## University Of Venda Closing Dates For 2015:

*Culture and Rural-Urban Revitalisation in South Africa* Mziwoxolo Sirayi, Modimowabarwa Kanyane, Giulio Verdini, 2021-06-14 This book captures ground breaking attempts to utilise culture in territorial development and regeneration processes in the context of South Africa and our new normal brought by COVID 19 the fourth industrial revolution and climate change the world over The importance of culture in rural urban revitalisation has been underestimated in South Africa and the African continent at large Despite some cultural initiatives that are still at developmental stages in big cities such as Johannesburg eThekweni and Cape Town there is concern about the absence of sustainable policies and plans to support culture creativity and indigenous knowledge at national and municipal levels Showcasing alternative strategies for making culture central to development this book discusses opportunities to shift culture and indigenous knowledge from the peripheries and place them at the epicentre of sustainable development and the mainstream of cultural planning which can then be applied in the contexts of Africa and the Global South Governmental institutions research councils civil society organisations private sector and higher education institutions come together in a joint effort to explain the nexus between culture economic development rural urban linkages grassroots and technological innovations *Culture and Rural Urban Revitalization in South Africa* is an ideal read for those interested in rural and urban planning cultural policy indigenous knowledge and smart rural village model [Advanced Processes for Wastewater Treatment and Water Reuse](#) Rui C. Martins, Rosa M. Quinta-Ferreira, Maria Graca Rasteiro, Renato Falcão Dantas, Marta Gmurek, 2021-01-05 **International Environments and Practices of Higher Education** Andrea Caputo, Deborah Lock, Dieu Hack-Polay, 2022-10-31 This book provides a critical review of the teaching practices in higher education in international contexts Sticky problems and debates about inclusivity diversity and cultural representation in the curriculum and classroom are explored through the eyes of the academics who negotiate complex teaching landscapes **Wheat Improvement, Management and Utilization** Ruth Wanyera, James Owuochi, 2017-05-24 The Wheat Improvement Management and Utilization book covers some of the most recent research areas that touch on enhancement of wheat productivity It is obvious that wheat is one of the major staple crops grown globally This crop has widely been researched on considering that for instance it is afflicted by various abiotic and biotic stresses that limit its growth and productivity Today's goal of wheat improvement consistently is to develop varieties that are high yielding with good processing and technological qualities well adapted and tolerant to prevailing biotic and abiotic stresses Therefore this is a valuable reference book on wheat improvement agronomy and end use qualities particularly for those who work in research organizations and higher academic institutions Moreover it provides an invaluable resource for readers interested in a quick review of trending topics in wheat [Sewage](#) Ivan Zhu, 2018-07-25 Wastewater treatment and sludge disposal are important for protecting receiving rivers lakes and other water bodies and vital for human health Since excessive discharge may cause eutrophication and

deterioration of aquatic systems the US EPA and other national agencies have set guidelines for wastewater discharge standards Conventional technologies are well developed and widely applied worldwide for wastewater treatment however new ideas and new technologies are gaining additional interest for the sake of water and energy reuse While water is essential in arid regions wastewater reuse and recycling have been playing an important role in human life Although there are no universal standards for industrial and agriculture reuse balancing wastewater treatment and public health protection presents challenges and opportunities

**Listening Across Borders** James A. Davis, Christopher Lynch, 2021-09-22

*Listening Across Borders* Musicology in the Global Classroom provides readers with the tools and techniques for integrating a global approach to music history within the framework of the roots challenges and benefits of internationalization into the modern music curriculum Contributors from around the world offer strategies for empowering students to critique the economic ideological and political structures that propagate global challenges Applicable in a variety of classroom settings the internationalized teaching methods collected here suggest fruitful ways forward in a global age in three parts Creating Global Citizens Teaching with Case Studies of Intercultural Encounters Challenges and Opportunities In reevaluating the role of higher education in a cosmopolitan world modern educators have come to question the limits of geographically defined canons traditional curricular content and other longstanding teaching approaches *Listening Across Borders* places the music history classroom at the center of the conversation about internationalization in higher education embracing pedagogies that develop the skillsets to become global citizens in a world where international cooperation is increasingly essential

*Goat Science* Sándor Kukovics, 2023-01-18 This volume provides a comprehensive overview of goat keeping and farming It includes twenty two chapters that address such topics as breeding and selection goat reproduction production systems the effects of goat farming on the environment the use of goat byproducts the economics of goat farming and much more

