Negotiating Identities in Contemporary Africa Toyin Falola, Emmanuel M. Mbah, 2023-08-29 *Negotiating Identities in Contemporary Africa* Gender Religion and Ethno cultural Identities explores the changing dynamics of identities in Africa with a focus on gender ethno cultural and religious identity Toyin Falola and Emmanuel M Mbah argue that because identity defines who we are as individuals or groups studies on African identities must focus on understanding the changing dynamics in the socio economic and political spheres in the continent These chapters cover subjects such as women s career identity gender roles and knowledge childlessness ethnocentrism and democracy cultural identity through theater Black identity in the diaspora and diasporic consciousness Using existing scholarship the chapters in this edited volume challenge our understanding of what identity entails and provide new discussions on the hitherto politicized historiography of some identities in Africa

Access to Justice in Rural Communities Daniel Newman, Faith Gordon, 2023-05-04 This book offers insight on access to justice from rural areas in internationally comparable contexts to highlight the diversity of experiences within and across rural areas globally It looks at the fundamental questions for people s lives raised by the issue of access to justice as well as the rule of law It highlights a range of social geographic and cultural issues which impact the way rural communities experience the justice system throughout the world with chapters on Australia Canada England Ireland Kenya Northern Ireland South Africa Syria Turkey the USA and Wales Each chapter explores three questions 1 How do people experience the institutions of justice in rural areas and how does this rural experience differ to an urban experience 2 What impact have changes in policy had on the justice system in rural areas and have rural and urban areas been affected in different ways 3 What impact does the law have on people s lives in rural areas and what would rural communities like to be better understood about their experience of the justice system By bringing in the voices and experiences of those who are often ignored or side lined by justice systems this book will set out an agenda for ensuring social justice in legal systems with a focus on protecting marginalised groups

Thus Until Emilia Ilieva, Reuben Matheka, 2025-08-04 *Thus Until* A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white

establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style Food Safety in Low and Middle Income Countries Delia Grace,Bassirou Bonfoh,Hung

Feast your Eyes: Diet and Nutrition for Optimal Eye Health Arunkumar Ranganathan ,Pinakin Gunvant Davey,2025-04-17 Despite extensive research into the role of nutrition and diet for human health the potential impact of what we eat on what we see is often overlooked Yet living and working later into life the frequency of eye diseases and age related ocular conditions is on the rise This includes cataracts glaucoma and age related macular degeneration AMD all of which are some of the leading causes of blindness worldwide Furthermore with growing cases of diabetes and obesity retinal damage caused by diabetic retinopathy is becoming an increasingly global problem Such conditions are multifactorial and complex Nevertheless studies have demonstrated a clear involvement of oxidative stress and free radical damage as causative to these conditions Various nutrients have therefore been investigated for their potential preventative and therapeutic applications in the protection of retinal cells and overall eye health Dietary antioxidants such as vitamin E the carotenoids beta carotene lutein and zeaxanthin and retinoids play a crucial role in protecting the eyes from UV sunlight damage and are linked with reduced risk of cataracts and AMD Other nutrients such as zinc iron selenium omega 3 fatty acids and vitamin C have also been implicated in eye health with the latter of particular interest in glaucoma prevention and treatment

Nutrition and Sustainable Development Goal 4: Quality Education Sarah Burkhart, Elezebeth Mathews, Clinton Beckford, Alemneh Kabeta Daba, Abul Hasnat Milton, Masresha Tessema, 2024-07-03 Building on the Millennium Development Goals the UN Sustainable

Development Goals SDGs are the cornerstone of the 2030 Agenda for Sustainable Development billed by the UN as an agenda of unprecedented scope and significance. These seventeen goals are conceived as integrated, indivisible, and as balancing the economic, social, and environmental dimensions of sustainable development. To be achieved by 2030, the goals are organized around five core pillars: people, planet, prosperity, peace, and partnership. As a member of the SDGs Publishers Compact, Frontiers is committed to advocating the themes represented by the SDGs and accelerating progress to achieve them. Nutrition sits at the heart of the SDGs. In addition to achieving Zero Hunger (SDG 2), improvements in nutrition are critical to both achieving and reaping the benefits of all seventeen global goals. With good nutrition comes improved health and wellbeing (SDG 3), enhanced educational and work productivity (SDGs 4 and 8), less poverty (SDG 1), and reduced inequalities (SDGs 5 and 10). And with stronger and more sustainable environments, communities, and technologies (SDGs 6, 7, 9, 11, 17), improved food security and nutrition will follow. As part of an innovative collection showcasing nutrition in the context of the SDGs, this Research Topic will focus on Sustainable Development Goal 4: Quality Education.

