Labour Migration, Human Trafficking and Multinational Corporations Ato Quayson, Antonela Arhin, 2013-06-19 Although much literature on human trafficking focuses on sex trafficking a great deal of human trafficking results from migrant workers compelled by economic deprivation in their home countries to seek better life opportunities abroad especially in agriculture construction and domestic work Such labour migration is sometimes legal and well managed but sometimes not so with migrant workers frequently threatened or coerced into entering debt bondage arrangements and ending up working in forced labour situations producing goods for illicit markets This book fills a substantial gap in the existing literature given that labour trafficking is a much more subtle form of exploitation than sex trafficking It discusses how far large multinational corporations are involved whether intentionally or unintentionally in human trafficking for the purposes of labour exploitation They explore how far corporations are driven to seek cheap labour by the need to remain commercially competitive and examine how the problem often lies with corporations subcontractors who are not as well controlled as they might be The essays in the volume also outline and assess measures being taken by governments and international agencies to eradicate the problem

Sidlawinde Karenga, 2022-02-02 This book describes the nature of trafficking in persons in West Africa focusing on labor and sexual exploitation in the region and recommends tailor made solutions established by the Catholic Church in light of governmental authorities failure to effectively combat this scourge of humanity While states efforts to fulfill their international obligations in developing anti trafficking legislations are recognized their failure to carry out prosecutions of offenders and ensure protection of the victims reveals that law alone is not a sufficient instrument for realizing human rights and improving people s lives Faced with the sobering background of less than successful efforts by governmental entities to end the trade in humans this research study recommends adopting essential elements of Catholic social teaching which rests on the inherent dignity of human beings allowing the development of political socio cultural and religious reforms that will increase the effectiveness of existing legislation designed to combat trafficking This faith based approach highlights the role that religion may play in fulfilling the discretionary provisions of the Palermo Protocol by promoting the welfare and protecting the life and dignity of the victims Additionally religion is composed of sound moral ethics that determine people s behavior to refrain from the sinful conduct of trafficking It also creates a sense of ethical responsibility that promotes supply chain transparency and ethical purchasing as well as advocating social reforms and anti trafficking legislations initiatives In fact the author s approach may be a model for other regions in the world and will be of interest to scholars law and policy makers human rights advocates and law enforcement agents working in the field of trafficking in persons **Globalization and Its Impact on Violence Against Vulnerable Groups** Boskovic, Milica

There is extensive and detailed academic literature on the legal development of international crimes such as war crimes and crime against humanity However not much attention has been paid to other serious crimes including narcotics related offences human trafficking and money laundering which do not necessarily amount to international crimes in the traditional sense The purpose of this monograph is to fill this gap and offer a critical analysis of developments in the field of transnational organised crime under international law The book is divided into two parts Part I is entitled Norms Principles and Concepts It traces the history of organised crime and explores key concepts and norms relating to the practice from a multi disciplinary perspective It then looks at legal obligations imposed upon States as well as non State actors in relation to transnational organised crime Part II illustrates how these norms principles and obligations are translated and enforced in practice This will be done through case studies at the level of national law Thailand Serbia and the UK regional law European Union and international law United Nations A book of many parts its thematic coherence comes from its devotion to identifying the social threat posed by organised crime and the legal steps taken at the international and national levels against that threat Rich with example and illustration and written in a light direct style it will provide a lucid guide for practitioners policy makers and students to the largely untraversed territory of the international legal system set up to suppress transnational organised crime Professor Neil Bolster University of Canterbury New Zealand the international law governing organized crime is a close relative of the body of law applicable to the International Criminal Court and similar institutions It provides a forum to address issues of more general concern such as the scope of universal jurisdiction immunities statutory limitation and extradition Tom Obokata s study with its original and in some ways unique perspective enriches our knowledge of the field Professor William Schabas Irish Centre for Human Rights The book is well written its documentation is quite exhaustive and its thesis is timely and compelling Professor M Cherif Bassiouni DePaul University College of Law **Transnational Crimes in the Americas** Marshall B. Lloyd,2018-10-30 Transnational Crimes in the Americas addresses contemporary issues with respect to public institutions that are stakeholders in the fight against

globalization of crime Regional public organizations with a primary focus on the Americas constitute a framework for understanding the need for an institutional response within the Western Hemisphere While other authors have addressed the growth of organized crime no one has explained institutional developments in the struggle against transnational crimes Transnational Crimes in the Americas highlights existing organizations emphasizing a regional response to transnational crimes suggestions for a permanent criminal court in the Americas and an appraisal of the current state of institutional developments in the region **The Routledge Handbook of Women's Experiences of Criminal Justice** Isla
