While the field of higher education draws from a multitude of disciplines some scholars argue that only recently has scholarship focused on the political perspectives of higher education To better understand the politics and policies of higher education Universities as Political Institutions illuminates a variety of ways that researchers view and study universities as a political institution from considering the national and international political pressures shaping higher education to the analysis of responses and political action from within the ivory tower The 2017 annual CHER conference in Jyvaskylä Finland brought together 213 scholars from 30 countries This book includes a selection of papers and keynote presentations from this conference The thematic approach of the book reflects the 2017 conference theme Universities as Political Institutions Higher Education Institutions in the Middle of Academic Economic and Social Pressures The theme focused on multiple and often complex relations and relationships internal and external to higher education institutions In this context political refers not only to definitions uses and users of power but more broadly to a variety of relationships among different actors and agencies responsible for making executing or resisting decisions concerning higher education institutions
