University Of Pretoria O Application 2016

Ceyhun, Gökçe Çiçek

University Of Pretoria O Application 2016:

Hostile Business and the Sovereign State Michael J. Strauss,2018-12-14 This book describes and assesses an emerging threat to states territorial control and sovereignty the hostile control of companies that carry out privatized aspects of sovereign authority The threat arises from the massive worldwide shift of state activities to the private sector since the late 1970s in conjunction with two other modern trends the globalization of business and the liberalization of international capital flows The work introduces three new concepts firstly the rise of companies that handle privatized activities and the associated advent of post government companies that make such activities their core business Control of them may reside with individual investors other companies or investment funds or it may reside with other states through state owned enterprises or sovereign wealth funds Secondly imperfect privatizations when a state privatizes an activity to another state s public sector The book identifies cases where this is happening It also elaborates on how ownership and influence of companies that perform privatized functions may not be transparent and can pass to inherently hostile actors including criminal or terrorist organizations Thirdly belligerent companies whose conduct is hostile to those of states where they are active The book concludes by assessing the adequacy of existing legal and regulatory regimes and how relevant norms may evolve   Theoretical Orientations and Practical Applications of Psychological Ownership Chantal Olckers,Llewellyn van Zyl,Leoni van der Vaart,2017-11-27 This book shares the theoretical advancements that have been made regarding psychological ownership since the development of the construct and specifically the practical applications within multi cultural and cross cultural environments Enriched by empirical data and case studies by subject specialists in the field this book serves as a cutting edge benchmark for human resource management specialists industrial psychologists as well as students in positive organizational psychology and professionals in other fields This book follows an in depth view of the most recent research trends in psychological ownership Offering practical tools of how the psychological ownership of employees could be developed in the workplace to not only enhance the performance of organisations but to increase the commitment of employees and influence the intentions of skilled employees to remain with their organisations   Handbook of Research on the Applications of International Transportation and Logistics for World Trade Ceyhun, Gökçe Çiçek,2019-12-06 In today s developing world international trade is a field that is rapidly growing Within this economic market traders need to implement new approaches in order to satisfy consumers rising demands Due to the high level of competition merchants have focused on developing new transportation and logistics strategies In order to execute effective transportation tactics decision makers need to know the fundamentals current developments and future trends of intercontinental transportation The Handbook of Research on the Applications of International Transportation and Logistics for World Trade provides emerging research exploring the effective and productive solutions to global transportation and logistics by applying fundamental and in depth knowledge together with current applications and future aspects Featuring coverage on a broad range of topics such as

international regulations inventory management and distribution networks this book is ideally designed for logistics authorities trading companies logistics operators transportation specialists government officials managers policymakers researchers academicians and students   Disruptive Technology: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2019-07-05 The proliferation of entrepreneurship technological and business innovations emerging social trends and lifestyles employment patterns and other developments in the global context involve creative destruction that transcends geographic and political boundaries and economic sectors and industries This creates a need for an interdisciplinary exploration of disruptive technologies their impacts and their implications for various stakeholders widely ranging from government agencies to major corporations to consumer groups and individuals Disruptive Technology Concepts Methodologies Tools and Applications is a vital reference source that examines innovation imitation and creative destruction as critical factors and agents of socio economic growth and progress in the context of emerging challenges and opportunities for business development and strategic advantage Highlighting a range of topics such as IT innovation business strategy and sustainability this multi volume book is ideally designed for entrepreneurs business executives business professionals academicians and researchers interested in strategic decision making using innovations and competitiveness   **Fuzzy Logic Hybrid Extensions of Neural and Optimization Algorithms: Theory and Applications** Oscar Castillo,Patricia Melin,2021-03-24 We describe in this book recent developments on fuzzy logic neural networks and optimization algorithms as well as their hybrid combinations and their application in areas such as intelligent control and robotics pattern recognition medical diagnosis time series prediction and optimization of complex problems The book contains a collection of papers focused on hybrid intelligent systems based on soft computing There are some papers with the main theme of type 1 and type 2 fuzzy logic which basically consists of papers that propose new concepts and algorithms based on type 1 and type 2 fuzzy logic and their applications There also some papers that presents theory and practice of meta heuristics in different areas of application Another group of papers describe diverse applications of fuzzy logic neural networks and hybrid intelligent systems in medical applications There are also some papers that present theory and practice of neural networks in different areas of application In addition there are papers that present theory and practice of optimization and evolutionary algorithms in different areas of application Finally there are some papers describing applications of fuzzy logic neural networks and meta heuristics in pattern recognition problems   **Exploring Global FinTech Advancement and Applications** Taherdoost, Hamed,Le, Nam,Madanchian, Mitra,Farhaoui, Yousef,2024-02-07 In the world of FinTech scholars face an overwhelming dilemma it is challenging to access comprehensive and up to date information across various regions with regards to timeliness The transformative power of FinTech driven by innovations such as blockchain AI analytics and mobile payment systems has reshaped financial transactions influenced economic growth and spurred competition among traditional financial institutions However the lack of a comprehensive scholarly resource

