiate the fairness argument that scores are consistent and score based decisions are impartial across parallel tasks Despite many studies hitherto on writing task comparability those addressing picture prompt writing tasks in an integrated manner have remained quite underexplored Therefore this book investigates the comparability of five writing tasks with picture prompts randomly assigned across testing occasions in an in house English proficiency test EPT of a comprehensive university from three perspectives the scores the texts and the raters and test takers Results show that task difficulty is not comparable either in terms of some lexical syntactic and content features elicited or as judged by raters and test takers which could be related with topic familiarity and conceptual clarity of the picture prompt Yet overall task comparability is achieved in not only final scores but also score distribution and classification accuracy The findings support the fairness argument for EPT writing and provide theoretical practical and methodological implications **Writing Resistance and the Question of Gender** Lara R.
