**America, the Owner's Manual** Bob Graham,Chris Hand,2016-07-15 In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don t have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can t fight City Hall That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn t care what people like them thought Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles They describe effective citizenship skills and provide tips from civic experts Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around

Greenblatt,2019-01-03 The trusted and proven *Governing States and Localities* guides you through the contentious environment of state and local politics and focuses on the role that economic and budget pressures play on issues facing state and local governments With their engaging journalistic writing and crisp storytelling Kevin B Smith and Alan Greenblatt employ a comparative approach to explain how and why states and localities are both similar and different The Seventh Edition is thoroughly updated to account for such major developments as state vs federal conflicts over immigration reform school shootings and gun control the impact of the Donald Trump presidency on intergovernmental relations and issues of central interest to states and localities and the lingering effects of the Great Recession **State and Local Public Finance**

Ronald C. Fisher,2018-09-03 Now in its 4th edition *State and Local Public Finance* provides a comprehensive and sophisticated analysis of state and local government public finance practices and issues using the basic tools of economics For this new edition there is a focus on the most important services provided in the state local sector education health and welfare public safety and transportation This textbook provides an examination and analysis of public finance practices and problems in a federal fiscal system focusing on the fiscal behaviour and policies of state and local governments The author presents detailed descriptions of significant institutions Modern economic theory is applied to examine the way these institutions are used to produce and finance services and to provide evaluation of alternative policies Although the emphasis is on U S institutions and issues much of the economic analysis can be applied to any federal system or to fiscal decentralization This fully revised new edition sees updates throughout to data topics and applications The Headlines and Applications sections reflect the most current policy issues affecting state and local governments These include the effects of the Great Recession on state and local governments changes in the tax treatment of internet purchases the Affordable Care Act and implications for Medicaid spending by state governments demographic changes and the implications for state local finances the implications of changes in automobile technology for transportation financing and the potential for increased gambling activity This text will continue to be invaluable reading for those who study public finance local government finance urban economics and public policy and public administration *Making College Work* Harry J. Holzer,Sandy

Baum,2017-08-15 Practical solutions for improving higher education opportunities for disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive any college credential while others earn degrees or certificates with little labor market value Large numbers of these students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged students stem both from issues on the individual side such as weak academic preparation and financial pressures and from institutional failures Low income students disproportionately attend schools that are underfunded and have weak performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial aid or academic supports target

individual students Other solutions such as stronger linkages between coursework and the labor market and more structured paths through the curriculum are aimed at institutional reforms All students and particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard choices and face difficult tradeoffs in the process While no single policy is guaranteed to greatly improve college and career outcomes implementing a number of evidence based policies and programs together has the potential to improve these outcomes substantially **Quick**
