State Capacity, Economic Control, and Authoritarian Elections Merete Seeberg, 2018-03-09 Although the phenomenon of authoritarian elections has been a focal point for the literature on authoritarian institutions for more than a decade our understanding of the effect of authoritarian elections is still limited Combining evidence from cross national studies with studies on selected cases relying on recent field work this book suggests a solution to the paradox of authoritarian elections Rather than focusing on authoritarian elections as a uniform phenomenon it focuses on the differing conditions under which authoritarian elections occur It demonstrates that the capacities available to authoritarian rulers shape the effect of elections and high levels of state capacity and control over the economy increase the probability that authoritarian multi party elections will stabilize the regime Where these capacities are limited the regime is more likely to succumb in the face of elections The findings imply that although multi party competition and state strength may be important prerequisites for democracy they can under some circumstances obstruct democratization by preventing the demise of dictatorships This text will be of key interest to scholars students and practitioners of democratization and to those who study autocracy and electoral authoritarianism as well as comparative politics more broadly

Infrastructures for Peace in Sub-Saharan Africa Mediel Hove, Geoff Harris, 2019-06-14 Cultures of violence are characteristic of many countries in sub Saharan Africa and attempts to move towards cultures of peace have often proved difficult and ineffectual And yet the wide variations in levels of violence within and between countries show that it is not inevitable rather it is the result of choices made at individual community and societal levels This book examines the potential of peace infrastructures as vehicles to strengthen and spread progress towards cultures of peace Peace infrastructures vary hugely in sophistication and level The examples examined in this book range from tiny structures

which help resolve conflicts between individuals and within community organisations peace committees which serve local communities peace education and peace club programmes in schools mediation mechanisms to prevent election violence and to ministries of peace to coordinate government and non government efforts in peacemaking and peacebuilding The overall finding is that the development of peace infrastructures at all levels has great potential to build cultures of peace 1 It is the only book available which documents the experience and potential of nonviolence in post independence sub Saharan Africa 2 It makes a persuasive case for the development of various peace infrastructures in order to make peace sustainable 3 It explains how strategic planning can be utilised both to bring about change and to institutionalise it *Urban Food Systems Governance and Poverty in African Cities* Jane Battersby, Vanessa Watson, 2018-08-22 As Africa urbanises and the focus of poverty shifts to urban centres there is an imperative to address poverty in African cities This is particularly the case in smaller cities which are often the most rapidly urbanising but the least able to cope with this growth This book argues that an examination of the food system and food security provides a valuable lens to interrogate urban poverty Chapters examine the linkages between poverty urban food systems and local governance with a focus on case studies from three smaller or secondary cities in Africa Kisumu Kenya Kitwe Zambia and Epworth Zimbabwe The book makes a wider contribution to debates on urban studies and urban governance in Africa through analysis of the causes and consequences of the paucity of urban scale data for decision makers and by presenting potential methodological innovations to address this paucity As the global development agenda is increasingly focusing on urban issues most notably the urban goal of the new Sustainable Development Goals and the New Urban Agenda the work is timely The Open Access version of this book available at <http://www.tandfebooks.com/doi/view/10.4324/9781315191195> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *The Return of Food* Tawodzera, Godfrey, Crush, Jonathan, 2016-06-14 The nadir of Zimbabwe's political and economic crisis in 2008 coincided with the implementation of a baseline household food security survey in Harare by AFSUN This survey found that households in low income urban areas in Zimbabwe's capital were far worse off in terms of all the food insecurity and poverty indicators than households in the other 10 Southern African cities surveyed by AFSUN The central question addressed in this report is whether food security in Zimbabwe's urban centres has improved AFSUN conducted a follow up survey in 2012 that allows for direct longitudinal comparisons of continuity and change The status of household food security in low income neighbourhoods in Harare was improved in 2012 relative to 2008 and yet persistently high rates of severe food insecurity demonstrate that the daily need to access adequate food continued to be a major challenge The key lesson for policymakers is that even in the context of overall economic improvement food insecurity remains endemic among the poorest segments of the urban population Households are already accustomed to drawing on resources outside of the formal economy and improvements in employment income have not reversed that trend These alternative livelihood strategies should therefore be considered as a normal part of urban life and

supported with state resources that can improve access to food for the most marginalized groups

Regional Intervention Politics in Africa Stefanie Wodrig, 2017-02-24 This book analyses regional interventions in African conflict spaces by engaging with political discourse theory Interventions are a performance of agency but what happens if interventions are performed by forces that scholars have hardly ever considered as relevant agents in this regard Based on a study of regional politics towards the crises in Burundi and Zimbabwe the book analyses how these interventions shaped and changed the emerging regional interveners The book engages political discourse theory proposing an understanding of intervention as a field in which multiple and heterogeneous interpretations of the violence the crisis and the future post conflict order meet It is not hard to imagine that this encounter is not harmonious per se but full of frictions By making use of political discourse theory as a grammar for studying the complexity of an intervention the focus is directed to the emerging subjectivities of regional interveners This enables a view of regional interventions that neither reduces their subjectivity to universalist categories associated with liberal peace nor overenthusiastically embraces them as the solution to all problems This book will be of interest to students of international intervention discourse theory African politics war and conflict studies security studies and IR

