Handbook on Green Infrastructure Danielle Sinnett, Nick Smith, Sarah Burgess, 2015-11-27 Green infrastructure encompasses many features in the built environment. It is widely recognised as a valuable resource in our towns and cities and it is therefore crucial to understand, create, protect and manage this resource. This Handbook sets the context for green infrastructure as a means to make urban environments more resilient, sustainable, liveable and equitable. Including state of the art reviews that summarise the existing knowledge as well as research findings, this Handbook provides current evidence for the beneficial impact of green infrastructure on health, environmental quality and the economy. It discusses the planning and design of green infrastructure as a strategic network down to the individual features in a neighbourhood and looks at the process of green infrastructure implementation, emphasising the importance of collaboration across multiple professions and sectors. This comprehensive volume operates at multiple spatial scales from strategic networks at the regional level to individual features in neighbourhoods with international case studies used throughout to illustrate key examples of good practice. This collection of expert contributions will be invaluable to students and academics in the fields of planning, urban studies and geography. Practitioners and policy makers will also find the policy discussion and examples enlightening.

**Routledge Handbook of Ecosystem Services** Marion Potschin, Roy Haines-Young, Robert Fish, R. Kerry Turner, 2016-01-22 The idea that nature provides services to people is one of the most powerful concepts to have emerged over the last two decades. It is shaping our understanding of the role that biodiverse ecosystems play in the environment and their benefits for humankind. As a result, there is a growing interest in operational and methodological issues surrounding ecosystem services amongst environmental managers and many institutions are now developing teaching programmes to equip the next generation with the skills needed to apply the concepts more effectively. This handbook provides a comprehensive reference text on ecosystem services, integrating natural and social science, including economics. Collectively, the chapters written by the world's leading authorities demonstrate the importance of biodiversity for people, policy and practice. They also show how the value of ecosystems to society can be expressed in monetary and non-monetary terms so that the environment can be better taken into account in decision making. The significance of the ecosystem service paradigm is that it helps us redefine and better communicate the relationships between people and nature. It is shown how these are essential to resolving challenges such as sustainable development and poverty reduction and the creation of a green economy in developing and developed world contexts.

The Mobilized American West, 1940-2000 John M. Findlay, 2023-07 John M. Findlay presents a historical overview of the American West between 1940 and 2000, arguing that during the years of U.S. mobilization for World War II and the Cold War, the West remained a significant and distinctive region.

**Handbook of Research on Administration, Policy, and Leadership in Higher Education** Mukerji, Siran, Tripathi, Purnendu, 2016-09-27 The creation of a sustainable and accessible higher education system is a pivotal goal in modern

society Adopting strategic frameworks and innovative techniques allows institutions to achieve this objective The Handbook of Research on Administration Policy and Leadership in Higher Education is an authoritative reference source for the latest scholarly research on contemporary management issues in educational institutions and presents best practices to improve policies and retain effective governance Addressing the current state of higher education at an international level this book is ideally designed for academicians educational administrators researchers and professionals *A Legacy of Exploitation* Susan Dianne Brophy, 2022-05-15 It is unlikely that buyers of the Hudson's Bay Company's iconic multistripe point blanket these days reflect on the historically exploitative relationship between the company and Indigenous producers This critical re-evaluation of the company's first planned settlement at Red River uncovers that history As a settler colonialist project par excellence the Red River Colony was designed to undercut Indigenous peoples' troublesome autonomy and better control their labour Susan Dianne Brophy upends standard historical portrayals by foregrounding Indigenous peoples' autonomy as a driving force of change *A Legacy of Exploitation* offers a comprehensive account of legal economic and geopolitical relations to show how autonomy can become distorted as complicity in processes of dispossession Ultimately this book challenges enduring yet misleading national fantasies about Canada as a nation of bold adventurers *The Strategic Repositioning of Arts, Culture and Heritage in the 21st Century* George Mugovhani, Owen Seda, 2018-06-11 The post millennium world has been experiencing several recognisable historical milestones with regard to arts culture and heritage One of these has been the resuscitation and revival of creative elements of the arts culture and heritage of previously marginalised or disadvantaged communities around the world Until recently there had been scant regard and skewed allocation of resources for these but lately attempts have been made to promote and sustain them in order to enable the socio-economic aspirations of a multicultural society The contributions brought together here are the product of papers that were presented during a conference on Strategic Repositioning of Arts Culture and Heritage in the 21st Century They cover a broad spectrum of subjects such as indigeneity music song and identity politics national reconciliation education product development and national development *Before Canada* Allan Greer, 2024-07-12 Long before Confederation created a nation state in northern North America Indigenous people were establishing vast networks and trade routes Volcanic eruptions pushed the ancestors of the Dene to undertake a trek from the present day Northwest Territories to Arizona Inuit migrated across the Arctic from Siberia reaching Southern Labrador where they met Basque fishers from northern Spain As early as the fifteenth century fishing ships from western Europe were coming to Newfoundland for cod creating the greatest transatlantic maritime link in the early modern world Later fur traders would take capitalism across the continent using cheap rum to lubricate their transactions The contributors to *Before Canada* reveal the latest findings of archaeological and historical research on this fascinating period Along the way they reframe the story of the Canadian past extending its limits across time and space and challenging us to reconsider our assumptions about this supposedly young country Innovative and