[Regional Review on Status and Trends in Aquaculture Development in Sub-Saharan Africa - 2015](#) Food and Agriculture Organization of the United Nations, 2017. The present regional review and synthesis for sub-Saharan Africa (SSA) provides an overview of major issues and trends in the aquaculture sector between 2004 and 2014, with emphasis on outstanding issues over the last five years. The regional review reflects development in 41 countries in SSA for which production was reported to FAO in 2014. The production volume and value data have been derived from the latest FAO global aquaculture dataset 1950-2014 FishStat.

[Supporting Entrepreneurship and Innovation](#) Janet Crum, Samantha Schmehl Hines, 2019-04-29. Libraries have recently begun doing more to support entrepreneurship and innovation within their communities. This volume explores how this has come about, looking at libraries from across North America, Europe, and Africa, and helps position readers to better understand what is happening and how this can be brought to further institutions.

2017 Regional Overview of Food Security and Nutrition in Africa Food and Agriculture Organization of the United Nations, 2018-04-17. This year's edition of the Africa Regional Overview of Food Security and Nutrition reports that after a prolonged decline, hunger appears to be on the rise. In sub-Saharan Africa, there were about 224 million undernourished people in 2016, up from 200 million in 2015. In many countries, the worsening situation in 2015 and 2016 can be attributed to adverse climatic conditions, often linked to the El Niño phenomenon, resulting in poor harvests and the loss of livestock. Conflict, sometimes in combination with drought or floods, also contributed to severe food insecurity in several countries. Lower commodity prices and a difficult global economic environment have furthermore contributed to the worsening food security situation. The worrying trend in undernourishment is not yet reflected in the series of indicators referring to nutritional outcomes in the region, with the prevalence of stunting and wasting for children under the age of five continuing to decline gradually. However, progress towards the World Health Assembly global nutrition targets has been generally poor. While a relatively large proportion of

countries are on track to meeting the target for overweight in children the rates for adult obesity are soaring in all regions and are especially high in Southern Africa The report also finds that across the board countries have developed and are developing policy frameworks and investment plans that are aligned or efforts are being made to align them with the goals of the Malabo Declaration and SDG 2 Through CAADP policy processes are coherent and this initiative has raised the profile of agriculture and heavily influenced agricultural policy at regional and national levels However the worrying trends in undernourishment underline the need for even greater efforts to achieve the SDG 2 by 2030 The thematic part of the report focuses on the food security and nutrition conflict nexus Conflict is not only an increasingly important cause of food insecurity and malnutrition but food insecurity and malnutrition can also become conflict multipliers Addressing the causes of conflicts and supporting food security and livelihoods can help build resilience to conflict and contribute to sustaining peace

Root, Tuber and Banana Food System Innovations Graham Thiele, Michael Friedmann, Hugo Campos, Vivian Polar, Jeffery W. Bentley, 2022-04-06 This open access book describes recent innovations in food systems based on root tuber and banana crops in developing countries These innovations respond to many of the challenges facing these vital crops linked to their vegetative seed and bulky and perishable produce The innovations create value food jobs and new sources of income while improving the wellbeing and quality of life of their users Women are often key players in the production processing and marketing of roots tubers and bananas so successful innovation needs to consider gender These crops and their value chains have long been neglected by research and development hence this book contributes to filling in the gap The book features many outcomes of the CGIAR Research Program in Roots Tubers and Banana RTB which operated from 2012 21 encompassing many tropical countries academic and industry partners multiple crops and major initiatives It describes the successful innovation model developed by RTB that brings together diverse partners and organizations to create value for the end users and to generate positive economic and social outcomes RTB has accelerated the scaling of innovations to reach many end users cost effectively Though most of the book's examples and insights are from Africa they can be applied worldwide The book will be useful for decision makers designing policies to scale up agricultural solutions for researchers and extension specialists seeking practical ideas and for scholars of innovation

