Masunungure,2020-11-11 At Independence in 1980 Julius Nyerere called Zimbabwe the jewel of Africa and cautioned its new leaders not to tarnish it Tragically they paid no heed to Africa s esteemed elder statesmen Arguably and only if one ignores the carnage of Gukurahundi the first decade was a developmental one with resources being used prudently to benefit the formerly disadvantaged majority population However the 1990s witnessed a transition from a developmental to a predatory leadership which saw Zimbabwe cross the millennial line in crisis where it has remained ever since While many African countries have moved forward over the last three decades Zimbabwe has gone relentlessly backwards save for the four year interregnum of the tripartite coalition government 2009 2013 Virtually all development indicators point in the wrong direction and the crisis of poverty unemployment and the erosion of health education and other public goods continues unabated The imperatives of political survival and power politics supersede those of sound economics and public welfare Moreover unless good politics are conjoined with a sound people first policy the country will continue sliding downhill Zimbabwe s Trajectory tells the story of the country s post independence dynamics and its recent descent into becoming one of the three most unhappy countries in the world

Post-colonial struggles for a democratic Southern Africa Carolyn Bassett, Marlea Clarke, 2017-06-26 National liberation one of the grand narratives of the twentieth century has left a weighty legacy of unfulfilled dreams This book explores the ongoing struggle for legitimate accountable political leaders in postcolonial Southern Africa focussing on dilemmas arising when ex liberation movements form the governments While the spread of multi party democracy to most countries in the region is to be celebrated

democratic practice often has been superficial a limited elitist politics that relies on the symbols of the liberation struggle to legitimate de facto one party rule and authoritarian practices Using country cases from Tanzania Swaziland Zimbabwe South Africa and Zambia the collection explores three subthemes relevant to postcolonial governance in Southern Africa how the struggle for liberation shapes the character of political transformation the nature of rule in one party dominant states headed by former liberation movements and the processes of governance and resistance in post liberation contexts This book was published as a special issue of the Journal of Contemporary African Studies *Validating Technological Innovation* David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations Given that Hong Kong leads the way in OSM innovation this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders The World of Science Education Femi S. Otulaja, Meshach B. Ogunniyi, 2017-09-12 Each volume in the 7 volume series The World of Science Education reviews research in a key region of the world These regions include North America South and Latin America Asia Australia and New Zealand Europe and Israel North Africa and the Middle East and Sub Saharan Africa The focus of this Handbook is on research in science education in mostly former British colonies in Sub Saharan Africa and the scholarship that most closely support this program The reviews of the research situate what has been accomplished within a given field in Sub Saharan Africa rather than an international context The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing face of problems and solutions within regional contexts The approach allows readers to review what has been done and accomplished what is missing and what might be done next Reconceptualising Multilingualism on African Radio Limukani Mathe, Gilbert Motsaathebe, 2025-01-31 This book redefines multilingualism via the concept of radio in Africa Africa presents unique challenges of lingual diversity which the media still struggles to accommodate particularly when it comes to indigenous languages Contributors argue that the linguistic realities of African radio reflect ethnic co existence and fluidity of identity in pre colonial colonial and post colonial contexts They argue that communities consist of several majorized and minoritized indigenous languages which if closely analysed reflect a commonality of multilingualism The book also suggests practical measures through which linguistic co existence could be achieved and explores cases that redefine reconceptualize and reframe multilingualism on African radio
