

A black and white photograph of Slavoj Žižek, a man with a beard and mustache, wearing a dark t-shirt. He is looking slightly to the right with a serious expression, and his right fist is raised in a gesture of solidarity or protest. The background is a plain, light-colored wall.

finally determine where he stands on a particular issue Is Zizek Marxist or Post Marxist How seriously should we take his recent turn to Christianity Slavoj Zizek A Critical Introduction shows the reader a clear path through the twists and turns of Zizek s writings Ian Parker takes Zizek s treatment of Hegel Lacan and Marx in turn and outlines and assesses Zizek s interpretation and extension of these thinkers theories While Parker is never hastily dismissive of Zizek s innovations he remains critical throughout aware that the energy of Zizek s writing can be bewitching and beguiling as well as engaging and profound

Petrocultures Sheena Wilson, Adam Carlson, Imre Szeman, 2017-06-26 Contemporary life is founded on oil a cheap accessible and rich source of energy that has shaped cities and manufacturing economies at the same time that it has increased mobility global trade and environmental devastation Despite oil s essential role full recognition of its social and cultural significance has only become a prominent feature of everyday debate and discussion in the early twenty first century Presenting a multifaceted analysis of the cultural social and political claims and assumptions that guide how we think and talk about oil *Petrocultures* maps the complex and often contradictory ways in which oil has influenced the public s imagination around the world This collection of essays shows that oil s vast network of social and historical narratives and the processes that enable its extraction are what characterize its importance and that its circulation through this immense web of relations forms worldwide experiences and expectations Contributors essays investigate the

discourses surrounding oil in contemporary culture while advancing and configuring new ways to discuss the cultural ecosystem that it has created A window into the social role of oil Petrocultures also contemplates what it would mean if human life were no longer deeply shaped by the consumption of fossil fuels How Slavoj Became Žižek Eliran Bar-El,2025-05-06 An engrossing account of the meteoric rise of contemporary philosophy s most contentious and prolific intellectual This revised edition corrects several erroneous and insufficient references in the first edition of this book Slovenian philosopher bad boy Slavoj žižek is one of the most famous intellectuals of our time publishing at a breakneck speed and lecturing around the world With his unmistakable speaking style and set of mannerisms that have made him ripe material for internet humor and meme culture he is recognizable to a wide spectrum of fans and detractors But how did an intellectual from a small Eastern European country come to such popular notoriety In How Slavoj Became žižek sociologist Eliran Bar El plumbs the emergence popularization and development of the phenomenon called žižek Beginning with žižek s early years as a thinker and political figure in Slovenian civil society Bar El traces žižek s rise from Marxist philosopher to political candidate to eventual intellectual celebrity as žižek perfected his unique performative style and a rhetorical arsenal of Hegelacanes Following 9 11 žižek s career as a global op ed writer and TV commentator married his rhetoric with global events such as the war on terror the financial crisis of 2008 and the Arab Spring of 2011 Yet at the same time this mainstream popularity as well as a series of politically incorrect views almost entirely estranged the Slovenian from the normal workings of academia Ultimately this account shows how žižek has harnessed the power of the digital era in his own self fashioning as a public intellectual **Capitalism and the New Political Unconscious** Fabio Vighi,Riccardo Panattoni,2023-03-23 Taking seriously Jacques Lacan s claim that the unconscious is politics this volume proposes a new understanding of political power interrogating the assumption that contemporary capitalism functions by tapping into forms of unconscious enjoyment rather than providing transcendental conditions for the articulation of political meanings and desires Whether we re aware of it or not political communication today targets the audience s libidinal response through political and institutional language in policies speeches tweets social media appearances gestures and images Yet does this mean that current power structures no longer need symbolic or ideological frameworks The authors in this volume think not Far from demonstrating a shift to a post ideological age they argue instead that such methods inaugurate an altogether novel approach to political power Written by leading scholars from around the world including Roberto Esposito and Slavoj žižek each chapter reflects on contemporary power and inspires consideration of new political potentialities which our focus on politics in transcendental rather than immanent terms has thus far obscured In so doing **Capitalism and the New Political Unconscious** provides an original and forceful exploration of the centrality of both psychoanalytic theory and the philosophy of immanence to an alternative understanding of the political Why Do Actors Train? Brad Krumholz,2023-01-26 How are we to understand the actor s work as a fully embodied process Embodied cognition is a branch of contemporary philosophy

which attempts to frame human understanding as fully embodied interaction with the environment Engaging with ideas of contemporary significance from neuroscience psychology linguistics and philosophy Why Do Actors Train challenges the outmoded dualistic notions of body and mind that permeate common conceptions of how actors work Theories of embodiment are drawn up to shed important light on the ways and reasons actors do what they do Through detailed step by step analyses of specific actor training exercises the author examines the tools that actors use to bring life and meaning to the stage This book provides theatre practitioners and scholars alike with a new lens to re examine the craft of acting offering a framework to understand the art form as one that is fundamentally grounded in embodied experience