hinders the ability of academics policymakers and industry professionals to navigate and comprehend these intricate developments The need for a centralized repository of knowledge has become increasingly urgent hindering the collective understanding of the complex dynamics of FinTech on a global scale Exploring Global FinTech Advancement and Applications stands as a groundbreaking solution to the academic community s pressing need for a comprehensive understanding of this global financial landscape Through meticulous assessments of countries across each global region each chapter delves into market size FinTech adoption rates services offered key players investments infrastructure government policies economic impacts security concerns academic research synthesis and future trends By consolidating this wealth of information the book becomes an indispensable reference guide for scholars researchers policymakers investors and industry professionals seeking to navigate the intricate dynamics of FinTech on a global scale   ICT Education Janet Liebenberg,Stefan Gruner,2017-11-17 This book constitutes the refereed proceedings of the 46th Annual Conference of the Southern African Computer Lecturers Association on ICT Education SACLA 2017 held in Magaliesburg South Africa in July 2017 The 22 revised full papers presented together with an extended abstract of a keynote paper were carefully reviewed and selected from 63 submissions The papers are organized in topical sections on ICT students of a new generation technology and gaming in nowadays education educational cooperation with the ICT industry computer programming education ICT courses and curricula   **Open and Distance Education in Asia, Africa and the Middle East** Olaf Zawacki-Richter,Adnan Qayyum,2019-02-18 This book is open access under a CC BY 4 0 license This book describes the history structure and institutions of open and distance education in six countries China India Russia Turkey South Africa and South Korea It describes how open and distance education is evolving in a digital age to reflect the needs and circumstances of the national higher education systems in these countries It also explores the similarities and differences between how their open and distance higher education systems are managed and structured This book is the second in a series following Open and Distance Education in Australia Europe and the Americas Springer 2018 Both books compare and draw conclusions about the nature of open and distance education in the context of various national higher education systems In a digital era characterized by the growing use of online open and distance education this book will prove particularly valuable for policy makers and senior administrators who want to learn about establishing or expanding open and distance education services In addition it offers a valuable reference guide for researchers academics and students interested in understanding the different approaches to open and distance education   ECIE 2019 14th European Conference on Innovation and Entrepreneurship (2 vols) Professor Panagiotis Liargovas,2019-09-19   Smart Computing Applications in Crowdfunding Bo Xing,Tshilidzi Marwala,2018-12-07 The book focuses on smart computing for crowdfunding usage looking at the crowdfunding landscape e g reward donation equity P2P based and the crowdfunding ecosystem e g regulator asker backer investor and operator The increased complexity of fund raising scenario driven by the broad economic environment as well as the need for using

alternative funding sources has sparked research in smart computing techniques Covering a wide range of detailed topics the authors of this book offer an outstanding overview of the current state of the art providing deep insights into smart computing methods tools and their applications in crowdfunding exploring the importance of smart analysis prediction and decision making within the fintech industry This book is intended to be an authoritative and valuable resource for professional practitioners and researchers alike as well as finance engineering and computer science students who are interested in crowdfunding and other emerging fintech topics **Language and Institutional Identity in the Post-Apartheid South African Higher Education** Leketi Makalela,2022-03-21 This book examines the intersections between education identity formation and language in post apartheid South Africa with specific attention to higher education It does so against the backdrop of the core argument that the sector plays a critical role in shaping re producing and perpetuating sectoral class sub national and national identities which in turn in the peculiar South African setting are almost invariably analogous with the historical fault lines determined and dictated by language as a marker of ethnic and racial identity The chapters in the book grapple with the nuances related to these intersections in the understanding that higher education language policies overt and or covert largely structure institutional cultures or what has been described as curriculum in higher education institutions Together the chapters examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing and perpetuating or deconstructing ethnolinguistic identities upon which the sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education