multidisciplinary Before Canada inspires interest in the deep history of northern North America *Cadets on Campus* John A. Coulter, 2017-03-24 Since the founding of the United States Military Academy at West Point in 1802 more than eight hundred military schools have existed in this country The vast majority have closed their doors been absorbed into other educational institutions or otherwise faded away but others soldier on adapting to changing times and changing educational needs While many individual institutions have had their histories written or their stories told to date no single book has attempted to explore the full scope of the military school in American history *Cadets on Campus* is the first book to cover the origin history and culture of the nation's military schools secondary and collegiate and this breadth of coverage will appeal to historians and alumni alike Author John Alfred Coulter identifies several key figures who were pivotal to the formation of military education including Sylvanus Thayer the father of West Point and Alden Partridge the founder of the school later known as Norwich University the first private military school in the country He also reveals that military schools were present across the nation despite the conventional wisdom that most military schools and indeed the culture that surrounds them were limited to the South Coulter addresses the shuttering of military schools in the era after the Vietnam War and then notes a curious resurgence of interest in military education since the turn of the century **The Oxford Guide to**

**Australian Languages** Claire Bowern, 2023-06-19 The Oxford Guide to Australian Languages is a wide ranging reference work that explores the more than 550 traditional and new Indigenous languages of Australia Australian languages have long played an important role in diachronic and synchronic linguistics and are a vital testing ground for linguistic theory Until now however there has been no comprehensive and accessible guide to their vast linguistic diversity This volume fills that gap bringing together leading scholars and junior researchers to provide an up to date guide to all aspects of the languages of Australia The chapters in the book explore typology documentation and classification linguistic structures from phonology to pragmatics and discourse sociolinguistics and language variation and language in the community The final part offers grammatical sketches of a selection of languages sub groups and families At a time when the number of living Australian languages is significantly reduced even compared to twenty years ago this volume establishes priorities for future linguistic research and contributes to the language expansion and revitalization efforts that are underway **Providence and the**

**Invention of American History** Sarah Koenig, 2021-01-01 How providential history the conviction that God is an active agent in human history has shaped the American historical imagination In 1847 Protestant missionary Marcus Whitman was killed after a disastrous eleven year effort to evangelize the indigenous peoples of the Pacific Northwest By 1897 Whitman was a national hero celebrated in textbooks monuments and historical scholarship as the Savior of Oregon But his fame was based on a tall tale one that was about to be exposed Sarah Koenig traces the rise and fall of Protestant missionary Marcus Whitman's legend revealing two patterns in the development of American history On the one hand is providential history marked by the conviction that God is an active agent in human history and that historical work can reveal patterns of divine

will On the other hand is objective history which arose from the efforts of Catholics and other racial and religious outsiders to resist providentialists pejorative descriptions of non Protestants and nonwhites Koenig examines how these competing visions continue to shape understandings of the American past and the nature of historical truth *The Emerald Handbook of Crime, Justice and Sustainable Development* Jarrett Blaustein, Kate Fitz-Gibbon, Nathan W. Pino, Rob White, 2020-11-18 This volume brings together a diverse collection of essays that critically examine issues relating to crime and justice in the United Nations 2030 Agenda for Sustainable Development Chapters examine the issues that practitioners face in working to advance this agenda and the possibilities that exist to advance sustainable development outcomes **Enthusiasms and Loyalties**

Keith Shepherd Grant, 2022-11-15 The Enlightenment Atlantic was awash in deep feelings People expressed the ardour of patriots the homesickness of migrants the fear of slave revolts the ecstasy of revivals the anger of mobs the grief of wartime the disorientation of refugees and the joys of victory Yet passions and affections were not merely private responses to the events of the period emotions were also central to the era s most consequential public events and even defined them In *Enthusiasms and Loyalties* Keith Grant shows that British North Americans participated in a transatlantic swirl of debates over emotions as they attempted to cultivate and make sense of their own feelings in turbulent times Examining the emotional communities that overlapped in Cornwallis Township Nova Scotia between 1770 and 1850 Grant explores the diversity of public feelings from disaffected loyalists to passionate patriots and ecstatic revivalists He shows how certain emotions especially enthusiasm and loyalty could be embraced or weaponized by political and religious factions and how their use and meaning changed over time Feelings could be the glue that made loyalties stick or a solvent that weakened community bonds Taking a history of emotions approach *Enthusiasms and Loyalties* aims to recover and understand the wide range of political and religious emotions that were possible feelable in the Enlightenment Atlantic *University*