**Jazz and Totalitarianism** Bruce Johnson, 2016-08-12 *Jazz and Totalitarianism* examines jazz in a range of regimes that in significant ways may be described as totalitarian historically covering the period from the Franco regime in Spain beginning in the 1930s to present day Iran and China The book presents an overview of the two central terms and their development since their contemporaneous appearance in cultural and historiographical discourses in the early twentieth century comprising fifteen essays written by specialists on particular regimes situated in a wide variety of time periods and places Interdisciplinary in nature this compelling work will appeal to students from Music and Jazz Studies to Political Science Sociology and Cultural Theory

Tempny, 2016-01-07 Guest editors Claire Tempny and Tina Kapur review MR Guided Interventions in this important issue in *MRI Clinics of North America* Articles include MR sequences and rapid acquisition for MR guided interventions MR guided breast interventions role in biopsy targeting and lumpectomies MR guided passive catheter tracking for endovascular therapy MRgFUS update on clinical applications MR guided spine Interventions MR

guided prostate biopsy Interventional MRI Clinic the Emory experience MR guided cardiac interventions MR guided functional neurosurgery MR guided active catheter tracking MR guided drug delivery MR guided thermal therapy for localized and recurrent prostate cancer MR neurography for guiding nerve blocks and its role in pain management MR guided gynecologic brachytherapy and more

**Applications of STEM (Science, Technology, Engineering and Mathematics) Tools in Microbiology of Infectious Diseases** Julio Alvarez, Andres Perez, 2017-06-02 Epidemiology is a discipline intended to systematically investigate and ideally quantify disease dynamics in populations Perez 2015 Epidemiological assessments may be divided into four large areas namely a identification and characterization of a pathogen b development of systems for detection of cases c descriptive epidemiology and quantification of disease patterns and d advanced analytical methods to design intervention strategies Briefly there is an initial need for understanding the pathogeny of a disease and condition which may also include experimental studies and development of new models of infection and proliferation under different conditions Subsequently such knowledge may be applied to support the identification of cases which typically includes the design evaluation and validation of diagnostic tests Disease may then be quantified in a population leading to the identification of patterns and application of molecular characterization techniques to understand disease spread and ultimately to identify factors preventing or promoting disease Finally those factors may be incorporated into advanced quantitative methods and epidemiological models which are used to design and evaluate strategies aimed at preventing controlling or eliminating disease in the population Recent years have seen a dramatic increase in the application of science technology engineering and mathematical STEM tools and approaches intended to enhance such analytical epidemiology process with the ultimate goal of supporting disease prevention control and eradication This eBook comprises a series of research articles that through current state of the art scientific knowledge on the application of STEM tools to the microbiology of infectious diseases demonstrate their usefulness at the various components of an integral epidemiological approach divided into the four large components of a experimental studies b novel diagnostic techniques c epidemiological characterization and d population modeling and intervention

**Engineering Geology for a Habitable Earth: IAEG XIV Congress 2023 Proceedings, Chengdu, China** Sijing Wang, Runqiu Huang, Rafiq Azzam, Vassilis P. Marinos, 2024-08-27 This book collects the selected papers of the XIV Congress of the International Association for Engineering Geology and the Environment held in Chengdu Sichuan China from September 21st 27th 2023 with the theme of Engineering Geology for a Habitable Earth The meeting proceedings analyses the dynamic role of engineering geology in our changing world The congress is expected to enhance the inter disciplinary research development of international engineering geology and the environment and contribute to the advancement of major projects ecological progress and habitable earth with in depth discussion in the area of engineering geology and global climate change geological hazard assessment and prevention geotechnical properties of rock and soil mass engineering geology and the environmental issues concerning marine

transportation urban and ecological environment protection engineering geology and resilience engineering construction intelligent engineering geology and new theories methods and techniques in engineering geology

*Mechanical Support for Heart Failure* Jamshid H. Karimov, Kiyotaka Fukamachi, Randall C. Starling, 2020-09-04 This book provides a comprehensive overview of mechanical circulatory support of the failing heart in adults and children The book uniquely combines engineering knowledge and the clinician's perspective into a single resource while also providing insights into current and future development of mechanical circulatory support technology such as ventricular assist devices the total artificial heart and catheter based technologies for heart failure Topics featured in this book include The history of mechanical circulatory device development Fundamentals of hemodynamics support Clinical management of mechanical circulatory devices Surgical implantation techniques Current limitations of device therapies in advanced heart failure Advanced and novel devices in the development pipeline Opportunities for advancement in the field Mechanical Support for Heart Failure Current Solutions and New Technologies is a must have resource for not only physicians residents fellows and medical students in cardiology and cardiac surgery but also clinical and basic researchers in biomedical engineering with an interest in mechanical circulatory support heart failure and new technological applications in medicine

