## **Zimsec 2014 Examination November Question Papers:**

*The Routledge Handbook of Disability in Southern Africa* Tsitsi Chataika, 2018-07-27 This comprehensive groundbreaking southern African centred collection spans the breadth of disability research and practice. Reputable and emerging scholars together with disability advocates adopt a critical and interdisciplinary stance to prove, challenge and shift commonly held social understanding of disability in traditional discourses, frontiers and practices in prominent areas such as international development, disability studies, education, culture, health, religion, gender, sports, tourism, ICT, theatre, media, housing and legislation. This handbook provides a body of interdisciplinary analyses suitable for the development of disability studies in southern Africa. Through drawing upon and introducing resources from several disciplines, theoretical perspectives and personal narratives from disability activists, it reflects on disability and sustainable development in southern Africa. It also addresses a clear need to bring together interdisciplinary perspectives and narratives on disability and sustainable development in ways that do not undermine disability politics advanced by disabled people across the world. The handbook further acknowledges and builds upon the huge body of literature that understands the social, cultural, educational, psychological, economic, historical and political facets of the exclusion of disabled people. The handbook covers the following broad themes: Disability inclusion, ICT and sustainable development, Access to education from early childhood development up to higher education, Disability employment, entrepreneurship and community based rehabilitation, Religion, gender and parenthood, Tourism, sports and accessibility. Compelling narratives from disability activists on societal attitudes toward disability, media advocacy, accessible housing and social exclusion. Thus, this much awaited handbook provides students, academics, practitioners, development partners, policy makers and activists with an authoritative framework for critical thinking and debates that inform policy and practice in incomparable ways with the view to promoting inclusive and sustainable development.

*Zimbabwe* International Monetary Fund. African Dept., 2014-07-11 This 2014 Article IV Consultation highlights that economic rebound in Zimbabwe experienced since the end of hyperinflation in 2009 has now ended. After averaging 10 percent over 2009-2012, growth fell to an estimated 3.3 percent in 2013, reflecting tight liquidity conditions, election year uncertainty, weak demand for key exports, competitiveness pressures and the impact of adverse weather conditions. Inflation continued its downward trend from 2.9 percent year over year at end 2012 to 0.3 percent in April 2014. The medium term outlook under the baseline scenario is for growth to average some 4 percent as large mining sector investments reach full capacity.

*Legal Protection of Foreign Direct Investment. A Critical Assessment with Focus on South Africa and Zimbabwe* Talkmore Chidede, 2016-09 This study undertakes a critical assessment of the legal protection of foreign direct investments FDI in South Africa and Zimbabwe by determining their compliance with the international minimum standards norms and or best practices on the legal protection of FDI by host states Firstly the study argues that foreign investment is much needed in South Africa and Zimbabwe to improve economic growth and development to create jobs and to increase their competitiveness However these benefits are not accrued automatically but rather host states need to create an enabling

environment to receive such benefits Thus host states need to put an investment scheme into operation to guarantee the legal protection of foreign investments South Africa and Zimbabwe have at large crafted and implemented investment laws and related policies which tend to be hostile towards foreign investments Therefore similar investment laws and related policies in both jurisdictions are analysed This study will also offer recommendations for a legal investment which is not only flexible friendly and favourable to foreign investment in South Africa and Zimbabwe but also advances their local economic policies
