Africana Faith James L. Conyers Jr., 2016-12-28 Essentially the study of black religion in America has been mysterious quarrelsome and paradoxical Repeatedly the reason in this primer aspires to make a concentric analysis of the function and capacity of spirituality and religiosity within the African American Muslim movement Recently there have been numerous volumes in the form of biographical or communal studies conducted on Black twentieth century religious figures Much of this discussion has exacerbated in hierarchy of religious values rather than a concentric analysis of the role and function of spirituality and religiosity Therefore this collection of essays places emphasis on the role and views of the missionary and voluntary spread of Islam among African Americans in the United States New Perspectives on the History of Gender and Empire Ulrike Lindner, Dörte Lerp, 2018-08-09 New Perspectives on the History of Gender and Empire an open access book extends our understanding of the gendered workings of empires colonialism and imperialism taking up recent impulses from gender history new imperial history and global history The authors apply new theoretical and methodological approaches to historical case studies around the globe in order to redefine the complex relationship between gender and empire The

chapters deal not only with typical colonial empires like the British Empire but also with those less well studied such as the German Russian Italian and U S empires They focus on various imperial formations from colonies in Africa or Asia to settler colonial settings like Australia New Zealand and South Africa to imperial peripheries like the Dodecanese or the Black Sea Steppe The book deals with key themes such as intimacy sexuality and female education as well as exploring new aspects like the complex marriage regimes some empires developed or the so called servant debates It also presents several ways in which imperial formations were structured by gender and other categories like race class caste sexuality religion and citizenship Offering new reflections on the intimate and personal aspects of gender in imperial activities and relationships this is an important volume for students and scholars of gender studies and imperial and colonial history The ebook editions of this book are available open access under a CC BY NC ND 4 0 licence on bloomsburycollection com Open access was funded by Knowledge Unlatched **Dictionary Catalog** Schomburg Collection of Negro Literature and History,1962

State of Peril Lucy Valerie Graham,2015 Considering fiction from the colonial era to the present State of Peril offers the first sustained scholarly examination of rape narratives in the literature of a country that has extremely high levels of sexual violence Lucy Graham demonstrates how despite the fact that most incidents of rape in South Africa are not interracial narratives of interracial rape have dominated the national imaginary Seeking to understand this phenomenon the study draws on Michel Foucault s ideas on sexuality and biopolitics as well as Judith Butler s speculations on race and cultural melancholia Historical analysis of the body politic provides the backdrop for careful close readings of literature by Olive Schreiner Sol Plaatje Sarah Gertrude Millin Njabulo Ndebele J M Coetzee Zo Wicomb and others Ultimately State of Peril argues for ethically responsible interpretations that recognize high levels of sexual violence in South Africa while parsing the racialized inferences and assumptions implicit in literary representations of bodily violation Catalogue of the C.
