Math Work Stations Debbie Diller, 2011 In Math Work Stations you ll find ideas to help children develop conceptual understanding and skills use math vocabulary as they talk about their mathematical thinking and connect big ideas to meaningful independent exploration and practice This book details how to set up manage and keep math stations going throughout the year There s even a chapter devoted solely to organizing and using math manipulatives **Math Hooks 1, Grades K-2** Robyn Silbey, 2007-12 Get your children hooked on math More than 60 hands on activities suggest opportunities in daily life to learn math concepts Fun but practical activites such as riding in the car searching through a junk drawer or playing a game together engage children in critical thinking Grades K 2 *50 Fabulous Measurement Activities* Martin Lee, Marcia Miller, 2000 Important math skills are taught using games Teaching Scientific Enquiry Lawrie Ryan, Rosemary Sherrington, 2002 Sc1 Boosters for KS1 and KS2 target and develop the skills and strategies of scientific experiments and investigations within the context of the QCA Scheme of Work to raise levels of pupils achievement in their teacher assessed activities and National Tests **Essentials of Pediatric Nursing** Terri Kyle, 2008 Essentials of Pediatric Nursing is intended for Pediatric Nursing courses with an integrated pediatric curriculum It provides a unique concept based approach and nursing process focus that helps students go from concept to application by building on previously mastered knowledge from other courses Organized into four logical units Kyle Essentials of Pediatric Nursing covers a broad scope of topics with an emphasis on common issues and pediatric specific information In addition it has a variety of learning features to ensure student retention such as Healthy People 2010 boxes Threaded Case Studies and Comparison Charts highlighting common diseases Plus it includes a BONUS CD ROM and companion website that provide numerous resources for both students and instructors including video clips of each developmental stage and care of the hospitalized child **Teaching Kids Math** Carne S. Barnett, Sharon Young, 1982 Ready, Set, SCIENCE! National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Board on Science Education, Heidi A. Schweingruber, Andrew W. Shouse, Sarah Michaels, 2007-10-30 What types of instructional experiences help K 8 students learn science with understanding What do science educators teachers teacher leaders science specialists professional development staff curriculum designers and school administrators need to know to create and support such experiences Ready Set Science guides the way with an account of the groundbreaking and comprehensive synthesis of research into teaching and learning science in kindergarten through eighth grade Based on the recently released National Research Council report Taking Science to School Learning and Teaching Science in Grades K 8 this book summarizes a rich body of findings from the learning sciences and builds detailed cases of science educators at work to make the implications of research clear accessible and stimulating for a broad range of science educators Ready Set Science is filled with classroom case studies that bring to life the research findings and help readers to replicate success Most of these stories are based on real classroom experiences that illustrate the

complexities that teachers grapple with every day They show how teachers work to select and design rigorous and engaging instructional tasks manage classrooms orchestrate productive discussions with culturally and linguistically diverse groups of students and help students make their thinking visible using a variety of representational tools This book will be an essential resource for science education practitioners and contains information that will be extremely useful to everyone including parents directly or indirectly involved in the teaching of science

Primary Maths Nick Tiley-Nunn,2014-10-20 Primary maths is stereotypically loved by a few hairy oddballs tolerated by most sane primary practitioners loathed by many With the right approach however the right mindset and sense of the impossible being achievable maths can be moulded into the diamond in the rough of the primary curriculum Enter Nick Tiley Nunn Britain's most imaginative most exciting primary maths specialist Over years of practice he has generated ideas about the teaching of maths that are so distinct so far out and so utterly brilliant that any primary teacher struggling to grasp the nettle of teaching long division will emerge from communing with his ideas not just with some clichéd sense that maths can be fun but that it can be brilliant life enhancing and truly hilarious This book presents ideas for primary maths teaching so wildly creative and so full of the joy of life that any classroom of kids will be grateful you read it