Fuzzy Sets, Fuzzy Logic and Their Applications Michael Gr. Voskoglou,2020-03-25 The present book contains 20 articles collected from amongst the 53 total submitted manuscripts for the Special Issue Fuzzy Sets Fuzzy Loigic and Their Applications of the MDPI journal Mathematics The articles which appear in the book in the series in which they were accepted published in Volumes 7 2019 and 8 2020 of the journal cover a wide range of topics connected to the theory and applications of fuzzy systems and their extensions and generalizations This range includes among others management of the uncertainty in a fuzzy environment fuzzy assessment methods of human machine performance fuzzy graphs fuzzy topological and convergence spaces bipolar fuzzy relations type 2 fuzzy and intuitionistic interval valued complex picture and Pythagorean fuzzy sets soft sets and algebras etc The applications presented are oriented to finance fuzzy analytic hierarchy green supply chain industries smart health practice and hotel selection This wide range of topics makes the book interesting for all those working in the wider area of Fuzzy sets and systems and of fuzzy logic and for those who have the proper mathematical background who wish to become familiar with recent advances in fuzzy mathematics which has entered to

almost all sectors of human life and activity   <u>Borders, Legal Spaces and Territories in Contemporary International Law</u> Tommaso Natoli,Alice Riccardi,2019-09-12 This book examines the challenges posed to contemporary international law by the shifting role of the border which has recently re emerged as a central issue in international relations It posits that borders do not merely correspond to States boundaries indeed while remaining a fundamental tool for asserting States power they are in fact a collection of constantly changing spatial limits Consequently the book approaches borders as context specific limits and revisits notions traditionally linked to them jurisdiction sovereignty responsibility individual rights while also adopting the innovative approach of viewing borders as phenomena of both closedness and openness Accordingly the first part of the book addresses what happens within borders investigating the root causes of the emergence of spatial limits and re assessing apparent extra territorial assertions of State power In turn the second part not only explores typical borderless spaces but also more generally considers the exercise of States and international organisations powers and prerogatives across or beyond borders   *Méthod(e)s* Jean-Bernard Ouédraogo,2021-08-09 The bilingual French English journal M thod e s founded in 2015 is an African initiative with the objective to enlarge the methodological debates on the Global South The desire for a strong understanding of methodology is to situate it above academic trends thereby placing it in line with a universal history of the sciences Just as calling dominant paradigms into question leaves room for creative opportunities so does the comparison of theoretical approaches and technical models of data collection Questions related to methods are not purely technical or merely philosophical reflections The examination of the method used in scientific investigations necessarily leads us to question the validity and consequences of research results From this point of view the journal M thod e s is not a forum for simple discussions on the mechanics of research but a tool to question social interests influencing academic research and giving it a political function It is also intended to lead to a more critical look at the creation of theories dealing with the status of individuals and societies in Africa and the Global South M thod e s aims to bring into question connect and compare the theoretical technical and political foundations of the social sciences as applied to human societies Each contribution is followed by a summary in the respectively other language In order to ensure a broad intellectual reach the editors reserve the right to include articles written in other languages All the abstracts of the papers are also available in Arabic Chinese and Spanish   *Reflections on the 2019 South African General Elections* Joleen Steyn Kotze,Narnia Bohler-Muller,2020-12-17 Reflections on the 2019 South African General Elections is a critical reflection on the key lessons of Elections 2019 in South Africa focusing on the future of the country s electoral democracy The volume engages questions on land election campaigns voter turnout voter apathy and how opposition parties will be forced to co exist in the context of declining electoral dominance the ANC once comfortably held An important reflection on the lessons of the 2019 South African General Elections the contributors ask Quo Vadis South Africa The 2019 General Elections marked a watershed in South Africa s political landscape The ANC under the banner of a narrative of regeneration and getting back on

the moral path dipped below the 60 % mark for the first time in South Africa s democratic history This decline in electoral support for the party may be interpreted as a degeneration of the ANC through the loss of its moral stature the erosion of its integrity and disillusionment with its performance as a governing party Opposition political parties could not capitalise on this seeming disillusionment with the ruling ANC Caught in their own factional battles and in the midst of corruption scandals opposition parties were unable to successfully increase their share of the vote and capture the undecided and disillusioned voter Considering the future of South Africa s electoral democracy at 25 years of democracy Reflections on the 2019 South African General Elections will be of great interest to scholars of African Studies South Africa Governance and Elections The chapters in this book were originally published as a special issue of Politikon South African Journal of Political Studies **Afrikaans Linguistics** WAM Carstens,Nerina Bosman,2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics Afrikaans Linguistics Contemporary Perspectives marks a seminal contribution to the field This volume for the first time presents accessible insights into diverse linguistics subdisciplines inviting international scholars to familiarise themselves with Afrikaans language studies Throughout much of the late 19th and 20th centuries Afrikaans scholars predominantly communicated in Afrikaans resulting in a significant gap in the dissemination of knowledge about the language The chapters in this book written by prominent South Africans as well as international scholars working in the field of Afrikaans serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century The primary focus remains on illuminating 21st century research trajectories offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics **Multilingual Education Yearbook 2021** Anthony A. Essien,Audrey Msimanga,2021-05-04 This edited book attempts to foreground how challenges and complexities between policy and practice intertwine in the teaching and learning of the STEM subjects in multilingual settings and how they policy and practice impact on educational processes developments and outcomes The unique feature of this book thus lies in its combination of not just language issues in the teaching and learning of the STEM subjects but also in how these issues relate to policy and practice in multilingual contexts and how STEM research and practice may inform and shape language policies and their implementation in multilingual contexts This book is of interest to stakeholders involved in STEM education such as researchers undergraduate and graduate students tertiary level teachers teacher educators curriculum developers as well as other professionals with responsibilities in STEM education subjects The book is written in a way that is accessible to a wide range of backgrounds including those who are in language education **Green Schools Globally** Annette Gough,John Chi-Kin Lee,Eric Po Keung Tsang,2020-08-31 This book brings together stories of the green schools movement Eco Schools Enviroschools Green Schools Sustainable Schools ResourceSmart Schools etc in several countries around the world with a focus on the impact of the movement on the development and implementation of education for sustainable development in each of the countries In

