 to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of
 views political and economic We use the term here within context but essentially define it as a commitment to open views the
 willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved
 towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist
 democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of
 majority rule the view towards the future is much less promising than it was in 1994 Higher Education Pathways Paul
 Ashwin, M. Case, 2018-12-13 In what ways does access to undergraduate education have a transformative impact on people

 in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core
 legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as