**Improving poultry meat safety and sustainability** Dr Steven C. Ricke, Prof Nicolae Corcionivoschi, Dr Jessica Hite, Dr Todd Callaway, Dr Nicole Jaffrezic-Renault, Debabrata Biswas, Dr Kumar Venkitanarayanan, Dr Paul McMullin, Dianna Bourassa, Dr Janne Lundén, Dr Dana K. Dittoe, Ilkka Leinonen, Dr Kelly Wamsley, Prof Xiuping Jiang, 2025-03-25 Highlights the major zoonotic disease threats to poultry production detailing their characterisation identification and routes of transmission Addresses both on farm safety and postharvest management techniques in preventing the risk and spread of zoonotic and other diseases Considers how elements of poultry production can be better managed to improve safety and sustainability such as improving feed formulation and litter management to reduce environmental impact

**Marketing and Smart Technologies** José Luís Reis, Marc K. Peter, Luís Paulo Reis, Zorica Bogdanovic, 2025-03-12 This book includes selected papers presented at the International Conference on Marketing and Technologies ICMarkTech 2023 held at Faculty of Economics and Management FEM Czech University of Life Sciences Prague CZU in partnership with University College Prague UCP in Prague Czech Republic between 30 November and 2 December 2023 It covers up to date cutting edge research on artificial intelligence applied in marketing virtual and augmented reality in marketing business intelligence databases and marketing data mining and big data marketing data science web marketing e commerce and v commerce social media and networking geomarketing and IoT marketing automation and inbound marketing machine learning applied to marketing customer data management and CRM and neuromarketing technologies

**Structural Analysis of Historical Constructions: Anamnesis, Diagnosis, Therapy, Controls** Koen Van Balen, Els Verstrynge, 2016-11-03 Structural Analysis of Historical Constructions Anamnesis diagnosis therapy controls contains the papers presented at the 10th International Conference on Structural

Analysis of Historical Constructions SAHC2016 Leuven Belgium 13 15 September 2016 The main theme of the book is Anamnesis Diagnosis Therapy Controls which emphasizes the importance of all steps of a restoration process in order to obtain a thorough understanding of the structural behaviour of built cultural heritage The contributions cover every aspect of the structural analysis of historical constructions such as material characterization structural modelling static and dynamic monitoring non destructive techniques for on site investigation seismic behaviour rehabilitation traditional and innovative repair techniques and case studies The knowledge insights and ideas in Structural Analysis of Historical Constructions Anamnesis diagnosis therapy controls make this book of abstracts and the corresponding digital full colour conference proceedings containing the full papers must have literature for researchers and practitioners involved in the structural analysis of historical constructions

**Capitalism and Environmental Collapse** Luiz Marques, 2020-08-17 This book intends to be an alert to the fact that the curve measuring environmental costs against the economic benefits of capitalism has irreversibly entered into a negative phase The prospect of an environmental collapse has been evidenced by the sciences and the humanities since the 1960s Today it imposes its urgency This collapse differs from past civilizations in that it is neither local nor just civilizational It is global and occurs at the broadest level of the biosphere accelerated by the convergence of different socio environmental crises such as Earth energy imbalance climate change and global warming Sea level rise Decrease and degradation of forests Collapse of terrestrial and aquatic biodiversity Floods droughts wildfires and extreme weather events Degradation of soils and water resources Increase in pollution caused by fossil fuels and coal Increase in waste production and industrial intoxication The book is divided in two parts In the first part it presents a comprehensive review of scientific data to show the already visible effects of each of the different environmental crises and its consequences to human life on Earth In the second part Luiz Marques critically discusses what he calls the three concentric illusions that prevent us from realizing the gravity of the current socio environmental crises the illusion of a sustainable capitalism the illusion that economic growth is still capable of providing more well being and the anthropocentric illusion Finally Marques argues that fitting back into the biosphere will only be possible if we dismantle the expansive socioeconomic gear that has shaped our societies since the 16th century by moving from a Social Contract to a Natural Contract which takes into account the whole biosphere According to him the future society will be post capitalist or it will not be a complex society and even perhaps we must fear no society at all This book is backed up with the latest and best science and has made the complexities understandable for the average reader all in a context of hope for the future William J Ripple PhD Distinguished Professor of Ecology Director of the Alliance of World Scientists Oregon State University [Handbook of Research on Protecting and Managing Global Indigenous Knowledge Systems](#) Tshifhumulo, Rendani, Makhanikhe, Tshimangadzo Justice, 2021-10-08 Indigenous knowledge systems IKS are a combination of knowledge systems encompassing technology social economic and philosophical learning or educational legal and governance systems The lack of

