**Origins of the Sphinx** Robert M. Schoch,Robert Bauval,2017-03-16 New research and evidence that the Sphinx is thousands of years older than previously thought Contrasts what Egyptologists claim about the Sphinx with historical accounts and new research including reanalysis of seismic studies and updates to Schoch s water weathering research and Bauval s Orion Correlation Theory Examines how the Sphinx is contemporaneous with G bekli Tepe aligned with the constellation Leo and was recarved during the Old Kingdom era of Egypt Reveals that the Sphinx was built during the actual historical Golden Age of ancient Egypt the period known in legend as Zep Tepi No other monument in the world evokes mystery like the Great Sphinx of Giza It has survived the harsh climate of Egypt for thousands of years and will remain long after our own civilization is gone According to orthodox Egyptology the Sphinx was built around 2500 BCE as a memorial to the pharaoh Khafre Yet this fact has scant to no supportive evidence When was the Sphinx really built and most importantly why In this provocative collaboration from two Egyptology outsiders Robert M Schoch Ph D and Robert Bauval combine their decades of research to show how the Sphinx is thousands of years older than the conventional Egyptological timeline and was built by a long forgotten pre Pharaonic civilization They examine the known history of the Sphinx contrasting what Egyptologists claim with prominent historical accounts and new research including updates to Schoch s geological water weathering research and reanalysis of seismic studies Building on Bauval s Orion Correlation Theory they investigate the archaeoastronomical alignments of the monuments of the Giza Plateau and reveal how the pyramids and Sphinx were built to align with the constellations of Orion and Leo Analyzing the evidence for a significantly older construction phase at Giza and the restoration and recarving of the Sphinx during the Old Kingdom era they assert that the Sphinx was first built by an advanced pre Pharaonic civilization that existed circa 12 000 years ago on the Giza Plateau contemporaneous with the sophisticated G bekli Tepe complex The authors examine how the monuments at Giza memorialize Zep Tepi the Golden Age of legend shown here to be an actual historical time period from roughly 10 500 BCE through 9700 BCE Moving us closer to

an understanding of the true age and purpose of the Great Sphinx Schoch and Bauval provide evidence of an early high civilization witnessed by the Great Sphinx before the end of the last ice age      **Asia in the Making of Europe, Volume II**  
Donald F. Lach, 2010-01-15 Praised for its scope and depth Asia in the Making of Europe is the first comprehensive study of Asian influences on Western culture For volumes I and II the author has sifted through virtually every European reference to Asia published in the sixteenth century he surveys a vast array of writings describing Asian life and society the images of Asia that emerge from those writings and in turn the reflections of those images in European literature and art This monumental achievement reveals profound and pervasive influences of Asian societies on developing Western culture in doing so it provides a perspective necessary for a balanced view of world history Volume I The Century of Discovery brings together everything that a European could know of India Southeast Asia China and Japan from printed books missionary reports traders accounts and maps The New York Review of Books Volume II A Century of Wonder examines the influence of that vast new body of information about Asia on the arts institutions literatures and ideas of sixteenth century Europe
