Harrison,2013-10-22 Index to Reviews Symposia Volumes and Monographs in Organic Chemistry for the Period 1940 1960 presents a resume of published monographs reviews and symposia lectures in organic chemistry The editors adopted the plan of listings by symposia volume or journal backed up by the total subject and author indexes In this way the user can readily locate a particular article through the author index or the subject index or should he recall that an article appeared in a particular source the chronological listing in that source can be scanned quickly The Index gives a convenient overview of the accomplishments of organic chemists during this very prolific period of the growth of the field Frequently several articles on the same or similar subject appear hence the historical perspective can be sensed by rapid evaluation of the reviews selected This Index will be useful to research workers teachers and students It will also assist editors and authors to select specific areas which require critical review

Electron Spin Resonance M. C. R. Symons,1992 Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research Written by experts in their specialist fields the series creates a unique service for the active research chemist supplying regular critical in depth accounts of progress in particular areas of chemistry For over 80 years the Royal Society of Chemistry and its predecessor the Chemical Society have been publishing reports charting developments in chemistry which originally took the form of Annual Reports However by 1967 the whole spectrum of chemistry could no longer be contained within one volume and the series Specialist Periodical Reports was born The Annual Reports themselves still existed but were divided into two and subsequently three volumes covering Inorganic Organic and Physical Chemistry For more general coverage of the highlights in chemistry they remain a must Since that time the SPR series has altered according to the fluctuating degree of activity in various fields of chemistry Some titles have remained unchanged while others have altered their emphasis along with their titles some have been combined under a new name whereas others have had to be discontinued The current list of Specialist Periodical Reports can be seen on the inside flap of this volume Agricultural Reviews and Manuals ,1981 *General Introduction: Hydrocarbons, Halogen Derivatives* S. Coffey,2016-06-03 Rodd s Chemistry of Carbon Compounds Volume I Part A General Introduction

Hydrocarbons Halogen Derivatives covers the classification and nomenclature of hydrocarbons and their halogen derivatives This volume contains 15 chapters and begins with an overview of the historical development of the structural aspects of carbon compounds This topic is followed by discussions on the classification nomenclature analysis physical properties crystallographic studies stereochemistry and reaction mechanisms of hydrocarbons and their derivatives Other chapters describe the reactions of free radicals homolytic oxidation mechanisms and wave mechanics of hydrocarbons The concluding chapters are devoted to nomenclature preparation and methods of analysis of aliphatic compounds Organic chemists and researchers will find this book invaluable *Horticultural Reviews, Volume 17* Jules Janick, 2010-05-27 Horticultural Reviews present state of the art reviews on topics in horticultural sciences The emphasis is on applied topics including the production of fruits vegetables nut crops and ornamental plants of commercial importance It is a serial that appears in the form of one hardbound volume per year **Reviews in Computational Chemistry, Volume 18** Kenny B. Lipkowitz, Donald B.