documentation of these systems presents a problem as the knowledge is fading away over time In response it is essential that policies and strategies are undertaken to ensure that these systems are protected and sustained for generations to come The Handbook of Research on Protecting and Managing Global Indigenous Knowledge Systems is a comprehensive reference source that works to preserve indigenous knowledge systems through research Focusing on key concepts such as tools of indigenous knowledge management and African indigenous symbols the book preserves and promotes indigenous knowledge through research and fills the void staff and students within the field of indigenous knowledge systems face with the current lack of research and resources This book is ideal for university students lecturers researchers academicians policymakers historians sociologists and anyone interested in the field of indigenous knowledge systems

**Numerical Methods in Geotechnical Engineering IX, Volume 1** Manuel de Matos Fernandes, 2018-06-22 NUMGE 2018 is the ninth in a series of conferences on Numerical Methods in Geotechnical Engineering organized by the ERTC7 under the auspices of the International Society for Soil Mechanics and Geotechnical Engineering ISSMGE The first conference was held in 1986 in Stuttgart Germany and the series continued every four years 1990 Santander Spain 1994 Manchester United Kingdom 1998 Udine Italy 2002 Paris France 2006 Graz Austria 2010 Trondheim Norway 2014 Delft The Netherlands The conference provides a forum for exchange of ideas and discussion on topics related to numerical modelling in geotechnical engineering Both senior and young researchers as well as scientists and engineers from Europe and overseas are invited to attend this conference to share and exchange their knowledge and experiences This work is the first volume of NUMGE 2018

**Numerical Methods in Geotechnical Engineering IX** António Cardoso, José Borges, Pedro Costa, António Gomes, José Marques, Castorina Vieira, 2018-06-19 Numerical Methods in Geotechnical Engineering IX contains 204 technical and scientific papers presented at the 9th European Conference on Numerical Methods in Geotechnical Engineering NUMGE2018 Porto Portugal 25-27 June 2018 The papers cover a wide range of topics in the field of computational geotechnics providing an overview of recent developments on scientific achievements innovations and engineering applications related to or employing numerical methods They deal with subjects from emerging research to engineering practice and are grouped under the following themes Constitutive modelling and numerical implementation Finite element discrete element and other numerical methods Coupling of diverse methods Reliability and probability analysis Large deformation large strain analysis Artificial intelligence and neural networks Ground flow thermal and coupled analysis Earthquake engineering soil dynamics and soil structure interactions Rock mechanics Application of numerical methods in the context of the Eurocodes Shallow and deep foundations Slopes and cuts Supported excavations and retaining walls Embankments and dams Tunnels and caverns and pipelines Ground improvement and reinforcement Offshore geotechnical engineering Propagation of vibrations Following the objectives of previous eight thematic conferences 1986 Stuttgart Germany 1990 Santander Spain 1994 Manchester United Kingdom 1998 Udine Italy 2002 Paris France 2006 Graz Austria

2010 Trondheim Norway 2014 Delft The Netherlands Numerical Methods in Geotechnical Engineering IX updates the state of the art regarding the application of numerical methods in geotechnics both in a scientific perspective and in what concerns its application for solving practical boundary value problems The book will be much of interest to engineers academics and professionals involved or interested in Geotechnical Engineering      **Handbook of Research on Methods and Tools for Assessing Cultural Landscape Adaptation** Rosa, Isabel de Sousa, Lopes, Joana Corte, Ribeiro, Ricardo, Mendes, Ana, 2018-06-22 In a globalizing and expanding world the need for research centered on analysis representation and management of landscape components has become critical By providing development strategies that promote resilient relations this book promotes more sustainable and cultural approaches for territorial construction The Handbook of Research on Methods and Tools for Assessing Cultural Landscape Adaptation provides emerging research on the cultural relationships between a community and the ecological system in which they live This book highlights important topics such as adaptive strategies ecosystem services and operative methods that explore the expanding aspects of territorial transformation in response to human activities This publication is an important resource for academicians graduate students engineers and researchers seeking a comprehensive collection of research focused on the social and ecological components in territory development
