United Nations Homicide Report:

Global Report on Crime and Justice Graeme R. Newman, 1999 Research and data gathered by the UN Centre for International Crime Prevention The work combines a wealth of information about crime and justice from UN member states and beyond and presents emerging crime trends and operations of criminal justice systems on a comparative basis *The Handbook of Homicide* Fiona Brookman, Edward R. Maguire, Mike Maguire, 2017-05-01 The Handbook of Homicide presents a series of original essays by renowned authors from around the world reflecting the latest scholarship on the nature causes and patterns of homicide as well as policies and practices for its investigation and prevention Includes comprehensive coverage of the complex phenomenon of homicide and its various forms Features original contributions from an esteemed team of global experts and scholars with chapters highlighting the authors original research Represents the first internationally focused collection of the latest research on the nature and causes of homicide Covers both the causes and dynamics of homicide as well as policies and practices intended to address it *Organized Crime: A Compilation of U.N. Documents, 1975-1998* M. Cherif Bassiouni, Eduardo Vetere, 2023-09-20 The most sustained and penetrating study of the phenomenon of transnational organized crime was completed by various UN agencies in an ongoing project whose principal milestone is the 1997 Convention on Organized Crime This book presents all relevant texts in chronological order from 1975 to 1998 with additional material explaining the background of the project Published under the Transnational Publishers imprint **The United Nations Crime Prevention and Criminal Justice Program** Roger S. Clark, 1994-01-29 Examines the UN Crime Prevention and Criminal Justice Programme Describes the adoption of the various United Nations norms and standards that originated within the programme provides a consideration of some of the major instruments adopted under the auspices of the programme and examines efforts to progress from the promulgation of standards and norms to their monitoring and implementation **Foundations of Criminal Justice** Stephen S. Owen, 2019-07-15 What is law What is deviance What is justice How is justice achieved through law punishment and criminal justice agencies Now in its third edition Foundations of Criminal Justice uses a unique approach that provides students with the framework and the intellectual tools that they will need in order to critically analyze and evaluate the nature sources scope purposes and practical limitations of the criminal justice system This is the only introductory survey text that moves beyond a description of the criminal justice system helping students understand the role of criminal justice in their lives as criminal justice practitioners and as active citizens **War Economies and Post-war Crime** Sabine Kurtenbach, Angelika Rettberg, 2020-05-21 Even when armed conflicts formally end the transition to peace is not clear cut This comprehensive volume explores the mounting evidence which suggests that it is rather unlikely to see a clean break from violence to consent from theft to production from repression to democracy or from impunity to accountability The authors analyse the complex endeavour of transitioning out of war studying how it is often interrelated with other transformations such as changes in the

political regime democratisation and in the economy opening of markets to globalisation They explore how in the same way as wars and conflicts reflect the societies they befall post war orders may replicate and perpetuate some of the drivers of war related violence such as high levels of instability institutional fragility corruption and inequality This book thus suggests that even in the absence of a formal relapse into war and the re mobilisation of former insurgents many transitional contexts are marked by the steady and ongoing reconfiguration of criminal and illegal groups and practices This book will be of great interest to students and researchers of political science and peace studies It was originally published as an online special issue of Third World Thematics
