[The Knowledge Gap](#) Natalie Wexler, 2019-08-06 Essential reading for teachers education administrators and policymakers alike STARRED Library Journal The untold story of the root cause of America's education crisis It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education The problem wasn't one of the usual scapegoats lazy teachers shoddy facilities lack of accountability It was something no one was talking about the elementary school curriculum's intense focus on decontextualized reading comprehension skills at the expense of actual knowledge In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars* Wexler brings together history research and compelling characters to pull back the curtain on this fundamental flaw in our education system one that fellow reformers journalists and policymakers have long overlooked and of which the general public including many parents remains unaware But *The Knowledge Gap* isn't just a story of what

schools have gotten so wrong it also follows innovative educators who are in the process of shedding their deeply ingrained habits and describes the rewards that have come along students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed If we truly want to fix our education system and unlock the potential of our neediest children we have no choice but to pay attention

Ghosts of the Somme Jonathan Evershed, 2018-05-30 Once assumed to be a driver or even cause of conflict commemoration during Ireland s Decade of Centenaries came to occupy a central place in peacebuilding efforts The inclusive and cross communal reorientation of commemoration particularly of the First World War has been widely heralded as signifying new forms of reconciliation and a greater maturity in relationships between Ireland and the UK and between Unionists and Nationalists in Northern Ireland In this study Jonathan Evershed interrogates the particular and implicitly political claims about the nature of history memory and commemoration that define and sustain these assertions and explores some of the hidden and countervailing transcripts that underwrite and disrupt them Drawing on two years of ethnographic fieldwork conducted in Belfast Evershed explores Ulster Loyalist commemoration of the Battle of the Somme its conflicted politics and its confrontation with official commemorative discourse and practice during the Decade of Centenaries He investigates how and why the myriad social political cultural and economic changes that have defined postconflict Northern Ireland have been experienced by Loyalists as a culture war and how commemoration is the means by which they confront and challenge the perceived erosion of their identity He reveals the ways in which this brings Loyalists into conflict not only with the politics of Irish Nationalism but with the peacebuilding state and crucially with each

other He demonstrates how commemoration works to reproduce the intracommunal conflicts that it claims to have overcome and interrogates its nuanced and perhaps counterintuitive function in conflict transformation

De vloek van de nootmuskaat Amitav Ghosh, 2023-02-24 In 2024 is de Erasmusprijs toegekend aan Amitav Ghosh De winning van nootmuskaat als parabel voor de huidige milieucrisis onthult hoe de uitputting van de aarde begon in de tijd van de VOC Wat heeft de strijd om het monopolie op de handel in de muskaatnoot te maken met de hedendaagse klimaatverandering Amitav Ghosh boek herleidt onze hedendaagse planetaire crisis terug tot de ontdekking van de Nieuwe Wereld en de zeeroute naar de Indische Oceaan In de handen van Ghosh wordt het verhaal van de nootmuskaat een parabel voor onze milieucrisis die onthult hoe onze welvaart altijd afhankelijk is geweest van aardse materialen zoals specerijen thee suikerriet opium en fossiele brandstoffen Hij laat zien dat de huidige mondiale problemen het resultaat zijn van een mechanistische kijk op de aarde waar de natuur alleen bestaat als een grondstof die mensen voor hun eigen doeleinden kunnen gebruiken in plaats van een eigen kracht Door discussies over de geschiedenis van de VOC en het kolonialisme te verweven met de klimaatcrisis en de spiritualiteit van oorspronkelijke gemeenschappen geeft dit boek scherpe kritiek op een ideologie die in het Westen nog steeds dominant is
