Tsitsi Chataika, 2018-07-27. This comprehensive ground-breaking southern African-centred collection spans the breadth of disability research and practice. Reputable and emerging scholars, together with disability advocates, adopt a critical and interdisciplinary stance to prove, challenge, and shift commonly held social understanding of disability in traditional discourses, frontiers, and practices in prominent areas such as international development, disability studies, education, culture, health, religion, gender, sports, tourism, ICT, theatre, media, housing, and legislation. This handbook provides a body of interdisciplinary analyses suitable for the development of disability studies in southern Africa. Through drawing upon and introducing resources from several disciplines, theoretical perspectives, and personal narratives from disability activists, it reflects on disability and sustainable development in southern Africa. It also addresses a clear need to bring together interdisciplinary perspectives and narratives on disability and sustainable development in ways that do not undermine disability politics advanced by disabled people across the world. The handbook further acknowledges and builds upon the huge body of literature that understands the social, cultural, educational, psychological, economic, historical, and political facets of the exclusion of disabled people. The handbook covers the following broad themes: Disability inclusion, ICT, and sustainable development; Access to education from early childhood development up to higher education; Disability employment, entrepreneurship, and community-based rehabilitation; Religion, gender, and parenthood; Tourism, sports, and accessibility. Compelling narratives from disability activists on societal attitudes toward disability, media advocacy, accessible housing, and social exclusion. Thus, this much-awaited handbook provides students, academics, practitioners, development partners, policy makers, and activists with an authoritative framework for critical thinking and debates that inform policy and practice in incomparable ways with the view to promoting inclusive and sustainable development. **Facets of Power**, 2023-01-10. The diamond fields of Chiadzwa among the world's largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006. Against the backdrop of a turbulent political economy, control of Chiadzwa's diamonds was hotly contested. By 2007, a new case of blood diamonds had emerged in which the country's security forces engaged with informal miners and black market dealers in the exploitation of rough diamonds, violently disrupting local communities and looting a key national resource. The formalisation of diamond mining in 2010 introduced new forms of large-scale theft, displacement, and rights abuses. *Facets of Power* is the first comprehensive account of the emergence, meaning, and profound impact of Chiadzwa's diamonds. Drawing on new fieldwork and published sources, the contributors present a graphic and accessibly written narrative of corruption and greed as well as resistance by those who have suffered at the

hands of the mineral s secretive and violent beneficiaries If the lessons of resistance have been mostly disheartening ones they also point towards more effective strategies for managing public resources and mounting democratic challenges to elites whose power is sustained by preying on them      **Facets of Power** Richard Saunders,Tinashe Nyamunda,2016-04-18

Madongonda,Government Phiri,2015-11-25

The Art of Survival Depictions of Zimbabwe and the Zimbabwean in Crisis offers a fresh interdisciplinary examination of a period against which development in Zimbabwe is often measured one epitomized by the severe shortages and runaway inflation of 2008 While journalistic stories of the 1998 2008 era often privilege the reductive stories of woe defeat and crushed hopes this volume explores how survival was still possible in those circumstances The book offers insights into how ordinary Zimbabweans battled the odds by making startling innovations in language use to legitimize new survival strategies how they weaved new songs and reinterpreted old ones to fight for survival how social institutions such as churches reinterpreted popular gospel and how authors playwrights and dramatists crafted works that acknowledge the unprecedented difficulties and yet find humour laughter and love in unusual places This work will appeal to both scholars who will appreciate the depth of the analysis and the general reader      *Manpower Monitor* Zimbabwe.
