Zombie Stories For People With Short Attention Spans:

Zombie Stories for People with Short Attention Spans Shaun Phelps, Shaun Phelps MS, Kyle Clements, Dominique Divine, Tonia Brown, Rob Sacchetto, 2015-01-26 A collection of short disgusting and mentally disturbed zombie stories for the internet age Concise bittersweet and stomach churning This collection of disgusting horrifying and psychological thriller based zombie stories is the result of a challenge One night Kyle Clements and I decided we should write a novella We came up with the idea of writing stories based on a weekly challenge Each week we would send each other a single word for better or worse Regardless the word we had to write at least 1 000 words about the topic The stories that came out of the challenge are the most terrifying depraved sincere and utterly unreadable works we could have hoped for The idea was further based on Edgar Allen Poe s recommendation that a short story should be read within a single sitting Given society s recent changes in attention span we realized 1 000 words in a single sitting would be the best most people could accomplish When I introduced the idea to my mother she was excited until she read the first story Then she said I liked your last work better When I sent the novella to our beta readers their responses were typically a mix between This is really great and I couldn t finish this story it was just too disgusting In the end I think we adequately accomplished our goal A challenging read that is both interesting and disgusting at once It is our hope that you will both enjoy this book and also hate it yet not demand a refund Short Stories for the Short Attention Span Or Otherwise Involved Henry M. Schmidt, 2009 Dead That Walk Chairman of Chime the European Foundation for Chinese Music Research Leverhulme Research Fellow at the School of Oriental and African Studies Stephen Jones, 2010-09 Of all the monstrous threats to humanity zombies are the most horrific That s because they are not uncommon or alien they re human Or more correctly were human Anywhere that there are humans there are zombies and they can never be completely annihilated because by breeding more humans we breed more zombies In The Ultimate Book of Zombies these decomposing monsters are demolished decapitated and destroyed The gore flows as humans and zombies dispatch each other in blood curdling battles fought in big city alleys high school playgrounds and even suburban living rooms In addition the living dead are fully deconstructed in these wide ranging and fascinating stories More than just brain eating assaults and acid bath retaliations the tales in this book explore all elements of zombie existence and their interaction with the humans they live among ATM Sex Alan Lord, 2011 ATM SEX is a furious collection of satirical sketches and fearless social commentary that manages to skewer everyone and everything under the sun often employing the absurd lingo of advertising It makes fun of the doomed dysfunctional interplay between the sexes and kicks the ass of our crackpot lifestyles hysterical consumerism and overreliance on technogeekery and media drooling which are supposed to solve our pathetic lives dominated by tragic consumerism arrogant gadget diddling and rampant narcissism In Alan Lord we have finally found an unapologetic un Canadian over the top willing to throttle the myriad squawkboxes of our out of control dumbed down zeitgeist Unlocked Pete Etchells, 2024-03-21 A welcome counterpoint to

the technopanic that screen time is causing a mental health crisis Bruce Hood A rare mix of trustworthy science practical advice and human stories I m going to recommend it to all the parents I know and keep it handy for reference next time I see a scary headline about how technology is ruining our lives Timandra Harkness Punctures some of the most pernicious myths about our smartphone and screen dominated lives while offering good advice about how to improve the time we spend with screens a must read New Scientist Most of us spend a significant part of the day in front of a screen Our work and social lives play out through our computers tablets and phones on email social media video conference calls and gaming servers But what is all this screen time doing to our health our sleep and our relationships Professor Pete Etchells studies the way we use screens and how they can affect us In UNLOCKED he delves into the real science behind the panic about our alleged device addiction and withering attention spans Armed with the latest research he reveals how little we have to fear and the great deal we have to gain by establishing a more positive relationship with our screens That begins with asking ourselves some essential questions about how we use them Instead of clamouring for us to ditch our devices before guiltily returning to the same old habits UNLOCKED is a sustainable realistic and vital guide to transforming our connection with technology

The Anthropocene and the Undead Simon Bacon,2022-03-22 The Anthropocene and the Undead describes how our experience of an increasingly erratic environment and the idea of the undead are more closely linked than the obvious zombie horde signaling the end of the world In fact as described here much of how we understand the anthropocene both conceptually and in practice involves undead entities from the past that will not die undead traumas that rise up and consume the world and undead temporalities that can never end Fifteen original essays by cultural and anthropological experts such as Kyle William Bishop Nils Bubandt Johan H glund and Steffen Hantke among others study the nature of humanity s ongoing complicated relationship to the environment via the concept of the undead In doing so The Anthropocene and the Undead sheds invaluable light on adjacent concepts such as the Capitalocene Necrocene Disanthropocene Post anthropocene and the Symbiocene to trace real and imagined trajectories of our more than human selves into undead and undying futures

Teaching Children to Love Nature Dueep Jyot Singh,John Davidson,2018-03-31 Table of Contents Introduction A Healthy Outdoors Diet Planning Your Nature Diet Bird baths and bird houses Coconut Birdhouse A Little Bit of Dirt Kids and Water Conclusion Author Bio Publisher Introduction It is surprising that it had to take scientific researchers to tell a large number of parents out there that it is necessary for them to make sure that their children had a regular dose of sun fresh air water and oxygen in order to keep healthy When I saw this research which was very well publicized I blinked Were there people really in the world who needed scientific research to prove something which was self evident before they would take their families into the lap of nature It is then that I began to analyze the social lifestyles and trends being set for the younger generation with the elder generation as an example The elder generation the parents had begun living a hectic lifestyle where survival of the fittest especially on the financial front was paramount Thus bothering about rest and recuperation in the lap of nature began to take a backseat way back in the 90s This lapse also caused ever growing statistics in tension stress depression obesity a low immunity system vulnerability to a number of diseases Also children began growing up with underdeveloped cognitive abilities and also physicals resilience because they had not learned about the beneficial qualities of Power N to help keep you healthy naturally and give you long term health benefits at the same time Also the parents are not to blame When a child was young if he had not been taught by his own parents to walk run jog explore go adventuring in the lap of nature you would not

expect him to grow up deciding that he had better become a nature loving Wild Kid all of a sudden I have seen a large number of my city bred friends who would shudder at the idea of tiring themselves on nature hikes or go adventuring in woods you know all those insects and snakes and bugs and sabertooth tigers out there shudder shiver Scouting , Published by the Boy Scouts of America for all BSA registered adult volunteers and professionals Scouting magazine offers editorial content that is a mixture of information instruction and inspiration designed to strengthen readers abilities to better perform their leadership roles in Scouting and also to assist them as parents in strengthening families **Reagan's Game** R.
