higher education Postcolonial Constructivism Seifudein Adem, 2021-01-30 This book introduces Ali Mazrui's delightfully stimulating scholarship about intercultural relations calling it Postcolonial Constructivism and shares elements of his intellectual vitality in an original way. It begins with a chronicle of Mazrui's eventful sixty-year journey as a scholar of International Relations. It then proceeds to present some of the most remarkable yet least remarked-upon features of his intellectualism including his paradoxes, his perceptive typologies, his neologisms as well as his interactions with historical figures. The book draws on materials which were either unavailable until now or were found scattered in time and space. Designed as an invitation to a wider audience to the supermarket of Mazrui's ideas, this book also seeks to underscore the timeliness and possible durability of many of his observations about intercultural relations. Thorough, comprehensive and up to date, this book is a concise account of the core of Mazrui's vast body of work.

Affirmative Intervention to Support Multispecies Relationships Janet J. McIntyre-Mills, 2024-11-29 This book offers a pioneering approach to collaborative co-authorship integrating storytelling, participatory action research and innovative uses of technology like Zoom to bridge geographical and cultural divides. The authors emphasize authentic dialogue using a form of metalogue to ensure all voices are heard and respected, thus avoiding ventriloquy (speaking for or over others). Their praxis revolves around performative and regenerative projects involving indigenous custodians, academics, students and community members aiming to address Species Apartheid and promote a more inclusive and sustainable future. The book's engagement model includes inner work focusing on critical analysis and analytical meditation on values and their consequences; outer work involving transformative education and organic food production workshops to engage a broad community of practice; and future work exploring narrative and if-then scenarios to envision new possibilities with an emphasis on creativity and courage. The authors draw inspiration from diverse sources including Indigenous knowledge systems and various academic institutes and organizations. Through their collaborative efforts, they aim to create a more inclusive, sustainable and just world.
