University Of Pretoria Prospects 2016:

From #RhodesMustFall Movements to #HumansMustFall Movements Artwell Nhemachena, Jairo Kangira, 2021-05-14 Might it be possible that the world is being migrated into an era where the imperial periphery will be increasingly governed through Artificial Intelligence AI and robotics designed to replace human beings Celebrated as efficient strong unfailing tireless precise and beyond corruption AI and robots are set to replace African leaders who are imperially deemed to be and consistently condemned as corrupt failed weak and inefficient But if these AI and robots are neo imperial tools and machinations the million dollar question is whether empire is not returning to recolonise the supposedly inefficient Africans via the new technologies and machinism Where Africans once celebrated their liberation war movements empire has emplaced what it calls liberation technologies designed to supposedly liberate African youths from their own states and governments led by liberation movements Where Africans once celebrated their liberation war movements empire has placed its own NGOs CSOs spewing liberal ideologies designed to ostensibly liberate African youths from their own supposedly failed and corrupt states and government leaders With African youths citizens allying not with their liberation movements but with the liberation technologies and liberal NGOs CSOs it is not surprising why African citizens oppose their states led Fast Track Land Redistribution Programmes while ironically they happily celebrate Fast Tracked COVID 19 Vaccines Positing the notion of HumansMustFall movements this book underscores ways in which empire is in a process of eternal return to 21st century Africa The book is crucial for scholars and activists in political science government studies sociology anthropology cultural studies history languages and communication studies security studies military studies and development studies *Hidden Pretoria* Johan Swart, 2019-10-01 Despite being South Africa's capital city Pretoria has often played a supporting role to bold and brash Johannesburg and Cape Town's cosmopolitan charms However when it comes to architectural heritage the Jacaranda City is well endowed From the skyline dominating Union Buildings and Voortrekker Monument to the imposing edifices of its administrative precincts Pretoria might be deserving of a second moniker the city of sandstone brick and granite But when you look beyond the impressive facades soaring columns and linear planes of buildings that were intended to convey power and authority you'll find light filled interiors embellished with decorative touches that are only hinted at from the outside Murals mosaics domes galleries stained glass windows gleaming brass and impressive woodwork are often hidden from view behind doors that are closed to the public And even those museums buildings and places of worship that are open to all have noteworthy architectural and design features that are easily overlooked The history of the city and of the country has been played out in many of the buildings featured in *Hidden Pretoria* This book captures facets of our diverse heritage historic and contemporary so that a new generation might recognise the need to embrace the past in order to build our common future **Integrating Predation Risk Across Scales: From Neurons to Ecosystems and Milliseconds to Generations** Jacqueline Jeannette Blundell, Evan Preisser, 2020-06-04 **Recalibrating**

teacher training in African higher education institutions Sifiso Sibanda, Gideon (Deon) P. van Tonder, Washington T. Dudu, 2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education. This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning. This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimaged to subvert the challenges wrought by the pandemic. This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time. The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark.

Uprooting University Apartheid in South Africa Teresa A. Barnes, 2018-12-07 South Africa continues to be an object of fascination for people everywhere interested in social justice issues, postcolonial studies and critical race theory as manifested by the enormous worldwide attention given to the RhodesMustFall movement. In this book Teresa Barnes examines universities' complex positioning in the apartheid era and argues that tracing the institutional legacies left by pro apartheid intellectuals are crucial to understanding the fight to transform South African higher education. A work of interpretive social history, this book investigates three historical dynamics in the relationship between the apartheid system and South African higher education. First, it explores how the legitimacy of apartheid was historically reproduced in public higher education. Second, it looks at ways that academics maneuvered through and influenced national and international discourses of political freedom and legitimacy. Third, it explores how and where stubborn tendrils of apartheid era knowledge production practices survived into and have been combatted during the democratic era in South African universities.

Research Anthology on Vocational Education and Preparing Future Workers Management Association, Information Resources, 2022-04-08 Many students across the globe seek further education for future employment opportunities. Vocational schools offer direct training to develop the skills needed for employment. New emphasis has been placed on reskilling the workforce as technology has infiltrated all aspects of business. Teachers must be prepared to teach these new skill requirements to allow students to directly enter the workforce with the necessary competences intact. As the labor market and industry are changing, it is essential to stay current with the best teaching practices within vocational education courses to provide the future workforce with the proper tools and knowledge. The Research Anthology on Vocational Education and Preparing Future Workers discusses the development opportunities and challenges of vocational education courses and how to best prepare students for future employment. It presents the best practices in curriculum development for vocational education courses and analyzes student outcomes. Covering topics such as industry-academia collaboration, student satisfaction, and competency.