X-raying Zero Hunger (SDG2) Targets in Africa and Other Regions: Progress, Synergies, Opportunities, and Challenges, volume II Mojisola Olanike Kehinde, Barbara Sawicka, Oluwaseun Ariyo, Olutosin Ademola Otekunrin, 2025-09-29 The field of global food security is currently grappling with the immense challenge of feeding over 8

billion people worldwide a task that is particularly daunting for low and middle income countries LMICs According to the State of Food Security and Nutrition SOFI 2023 report between 690 and 783 million people experienced hunger in 2022 with an increase of 122 million more people facing hunger compared to the pre pandemic period of 2019 Projections indicate that by 2030 approximately 600 million people will suffer from chronic hunger Alarmingly Africa bears a disproportionate burden with about 20% of its population affected by hunger compared to lower percentages in Asia Latin America the Caribbean and Oceania The United Nations Sustainable Development Goal 2 SDG 2 known as Zero Hunger aims to eradicate hunger achieve food security improve nutrition and promote sustainable agriculture by 2030 Despite the concerted efforts of many nations to implement food and nutrition sensitive policies since the SDG 2 agenda s inception in 2015 significant challenges persist particularly in Africa These include extreme poverty rapid population growth high food prices unemployment social exclusion extreme weather events corruption and conflicts all of which hinder progress towards achieving Zero Hunger Recent initiatives such as the United Nations Food System Summit underscore the need for a comprehensive approach to address these multifaceted challenges *Routledge Handbook of Food and Nutrition Security* Bill Pritchard,Rodomiro Ortiz,Meera Shekar,2016-03-31 The concept of food and nutrition security has evolved and risen to the top of the international policy agenda over the last decade Yet it is a complex and multi faceted issue requiring a broad and inter disciplinary perspective for full understanding This Handbook represents the most comprehensive compilation of our current knowledge of food and nutrition security from a global perspective It is organized to reflect the wide scope of the contents its four sections corresponding to the accepted current definitional frameworks prevailing in the work of multilateral agencies and mainstream scholarship The first section addresses the struggles and progression of ideas and debates about the subject in recent years The other sections focus on three key themes how food has been is and should be made available including by improvements in agricultural productivity the ways in which politico economic and social arenas have shaped access to food and the effects of food and nutrition systems in addressing human health known as food utilisation Overall the volume synthesizes a vast field of information drawn from agriculture soil science climatology economics sociology human and physical geography the nutrition and health sciences environmental science and development studies Haplotype Analysis Applied to Livestock Genomics Gábor Mészáros,Marco Milanese,Paolo Ajmone Marsan,Yuri Tani Utsunomiya,2021-07-02

Measuring Diets and Food Choice in the Context of a Changing World Winnie Bell,Christine Blake,Shauna Downs,2025-08-06 Historically research in low and middle income countries has been focused on what people consume with less attention to how and why people choose to consume the foods that they do As incomes rise and local food environments undergo rapid changes providing consumers with a wider array of options at competitive prices understanding the underlying drivers of food choice including the preferences and values that underpin them has become increasingly important In recent years there have been renewed efforts to understand the drivers of food choice in the context of

changing food environments and broader food system and how these drivers link with food consumption The goal of this Research Topic is to look beyond dietary consumption what people eat by considering more holistically the various drivers of food choice how and why people eat the foods they do to better understand what underpins individual decisions Ultimately by understanding why people make the choices they do especially when situated in the local food environment and or broader food system we can identify important entry points for behavior change interventions develop a better understanding about the role of food safety in food choice decisions improve the environment climate and food systems through improved knowledge on the drivers of food choice and learn about how changing livelihoods shifts dynamics related to food choice amongst other important research tied to drivers of food choice

The Oxford Handbook of the African Sahel Leonardo

A. Villalón,2021-10-15 Long on the margins of both scholarly and policy concerns the countries of the West African Sahel have recently attracted world attention primarily as a key battleground in the global war on terror This book moves beyond this narrow focus providing a multidimensional and interdisciplinary assessment of the region in all of its complexity The focus is on the six countries at the heart of the Sahelian geographic space Senegal Mauritania Mali Burkina Faso Niger and Chad Collectively the chapters explore the commonalities and interconnections that link these countries and their fates while also underscoring their diversity and the variations in their current realities The Sahel today is at an important crossroads under multiple pressures of diverse kinds environmental political demographic and economic as well as rapidly changing social and religious dynamics It is also marked by striking dynamism and experimentation drawing on a long history of innovation and cultural transfer In many ways the Sahel is today on the cutting edge of grand natural experiments exploring how humans will adapt to climate change to technological innovation to the global movement of populations and the restructuring of world politics to urbanization social change and rapid demographic growth and to inter religious contact The region is a weathervane on the front lines of the forces of global change In nine thematic sections the chapters in this book offer holistic analyses of the key forces shaping the region Including scholars based in Africa Europe and the United States the authors represent an exceptional breadth and depth of expertise on the Sahel