particular each story will explain the history of the movement per country its current status achievements obstacles and broader impact There have been a number of evaluations of these school movements at a national or more local level and numerous articles and chapters have been published on aspects of these schools activities but to date these have not been brought together in a single volume that focuses attention on the impact of the movement on education for sustainable development in each country This is the purpose of this volume The green schools movement focuses on a whole school approach which aims to include everyone students teachers and the local community to improve school environments including resource usage and the environmental footprint of the school to motivate students to take on environmental problems and seek resolutions particularly at a local level but also thinking globally and to improve students attitudes and behaviours as part of developing a sustainable mind set   **Google Earth Engine Applications** Lalit Kumar,Onisimo Mutanga,2019-04-23 In a rapidly changing world there is an ever increasing need to monitor the Earth s resources and manage it sustainably for future generations Earth observation from satellites is critical to provide information required for informed and timely decision making in this regard Satellite based earth observation has advanced rapidly over the last 50 years and there is a plethora of satellite sensors imaging the Earth at finer spatial and spectral resolutions as well as high temporal resolutions The amount of data available for any single location on the Earth is now at the petabyte scale An ever increasing capacity and computing power is needed to handle such large datasets The Google Earth Engine GEE is a cloud based computing platform that was established by Google to support such data processing This facility allows for the storage processing and analysis of spatial data using centralized high power computing resources allowing scientists researchers hobbyists and anyone else interested in such fields to mine this data and understand the changes occurring on the Earth s surface This book presents research that applies the Google Earth Engine in mining storing retrieving and processing spatial data for a variety of applications that include vegetation monitoring cropland mapping ecosystem assessment and gross primary productivity among others Datasets used range from coarse spatial resolution data such as MODIS to medium resolution datasets Worldview 2 and the studies cover the entire globe at varying spatial and temporal scales   *Industry Use Cases on Blockchain Technology Applications in IoT and the Financial Sector* Mahmood, Zaigham,2021-03-18 Blockchain technology presents numerous advantages that include increased transparency reduced transaction costs faster transaction settlement automation of information increased traceability improved customer experience improved digital identity better cyber security and user controlled networks These potential applications are widespread and diverse including funds transfer smart contracts e voting efficient supply chain and more in nearly every sector of society including finance healthcare law trade real estate and other important areas However there are challenges and limitations that exist such as high energy consumption limited scalability complexity security network size lack of regulations and other critical issues Nevertheless blockchain is an attractive technology and has much to offer to the modern day industry Industry Use Cases on Blockchain

Technology Applications in IoT and the Financial Sector investigates blockchain technology s adoption and effectiveness in multiple industries and for the internet of things IoT based applications presents use cases from industrial and financial sectors as well as from other transaction based services and fills a gap in this respect by extending the existing body of knowledge in the suggested field While highlighting topics such as cybersecurity use cases and models for blockchain implementation this book is ideal for business managers financial accountants practitioners researchers academicians and students interested in blockchain technology s role and implementation in IoT and the financial sector

Recognizing the mannerism ways to get this books **University Of Pretoria O Application 2016** is additionally useful. You have remained in right site to begin getting this info. acquire the University Of Pretoria O Application 2016 associate that we have enough money here and check out the link.

You could purchase guide University Of Pretoria O Application 2016 or get it as soon as feasible. You could quickly download this University Of Pretoria O Application 2016 after getting deal. So, next you require the ebook swiftly, you can straight get it. Its so utterly easy and appropriately fats, isnt it? You have to favor to in this spread