*Engagement With Socially Excluded Communities* Paul Benneworth, 2012-11-13 This volume provides insightful analysis of the way higher education engages with socially excluded communities Leading researchers and commentators examine the validity of the claim that universities can be active facilitators of social mobility opening access to the knowledge economy for formerly excluded groups The authors assess the extent to which the Academy can deliver on its promise to build bridges with communities whose young people often assume that higher education lies beyond their ambitions The chapters map the core dynamics of the relationship between higher education and communities which have bucked the more general trend of rapidly rising student numbers Contributors also take the opportunity to reflect on the potential impact of these dynamics on the evolution of the university s role as a social institution The volume was inspired by a symposium attended by a wide spectrum of participants including government senior university managers academic researchers and community groups based in areas suffering from social exclusion It makes a substantive contribution to an under researched field with authors seeking to both shape solutions as well as better diagnose the problem Some chapters include valuable contextual analysis

using empirical data from North America Europe and Australia to add substance to the debates on policy and theory The volume seeks to offer a defining intellectual statement on the interaction between the concept of a university and those communities historically missing from higher education participation the volume deepens our understanding of what might characterise an engaged university and strengthens the theoretical foundations of the topic *The Corporation as a Protagonist in Global History, c. 1550-1750*, 2018-12-10 William A Pettigrew and David Veevers put forward a new interpretation of the role Europe's overseas corporations played in early modern global history recasting them from vehicles of national expansion to significant forces of global integration Across the Mediterranean Atlantic Indian Ocean and Pacific corporations provided a truly global framework for facilitating the circulation movement and exchange between and amongst European and non European communities bringing them directly into dialogue often for the first time Usually understood as imperial or colonial commercial enterprises The Corporation as a Protagonist in Global History reveals the unique global sociology of overseas corporations to provide a new global history in which non Europeans emerged as key stakeholders in European overseas enterprises in the early modern world Contributors include Michael D Bennett Aske Laursen Brock Liam D Haydon Lisa Hellman Leonard Hodges Emily Mann Simon Mills Chris Nierstrasz Edgar Pereira Edmond Smith Haig Smith and Anna Winterbottom Economic Risks of Climate Change Trevor Houser, Solomon Hsiang, Robert Kopp, Kate Larsen, Michael Delgado, Amir Jina, Michael Mastrandrea, Shashank Mohan, Robert Muir-Wood, D. Dominion over Palm and Pine Paula Hastings, 2022-09-15 From the expansionist fervour of the late nineteenth century through both world wars and the Cold War a varied and ever changing group of dreamers campaigned for Canada's union with the British Caribbean colonies They hoped to diversify Canada's climate and agricultural capabilities spur economic development boost the nation's autonomy and stature in the Empire Commonwealth and the world temper American power and secure a tourist paradise Dominion over Palm and Pine traces the transnational ebb and flow of these union campaigns situating them in the global history of colonialism and white supremacy Black activism and decolonization Paula Hastings centres the British Caribbean in historical narratives that rarely take account of the region challenging us to rethink the history of Canadian expansionism and its entangled relationship with nation building the struggle for sovereignty at home and abroad and Canada's evolving role and reputation on the world stage Widely conceived the brokers of Canada's international histories included a multiplicity of actors who shaped the evolving contours and outcomes of the debate Canadian legislators civil servants businessmen and social justice activists Caribbean migrants intellectuals and anti colonial nationalists and British colonial officials absentee planters and politicians Canada's lack of an overseas empire is often vaunted as a national characteristic that sets Canada apart from the United States and the old European powers In excavating the dogged resilience of Canadian designs on the Caribbean Dominion over Palm and Pine unsettles notions of Canadian goodness that rest on this self righteous observation *Who Controls the Hunt?* David Calverley, 2018-03-01 As the nineteenth century ended Ontario wildlife became increasingly valuable Tourists and sport hunters spent growing

amounts of money in search of game and the government began to extend its regulatory powers in this arena. Restrictions were imposed on hunting and trapping, completely ignoring Anishinaabeg hunting rights set out in the Robinson Treaties of 1850. *Who Controls the Hunt* examines how Ontario's emerging wildlife conservation laws failed to reconcile First Nations treaty rights and the power of the state. David Calverley traces the political and legal arguments prompted by the interplay of treaty rights, provincial and dominion government interests, and the corporate concerns of the Hudson's Bay Company. A nuanced examination of Indigenous resource issues, the themes of this book remain germane to questions about who controls the hunt in Canada today.
