History of Iranian Literature J. Rypka, 2013-11-11 Some justification seems to be necessary for the addition of yet another *History of Iranian Literature* to the number of those already in existence Such a work must obviously contain as many novel features as possible so that a short explanation of what my collaborators and I had in mind when planning the book is perhaps not superfluous In the first place our object was to present a short summary of the material in all its aspects and secondly to review the subject from the chronological geo graphical and substantial standpoints all within the compass of a single volume Such a scheme precludes a formal and complete enumeration of names and phenomena and renders all the greater the obligation to accord most prominence to matters deemed to be of greatest importance

supplementing these with such figures and forms as will enable an impression to be gained of the period in question all this is far as possible in the light of the most recent discoveries A glance at the table of contents will suffice to give an idea of the multifarious approach that has been our aim We begin at the very first traces of evidence bearing on our subject and continue the narrative up to the present day Geographically the book embraces Iran and its neighbouring countries while it should be remarked that Iranian literature in its fullest sense also includes Indo Persian and Judeo Persian works *The SAGE Handbook of Outdoor Play and Learning* Tim Waller, Eva Årlemalm-Hagsér, Ellen Beate Hansen Sandseter, Libby Lee-Hammond, Kristi Lekies, Shirley Wyver, 2017-06-19 There has been a growing academic interest in the role of outdoor spaces for play in a child's development This text represents a coordinated and comprehensive volume of international research on this subject edited by members of the well established European Early Childhood Education Research Association Outdoor Play and Learning SIG OPAL Chapters written by authors from Europe North and South America Australasia and Asia Pacific countries are organised into six sections Theoretical Frameworks and Conceptual Approaches for Understanding Outdoor Play Learning Critical Reflections on Policy and Regulation in Outdoor Play Learning Children's Engagement with Nature Sustainability and Children's Geographies Diverse Contexts and Inclusion in Children's Outdoor Play Environments Methodologies for Researching Outdoor Play and Learning Links Between Research and Practice

The Transformation of Tajikistan John Heathershaw, Edmund Herzig, 2013-09-13 Tajikistan is one of the lesser known and least researched former Soviet Central Asian republics The birth of the new state in 1991 was followed closely by a civil war which killed more than 50 000 people and displaced many tens of thousands more While a peace agreement was signed in 1997 significant political violence continued until 2001 and intermittent outbreaks still occur today Many claim it remains a very weak state and perhaps in danger of state failure or a return to civil war However the revival of Tajikistan should not simply be seen in terms of its post conflict stabilization Since its creation as a republic of the Soviet Union in 1920s Tajikistan has been transformed from being a shell for socialist

engineering to become a national society under a modern state Despite a multitude of economic social and political shocks the Republic of Tajikistan endures This book places the transformation of Tajikistan in its Soviet and Post Soviet historical settings and local and global contexts It explores the sources of a state with Soviet roots but which has been radically transformed by independence and its exposure to global politics and economics The authors address the sources of statehood in history Islam and secularism gender relations the economy international politics and security affairs This book is a new edition of a special issue of Central Asian Survey Tajikistan the sources of statehood including two additional papers and a revised introduction

Mr. Selden's Map of China Timothy Brook, 2013-11-12 From the author of the award winning *Vermeer's Hat* a historical detective story decoding a long forgotten link between seventeenth century Europe and China Timothy Brook's award winning *Vermeer's Hat* unfolded the early history of globalization using Vermeer's paintings to show how objects like beaver hats and porcelain bowls began to circulate around the world Now he plumbs the mystery of a single artifact that offers new insights into global connections centuries old In 2009 an extraordinary map of China was discovered in Oxford's Bodleian Library where it had first been deposited 350 years before then stowed and forgotten for nearly a century Neither historians of China nor cartography experts had ever seen anything like it It was so odd that experts would have declared it a fake yet records confirmed it had been delivered to Oxford in 1659 The Selden Map as it is known was a puzzle that needing solving Brook a historian of China set out to explore the riddle His investigation will lead readers around this elegant enigmatic work of art and from the heart of China via the Southern Ocean to the court of King James II In the story of Selden's map he reveals for us the surprising links between an English scholar and merchants half a world away and offers novel insights into the power and meaning that a single map can hold Brook delivers the same anecdote rich narrative intriguing characters and unexpected historical connections that made *Vermeer's Hat* an instant classic

Universities Handbook, 2014 **Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures**

Helaine Selin, 2013-11-11 The Encyclopaedia fills a gap in both the history of science and in cultural studies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas The Western academic divisions of science technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical

one of the earliest Protestant missionaries in East Asia During some 27 years in China Macau and Malacca he worked as a translator for the East India Company and founded an academy for converts and missionaries independently he translated the New Testament into Chinese and compiled the first Chinese English dictionary In the process he was building the foundation of Chinese Protestant Christianity This book critically explores the preparations and strategies behind this first Protestant mission to China It argues that whilst introducing Protestantism into China Morrison worked to a standard template developed by his tutor David Bogue at the Gosport Academy in England By examining this template alongside Morrison s archival collections the book demonstrates the many ways in which Morrison s influential mission must be seen within the historical and ideological contexts of British evangelism The result is this new interpretation of the beginnings of Protestant Christianity in China

The Great Indian Education Debate Martin Moir,Lynn Zastoupil,2013-12-16 A bitter debate erupted in 1834 between Orientalists and Anglicists over what kind of public education the British should promote in their growing Indian empire This collection of the main documents pertaining to the controversy some published for the first time aims to recover the major British and South Asian voices broaden our understanding of imperial discourses and recognise the significant role of the colonised in the shaping of colonial knowledge Bringing together into a single volume documents not easily obtained long out of print never before published or scattered about in sundry books and journals enables modern readers to judge the relative merits of the various arguments and undermines the common impression that the controversy was simply an exercise in colonial power involving only Europeans

Western Technologies in the Middle East Uri M. Kupferschmidt, 2023-10-04 In recent years we have become interested in the diffusion of small Western technologies in the countries of the Middle East during the 19th and 20th centuries the era of Imperialism and first globalization We postulated a contrast between small and big technologies Under the latter category we may understand railway systems electricity grids telegraph networks and steam navigation imposed by foreign powers or installed by connected local entrepreneurs But many small Western technologies such as sewing machines typewriters pianos eyeglasses and similar consumer goods which had been developed and manufactured in Europe and America were wanted and willingly acquired by the agency of individual users elsewhere In a few cases however the inventions had to be adapted or were overstepped and even delayed Some were adopted as social markers or status symbols only by elites who could afford them Processes of adoption and diffusion therefore differed according to cultural settings preferences and needs Social and cultural historians and social scientists not only of the Middle East will find in this collection of essays a new

approach to the impact of Western technological inventions on the Middle East
