Zimsec 2014 Accounting Marking Scheme:

Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Zimbabwe International Monetary Fund. African Dept., 2013-07-03 This staff report for Zimbabwe highlights the key macroeconomic challenges of taking steps to improve fiscal and external sustainability and increase financial sector stability. Zimbabwe has made good progress in restoring macroeconomic stability since the end of hyperinflation in 2009 but the economic rebound is waning and key challenges need to be tackled. Strong policies are needed to sustain the economic recovery, restore fiscal and external sustainability and increase financial stability. This would place the economy on a long term sustained inclusive growth path. Implementation of indigenization and empowerment policies according to transparent rules with due respect to property rights remains essential to build investor confidence and attract needed foreign direct investment.