Barria-Asenjo, Brian Willems, Slavoj Žižek, 2023-11-22 Bringing together over forty original short essays some academic others more creative in nature this collection responds to the political historical social and economic situation in which we find ourselves today The editors argue that we are living in a repetition that must be stopped if our goal is that the signifier humanity remains in the following centuries the time has come to work in the present The objective is not to deliver precise or quick answers but to gather varied voices from different continents bringing together different languages ideas practices theories thoughts and desires In the words of Yanis Varoufakis urging us to become agents of a future that ends unnecessary mass suffering and inspire humanity to realise its potential for authentic freedom To leave the concept of a manifesto open the contradictory aspects of the chapters are a subject of the manifesto itself This is a manifesto of contradictions that reflects our reality as well as our struggles and our aspirations This unique anthology will appeal to students and scholars across the humanities and social sciences interested in critical theory and social change Theatre and Performance in Digital Culture Matthew Causey, 2007-01-24 Theatre and Performance in Digital Culture examines the recent history of advanced technologies including new media virtual environments weapons systems and medical innovation and considers how theatre performance and culture at large have evolved within those systems The book examines the two Iraq wars 9 11 and the War on Terror through the lens of performance studies and drawing on the writings of Giorgio Agamben Alain Badiou and Martin Heidegger alongside the dramas of Beckett Genet and Shakespeare and the theatre of the Kantor Foreman Socetas Raffaello Sanzio and the Wooster Group the book positions theatre and performance in technoculture and articulates the processes of aesthetics metaphysics and politics This wide ranging study reflects on how the theatre and performance have been challenged and extended within these new cultural phenomena Žižek Responds! Dominik Finkelde, Todd McGowan, 2023-02-23 Responses to the Slovenian philosopher Slavoj Žižek have been like Žižek himself extreme Critics have accused him of charlatanry on the one hand while others have lauded his genius especially as a public intellectual on the other This makes it difficult to find any kind of nuanced or interesting critical appraisal of his work At its best Žižek's work provides a new foundation of dialectical philosophy beyond the glitz of stardom or oversimplified sinister disdain Žižek Responds combines philosophers and theorists engaging with Žižek's philosophy in order to explore its unnoticed implications its conceptual problems or its unrealized potential With detailed and lively responses from Žižek himself this book offers a unique insight into how this thinker might explain clarify and hone some of his most controversial and misunderstood ideas At once an introduction to Žižek's most important concepts and a rare and novel insight into his thoughts on the criticisms of his work this is indispensable reading for both Žižekians and their critics Performance in the Blockades of Neoliberalism M. Wickstrom, 2012-02-10 This book ranges from refugee camps in Palestine to halting sites of the Irish Travellers and elsewhere in search of a new politics practiced through performance Written through the intersection of performance and philosophy the book refutes neoliberalism's depoliticizing and strategic uses of humanitarianism human rights and

development Žižek through Hitchcock Laurence Simmons, 2021-05-12 Maverick Slovenian cultural theorist philosopher and psychoanalyst Slavoj Žižek has made his name elaborating the complexities of psychoanalytic and Marxist theory through the exotic use of examples from film and popular culture But what if we were to take Žižek's pretensions to cinephilia and film criticism seriously In this book adopting Žižek's own tactic of counterintuitive observation we shall read the corpus of Alfred Hitchcock's films one of the great achievements of Western civilization and Žižek's idiosyncratic citation of them in order to arrive at a position where we can identify the core commitments that inform Žižek's own work From the practice of Hitchcock we shall hopefully arrive at a theory of Žižek just as Žižek in his collection *Everything You Always Wanted to Know About Lacan But Were Afraid to Ask* Verso 1992 arrives at a theory of Lacan from the practice of Hitchcock To achieve this goal each chapter looks at a specific film by Hitchcock and explores a specific key concept crucial to the elaboration and core of Žižek's ideas
