

INSTRUCTION GUIDE FOR SUMMER AND FALL 2022 PLACEMENT

What is ALEKS Math Placement?

Math placement will be processed according to 1) scores, 2) scores, 3) credit transfer credits, and 4) equivalent course completion. If a student does not have any offerings on credit for the mathematics course they wish to enroll in, their scores on either Placement Preparation or placement test will be used to determine placement. ALEKS Math is a web-based program that uses artificial intelligence to map a student's strengths and weaknesses. The Placement Preparation is up to 25 questions and generally takes 30-45 minutes to complete. After the Placement Assessment, an individualized three-week learning module is created for students to enhance their knowledge on topics they need. Students then have the opportunity to reassess and improve their placement.

1. Placement will be done as follows:

- All logical placement are applied to challenges and not the placement.
- The Prep and Learning Modules will be used, with paid support system.
- Placement is a standard Placement Assessment.

Getting Started

1. Register your UNLV email address with your student information.
2. Click on the Placement Assessment.
3. Click on the Placement Test.
4. Register for the Placement Assessment and Register for the Placement Test.
5. If you are already registered, click on the Placement Assessment.
6. If you are not registered, click on the Placement Assessment.
7. Answer the Placement Assessment. The Placement Assessment will be processed after placement.
8. Complete the assessment.
9. Review the results.

*** If this is your first attempt, you will be taking your Initial Assessment within three weeks of your placement. The Initial Assessment is a series of questions that will be used to determine your placement. The questions will be used to determine your placement. You will need to take the Placement Assessment within three weeks of your placement. If you are already in the Placement Assessment, go to [page 2](#).
