Beyond the Crises: Zimbabwe's Prospects for Transformation Tendai Murisa,Tendai Chikweche,2015-12-01 Over the past years few African countries have been the focus of discussions and analyses generating a vast array of literature as much as Zimbabwe The socioeconomic and political crises since the turn of the century have deeply transformed the country from the ideals of a vibrant freshly independent nation just two decades earlier These transformations have necessitated the call for the restructuring of Zimbabwean society polity and economy But this literature remains exclusively within the realm of academic thinking and theorising with no concerted effort to move beyond this by explicitly drawing out the policy implications Beyond the Crises Zimbabwe's Prospects for Transformation is a welcome addition to the academic and policy literature with a much broader and all embracing focus in terms of policy interventions By focusing on different aspects of social and economic justice Murisa and Chikweche go beyond initiating a broad discussion on these two key pillars of human development with a view to suggesting possible future directions of practical solutions and policy development for the attainment of inclusive social and economic justice for Zimbabweans *The Zimbabwe Journal of Economics* ,1984

Housing in the Aftermath of the Fast Track Land Reform Programme in Zimbabwe Lovemore Chipungu, Hangwelani Hope Magidimisha,2020-12-10 This book delves into the Fast Track Land Reform Programme FTLRP in Zimbabwe to provide insight into how it facilitated the delivery of housing for low income urban households It highlights the politics of land reforms and the power of community engagement in housing development in urban areas Prior to the FTLRP the Zimbabwean governments had never embraced popular modes of housing production as key factors in urban development In the area of low income housing informal housing schemes have always been treated with apathy and indifference This left the conventional mode of housing production to be the only legitimate means to house low income households despite its shortcomings However the onset of the FTLRP in 2000 resulted in homeless urban households grasping the opportunity to invade farms for housing development Through the lenses of Marxism and Neoliberalism this book analyses housing schemes that emerged and the overall impact of the FTLRP on housing and land delivery in Harare This analysis is based on empirical evidence obtained from key informants and household surveys conducted in Harare The

authors argue that the FTLRP provided a platform for innovativeness by households supported by the unpronounced national urban vision and prowess of the political leadership Hence the success of these housing schemes can be measured by acquisition of land which guarantees households access to the city However some of these housing schemes pose challenges key among them being lack of infrastructure The book concludes by presenting a new model for effective delivery of land and housing for the urban poor This is envisaged as a useful policy tool for urban planners housing experts land economists urban and regional geographers as well as sociologists political scientists and social workers engaged in public administration of land and housing

Plunder for Profit Elijah Doro,2023-04-13 Examines the history of tobacco farming in Zimbabwe to illuminate debates on landscapes people and political economy *African Economic Development* Christopher Cramer,John Sender,Arkebe Oqubay,2020 This book challenges conventional wisdoms about economic performance and possible policies for economic development in African countries Its starting point is the striking variation in African economic performance Unevenness and inequalities form a central fact of African economic experiences The authors highlight not only differences between countries but also variations within countries differences often organized around distinctions of gender class and ethnic identity For example neo natal mortality and school dropout have been reduced particularly for some classes of women in some areas of Africa Horticultural and agribusiness exports have grown far more rapidly in some countries than in others These variations and many others point to opportunities for changing performance reducing inequalities learning from other policy experiences and escaping the ties of structure and the legacies of a colonial past The book rejects teleological illusions and Eurocentric prejudice but it does pay close attention to the results of policy in more industrialized parts of the world Seeing the contradictions of capitalism for what they are fundamental and enduring may help policy officials protect themselves against the misleading idea that development can be expected to be a smooth linear process or that it would be were certain impediments suddenly removed The authors criticize a wide range of orthodox and heterodox economists especially for their cavalier attitude to evidence Drawing on their own decades of research and policy experience they combine careful use of available evidence from a range of African countries with political economy insights mainly derived from Kalecki Kaldor and Hirschman to make the policy case for specific types of public sector investment **Policy**

Solutions for Economic Growth in a Developing Country Nassir Ul Haq Wani,2024-06-17 Perspectives on Afghanistan's Trade and Development offers a rich and varied policy analysis for those who wish to design a policy to bolster exports from Afghanistan and for academicians researchers and students who wish to gain greater insight into this developing economy

Transformational Human Resources Management in Zimbabwe Mervis Chiware,Bernard Nkala,Innocent Chirisa,2022-09-19 This book is a stepping stone toward solving public sector human capital challenges in Zimbabwe as it equips human capital managers with solutions to key issues in the public sector In Zimbabwe the public sector human capital drives the economy as over half of the population access their services through public enterprises Government is the major

agent in economic and infrastructure development as well as the production of goods and services However Zimbabwe s public service is underperforming due to poorly motivated and managed employees who do not respond to the needs of its clients This is a cause of concern as the public sector human capital is central to the overall performance of the public sector Often public sector managers and leaders lack advanced relevant and dynamic skills and knowledge to deal with human resource challenges within the New Public Management environment It is critical for the public sector to transform its human resource management to suit twenty first century needs Effective human resource management in the public sector leads to economic growth and therefore the achievement of the Zimbabwe National Vision 2030 Therefore this book serves as a guide for public sector managers and those directly or indirectly involved in human capital management It provides in depth knowledge and guidance in effective human capital management within the context of the public sector in Zimbabwe

Economics for the Wilds Edward Barbier,Timothy Swanson,2019-09-18 Originally published in 1992 Economics for the Wilds argues that an economics that properly values the resources of the wilds offers the best long term security for their future Most of the world s wilds have in fact always been utilized by local societies who have managed their resources sustainably and one important guarantee for their preservation is therefore the continued participation of those communities and an adequate reward to them for their management The book looks at the complexity and global nature of the issues at the application of economics to the wilds and at the policies for their conservation and sustainable management which then result It also examines specific forms of utilization of wild species and habitats both sustainable and unsustainable and including community based development tourism the use of rainforest products poaching and the impact of conservation on wildlife use The book concludes that a comprehensive utilization strategy for wild resources is needed to ensure their continued existence and the continued flow of benefits from them
