**Ownership and Governance of Companies** Jonathan Michie, Vishnu Padayachee, 2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a

role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC's mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics

*Understanding Boko Haram* James J. Hentz, Hussein Solomon, 2017-05-08 The primary objective of this book is to understand the nature of the Boko Haram insurgency in northeast Nigeria Boko Haram's goal of an Islamic Caliphate starting in the Borno State in the North East that will eventually cover the areas of the former Kanem Borno Empire is a rejection of the modern state system forced on it by the West The central theme of this volume examines the relationship between the failure of the state building project in Nigeria and the outbreak and nature of insurgency At the heart of the Boko Haram phenomenon is a country racked with cleavages making it hard for Nigeria to cohere as a modern state Part I introduces this theme and places the Boko Haram insurgency in a historical context There are however multiple cleavages in Nigeria ethnic regional cultural and religious and Part II examines the different state society dynamics fuelling the conflict Political grievances are common to every society however what gives Boko Haram the space to express such grievances through violence Importantly this volume demonstrates that the insurgency is in fact a reflection of the hollowness within Nigeria's overall security Part III looks at the responses to Boko Haram by Nigeria neighbouring states and external actors For Western actors Boko Haram is seen as part of the global war on terror and the fact that it has pledged allegiance to ISIS encourages this framing However as the chapters here discuss this is an over simplification of Boko Haram and the West needs to address the multiple dimension of Boko Haram This book will be of much interest to students of terrorism and political violence insurgencies African politics war and conflict studies and IR in general

Lion's Share Veit Erlmann, 2022-10-28 In the aftermath of apartheid South Africa undertook an ambitious revision of its intellectual property system In Lion's Share Veit Erlmann traces the role of copyright law in this process and its impact on the South African music industry Although the South African government tied the reform to its postapartheid agenda of redistributive justice and a turn to a postindustrial knowledge economy Erlmann shows how the persistence of structural racism and Euro modernist conceptions of copyright threaten the viability of the reform project In case studies ranging from antipiracy police

raids and the crafting of legislation to protect indigenous expressive practices to the landmark lawsuit against Disney for its appropriation of Solomon Linda's song Mbube for its hit The Lion Sleeps Tonight from The Lion King. Erlmann follows the intricacies of musical copyright through the criminal justice system, parliamentary committees and the offices of a music licensing and royalty organization. Throughout he demonstrates how copyright law is inextricably entwined with race, popular music, postcolonial governance, indigenous rights and the struggle to create a more equitable society. Impact of Economic Crisis on Education and the Next-Generation Workforce Ordóñez de Pablos, Patricia, 2015-10-13 With the evolution of information technologies, mobile devices and social media, educators must learn to build and utilize new forms of content delivery, new teaching methodologies for academics and special learning environments tailored to the needs of adult students. Through this book, professors, students, politicians, policymakers, corporate leaders, senior general managers, managing directors, information technology directors and managers will understand the evolution and needs of new labor markets, including challenges for education, higher education and reforms, mobile and distance learning in higher education, problems in the current labor market and the role of faculty with respect to workforce training.

**Music Education in Africa** Emily Achieng' Akuno, 2019-04-01 This book explores the music of Africa and its experience in modern education, offering music education analyses from African perspectives. The collection assembles insights from around Africa to bring African and non-African scholars into the world of music education policy and assessment as played out across the continent. The music of Africa presents multiple avenues for the understanding of the reality of life from a cultural perspective. The teaching and learning of this music closely follows its practice, the latter involving a combination of artistic expressions. With international interest in world music, there is a need to engage with concepts and processes of this music. The volume offers new research from culture bearers, scholars and educators rooted in practices that provide deeper perceptions of the cultural expression of music. With sections focussing on Concepts in Musical Arts, Musical Arts Processes and Music Education Practice, it captures and documents the concept of musical arts from an African experiential perspective. Articulating the processes of musical arts and their implications for teaching and learning in both African and international learning contexts, it presents a balanced view of music as a phenomenon and generates material for discussion. A valuable resource for those seeking insight into aspects of music practice in Africa, this book will appeal to scholars of Music Education, Ethnomusicology, Community Music, African Studies and African Music. **E-Government** Kelvin J.
