University Of Witswatersrand Prospectus 2015:

Global University Rankings and the Mediatization of Higher Education Michelle Stack, 2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities. However, this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research. If they do not participate in the rankings they risk losing public funding, students and donors in an increasingly competitive and globalized environment. This book delves into the influence of journalists, business tycoons and multinational corporations in defining what world class is and how it will be measured. Rankings provide us with a rich study for understanding how universities define, deploy and manage their assets and liabilities in a mediatized, globalized economy.

Places of Privilege, 2018-07-19 *Places of Privilege* examines dynamics of privilege and power in the construction of place in a period of the rapid social transformation of places, borders and boundaries. Drawing on interdisciplinary perspectives, the book examines place as a site for the making and re-making of privilege while considering new meanings of community and examining spaces for cultural identity and resistance. Chapters point to a range of conceptual resources that can be utilised to produce critical analyses of place-making. As the authors point out, power and privilege shape place, but these dynamics are in turn shaped by the specific place-based histories and social dynamics within which they are located. Contributors are Lutfiye Ali, Alison M. Baker, Paola Bilbrough, Tony Birch, Jora Broerse, Sally Clark, Josephine Cornell, Yon Hsu, Lou Iaquinto, Karen Jackson, Shose Kessi, Rebecca Lyons, Chris McConville, Nicole Oke, Amy Quayle, Alexandra Ramirez, Kopano Ratele, Christopher C. Sonn and Ram n Spaaij.

Artefacts of Writing Peter D. McDonald, 2017-10-11 Some forms of literature interfere with the workings of the literate brain, posing a challenge to readers of all kinds, including professional literary critics. In *Artefacts of Writing*, Peter D. McDonald argues they pose as much of a challenge to the way states conceptualise language, culture and community. Drawing on a wealth of evidence from Victorian scholarly disputes over the identity of the English language to the constitutional debates about its future in Ireland, India and South Africa, and from the quarrels over the idea of culture within the League of Nations in the interwar years to UNESCO's ongoing struggle to articulate a viable concept of diversity, McDonald brings together a large ensemble of legacy writers, including T. S. Eliot, James Joyce and Rabindranath Tagore, putting them in dialogue with each other and with the policy makers who shaped the formation of modern states and the history of internationalist thought from the 1860s to the 1940s. In the second part of the book, he reflects on the continuing evolution of these dialogues, showing how a varied array of more contemporary writers, from Amit Chaudhuri, J. M. Coetzee and Salman Rushdie to Antjie Krog, Arvind Krishna Mehrotra and Esia Mphahlele, cast new light on a range of questions concerning education, literacy, human rights, translation, indigenous knowledge and cultural diversity that have preoccupied UNESCO since 1945. At once a novel contribution to institutional and intellectual history and an innovative exercise in literary and philosophical analysis, *Artefacts of Writing* affords a unique

Climate and the Picturesque in the American Tropics Michael Boyden, 2022 This book explains how we came to think of the climate as something abstract and remote rather than a force that actively shapes our existence It shows how the writings of American travellers in the Caribbean registered and pushed forward a new understanding of the climate in a pivotal period in modern history roughly between 1770 and 1860

Hans Christian Andersen in American Literary Criticism of the Nineteenth Century Herbert Rowland, 2020-11-03 In *Hans Christian Andersen in American Literary Criticism of the Nineteenth Century* Herbert Rowland argues that the literary criticism accompanying the publication of Hans Christian Andersen's works in the United States compares favorably in scope perceptiveness and chronological coverage with the few other national receptions of Andersen outside of Denmark Rowland contends that American commentators made it abundantly evident that in addition to his fairy tales Andersen wrote several novels travelogues and an autobiography which were all of more than common interest In the process Rowland shows that American commentators naturalized Andersen in the United States by confronting the sensationalism in the journalism and literature of the time with the perceived wholesomeness of Andersen's writing deploying his long fiction on both sides of the debate over the nature and relative value of the romance and the novel and drawing on three of his works to support their positions on slavery the Civil War and Reconstruction

The Origins of American Religious Nationalism Sam Haselby, 2015-03-04 Sam Haselby offers a new and persuasive account of the role of religion in the formation of American nationality showing how a contest

Arbitrary Power William Keach, 2015-07-28

This book explores previously unexamined links between the arbitrary as articulated in linguistic theories on the one hand and in political discourse about power on the other In particular Willam Keach shows how Enlightenment conceptions of the arbitrary were contested and extended in British Romantic writing In doing so he offers a new paradigm for understanding the recurrent problem of verbal representation in Romantic writing and the disputes over stylistic performance during this period With clarity and force Keach reads these phenomena in relation to a rapidly shifting literary marketplace and to the social pressures in Britain generated by the French Revolution the Napoleonic Wars and the class antagonisms that culminated in the Peterloo Massacre The question of what it means to think of language or politics as arbitrary persists through postmodern thinking and this book advances an unfinished dialogue between Romantic culture and the critical techniques we currently use to analyze it Keach s intertwined linguistic and political account of arbitrary power culminates in a detailed textual analysis of the language of revolutionary violence Including substantial sections on Blake Wollstonecraft Wordsworth Coleridge Byron P B Shelley Keats and Anna Jameson *Arbitrary Power* will engage not only students and scholars of eighteenth and nineteenth century literature but also those interested in critical and linguistic theory and in social and political history
