Index of English Literary Manuscripts Margaret M. Smith, 1989-11-01 Eleven authors are included in this final part of Volume III of the Index beginning with Laurence Sterne and concluding with Edward Young It also includes the final cumulative first line index of all the verse which is described in the manuscript entries or mentioned in the Introductions in Parts 1 4 of Volume III

Gnosis and Hermeticism from Antiquity to Modern Times R. van den Broek, Wouter J. Hanegraaff, 1998-01-01 This volume introduces what has sometimes been called the third component of western culture It traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith emphasizing instead the importance of inner enlightenment or gnosis a revelatory experience which was typically believed to entail an encounter with one's true self as well as with the ground of being God The contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions In Antiquity one finds the gnostics and hermetics in the Middle Ages several Christian sects The medieval Cathars can to a certain extent be considered part of the same tradition Starting with the Italian humanist Renaissance hermetic philosophy became of central importance to a new religious synthesis that can be referred to as Western Esotericism The development of this tradition is described from Renaissance hermeticists and practitioners of spiritual alchemy to the emergence of Rosicrucianism and Christian theosophy in the seventeenth century and from post enlightenment aspects of Romanticism and occultism to the present day New Age movement

Studies in Gnosticism and Alexandrian Christianity Roelof van den Broek, 2020-10-26 The discovery of the Nag Hammadi Library 1945 has given an enormous impetus not only to the study of ancient Gnosticism but also to that of early Christianity in general Most of the studies contained in this volume deal with mythological conceptions and theological ideas found in various Nag Hammadi writings The gnostic views on the nature of God and on creation and salvation receive particular attention ranging from Philo to the medieval Cathars The Nag Hammadi Library also shed new light on the development of early Alexandrian Christianity and its theology The book contains six studies which explicitly deal with these topics This volume is of interest to students of Gnosticism early Christianity and Graeco Roman religious and philosophical ideas in general

Robin Hood Thomas H. Ohlgren, Lister M. Matheson, 2007 While references to Robin Hood began to appear as early as the thirteenth century in legal records the earliest surviving poems did not appear in manuscripts and early printed books until the fifteenth and sixteenth centuries Several fourteenth century allusions in the works of William Langland and Geoffrey Chaucer suggest that the rymes of Robyn Hood were widely circulating by the 1370s but it is vital to note none of these late fourteenth century works survives A better approach Thomas H Ohlgren argues is to focus on what has actually survived rather than on what might have existed As a result the poems Robin Hood and the Monk and Robin Hood and the Potter which survive in two different Cambridge manuscripts of the last third of the fifteenth century and A Lytell Geste of Robyn Hode which was printed at least seven times in the sixteenth

century must receive pride of place in the canon because they have a physical reality as material artifacts in short they exist and provide valuable information about the places and times of their composition and dissemination *The Splendor of the Church in Mary* Theresa Marie Chau Nguyen,2023-05-05 Henri de Lubac SJ 1896 1991 is one of the most renowned theologians of the twentieth century Numerous studies have been undertaken to examine his many contributions to theology but little attention has been paid to the specific topic of the relationship of the Blessed Virgin Mary and the Church in his writings This was a topic that gave rise to contentious discussion at the Second Vatican Council and although the Council fathers approved the integration of Marian doctrine into the Dogmatic Constitution on the Church this synthesis of Mariology and ecclesiology has been largely neglected in theology today *The Splendor of the Church in Mary* retrieves de Lubac s Marian ecclesiology and revives an understanding and appreciation of its enduring influence at the Vatican Council and beyond The first part examines de Lubac s pre conciliar works which evince a steady biblical and patristic ressourcement of Marian themes It also explores his writings on Teilhard de Chardin s Eternal Feminine Christian mysticism and Amida Buddhism and discovers in them the essential building blocks of his Marian thought The second part turns to the Second Vatican Council and post conciliar developments Rereading the debates and texts of *Lumen Gentium* through a Marian lens brings to light the extent of de Lubac s influence Meditation sur l Eglise 1953 his principal work on Mary and the Church anticipated the structure and content of *Lumen Gentium* a decade before the Council De Lubac s writings provided a theological compass for the Council fathers and they continue to provide direction and orientation for ecclesiological discourse today *The Splendor of the Church in Mary* culminates in a constructive analysis of one of the most pressing pastoral and ecclesiological questions of our times the question of the relationship of the universal and particular churches Directly engaging the crucial debate between then Cardinal Ratzinger and Cardinal Kasper it proposes that de Lubac s Mariology effectively offers a new perspective and a refreshing path forward Attentive to the mystical identification of Mary and the Church de Lubac s ressourcement has the potential to re enchant and advance contemporary theology in new and significant ways

Education in a Multicultural Cyprus Nicos Anastasiou, Hubert Faustmann, Iacovos Psaltis, 2017-08-21 Greek Cypriots Turkish Cypriots Maronites Latins and Armenians have been the primary historical communities that make up the multicultural landscape of Cyprus However the continuing conflict between the Greek and Turkish Cypriots has geographically socially and psychologically segregated these communities while the influx of economic migrants especially after Cyprus's accession to the EU in 2004 has in turn contributed to Cyprus's challenges arising from multiculturalism in an altogether different perspective How has education over time addressed and re-examined all these issues introduced by Cyprus's complex evolving multiculturalism and ethnic diversity How can education better attend to current problems of coexistence in Cyprus and what kind of role can it play in a federal reunited country This collection of essays introduces an innovative and critical examination of these questions in order to provide relevant answers More specifically it examines how formal non formal and informal education contributed to the creation and perpetuation of the Cyprus conflict as well as to prejudices inter ethnic stereotypes and misperceptions The book also discusses how education could contribute to conflict transformation empathy and peaceful coexistence amongst the different Cypriot communities and how this has been possible in other multi ethnic societies The volume will be of interest to students practitioners and researchers interested in peace education multiculturalism and conflict transformation **Early Modern Authorship and the Editorial Tradition** Aleida Auld, 2023-12-12 This volume adds a new dimension to authorship studies by linking the editorial tradition to the transformative reception of early modern authors and their works across time Aleida Auld argues that the editorial tradition provides privileged access to the reception of early modern literature informing our understanding of certain

reconfigurations and sometimes helping to produce them between their time and our own At stake are reconfigurations of oeuvre and authorship the relationship between the author and work the relationship between authors and the author's own role in establishing an editorial tradition Ultimately this study recognizes that the editorial tradition is a stabilizing force while asserting that it may also be a source of strange and provocative reconceptions of early modern authors and their works in the present day Scholars and students of early modern literature will benefit from this approach to editing as a form of reception that encompasses all the editorial decisions that are necessary to put forth a text