State-Business Relations and Economic Transformation in South Africa and Zimbabwe Sinan Baran, 2023-06-12 In State Business Relations and Economic Transformation in South Africa and Zimbabwe Unfinished Transformation Sinan Baran examines state business relations SBRs in semi peripheral South Africa and peripheral Zimbabwe after each country's transition to majority rule to address why SBRs are likely to either consolidate or fracture in post transition communities In both countries the majority governments faced unresolved post transition divisions relating to race inequality and underdevelopment Baran analyzes the liberalisation and indigenisation policy choices intended to address these areas that are impacting the mining industries in South Africa and Zimbabwe as case studies Using comparative analysis and a Modern World Systems lens he argues that semi peripheral countries are less susceptible to pressures from domestic and external powers than peripheral countries during periods of economic transformation He further argues that China's significant political and economic presence in a peripheral country like Zimbabwe has more effect on SBRs than in a semi peripheral country like South Africa

Extractive Industry Indigenisation in Zimbabwe Kennedy Manduna, 2025-09-25 This book explains how and why Zimbabwe's extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe's extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe's government following the

controversial Fast Track Land Reform Programme in 2000 2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development

Transitional Justice and Socio-Economic Rights in Zimbabwe Prosper Maguchu, 2019-07-26 This book addresses the issue of corruption as a socio economic rights concern at a national level Zimbabwe s widespread corruption inhibited its development in all aspects It weakened institutions especially those called upon to arbitrate political and economic contests leading to potential human rights violations However Zimbabwe saw a change of government in November 2017 Due to this there seemed to be an opening to work towards reform in relation to the anti corruption architecture Specifically the new era provides an opportunity to review how accountability mechanisms including but not limited to amnesties truth commissions institutional reforms and prosecutions can address corruption as a socio economic rights violation As the new government still tries to address competing priorities many moving parts and various matrixes this volume in the International Criminal Justice Series provides a timely frame for revisiting the debate and developing the strategic thinking regarding transitional justice options in Zimbabwe It will be of great interest to practitioners policy makers scholars and students in the fields of anti corruption socio economic and human rights and transitional justice Prosper Maguchu is Visiting Assistant Professor at the Centre for the Politics of Transnational Law of the Vrije Universiteit Amsterdam The Netherlands

Political Economy of Post-apartheid South Africa Gumede, Vusi, 2017-05-05 The book made up of three parts covers a wide spectrum of political economy issues on post apartheid South Africa Although the text is mainly descriptive to explain various areas of the political economy of post apartheid South Africa the first and the last parts provide illuminating insights on the kind of society that is emerging during the twenty one years of democracy in the country The book discusses important aspects of the political history of apartheid South Africa and the evolution of post apartheid society including an important recap of the history of southern Africa before colonialism The text is a comprehensive description of numerous political economy phenomena since South Africa gained its political independence and covers some important themes that have not been discussed in detail in other publications on post apartheid South Africa The book also updates earlier work of the author on policy and law making land and agriculture education and training as well as on poverty and inequality in post apartheid South Africa thereby providing a wide ranging

overview of the socio economic development approaches followed by the successive post apartheid administrations Interestingly three chapters focus on various aspects of the post apartheid South African economy economic policies economic empowerment and industrial development Through the lens of the notion of democratic developmental state and taking apartheid colonialism as a point of departure the book suggests that so far post apartheid South Africa has mixed socio economic progress The author s extensive experience in the South African government ensures that the book has policy relevance while it is also theoretically sound The text is useful for anyone who wants to understand the totality of the policies and legislation as well as the political economy interventions pursued since 1994 by the South African Government

Development in Difficult Sociopolitical Contexts A. Ware, 2016-04-30 This edited volume explores development in the so called fragile failed and pariah states It examines the literature on both fragile states and their development and offers eleven case studies on countries ranking in the very high alert and very high warning categories in the Fund for Peace Failed States Index

Christian Theological Education and the Response to the Crisis in Zimbabwe Bekithemba Dube, Gift Masengwe, 2025-10-02 The book offers an incisive examination of the governing philosophy of the Zimbabwe African National Union Patriotic Front ZANU PF referred to as Zanupfism characterizing it as marked by callousness and malevolence towards dissenting voices from civil society and opposition factions This pernicious application of power extends beyond mere verbal aggression to encompass militaristic actions engendering a profound generational crisis within Zimbabwe The contributors explore the compelling juxtaposition between President Emmerson Mnangagwa and the biblical Nebuchadnezzar II a ruler notorious for his autocratic reign and expansive ambitions Further critically scrutinizing the complicity of neo Pentecostal prophets in the book reveals how these religious figures promote an esoteric understanding of the divine diverging from a theology rooted in justice thereby enabling the oppressive regime s practices This critique underscores the imperative for prophets to recalibrate their theological perspectives urging them to move beyond magical interpretations of faith toward an authentic engagement with a personal God who champions justice The book further encompasses the complex interplay of political and religious narratives examining how church leaders either bolster or undermine Mnangagwa s political ideology highlighting the tendency among certain religious factions to deify political authority ultimately exacerbating societal inequities In advocating for a transformative theological discourse in Zimbabwe the book asserts that religious narratives must serve as instruments for fostering democracy social justice and equity rather than sustaining a status quo that entrenches authoritarian governance The necessity for unified principled resistance grounded in the collective agency of the populace emerges as a salient theme in the quest for meaningful political and social reform

Election Violence in Zimbabwe Vimbai Chaumba Kwashirai, 2023-03-02 The ramifications of election violence in Zimbabwe are huge and ongoing and the loss of lives in the quest for democratic rights might be regarded as the foremost tragedy of post colonial Zimbabwe In this book Vimbai Chaumba Kwashirai examines the prevalence of electoral violence in

Zimbabwe from the early 1980s to the present day With a range of rich examples Kwashirai offers a nuanced analysis of the overt and covert forms of violence that have pervaded the country's general elections While remaining attentive to the specifics of the Zimbabwean political landscape Kwashirai addresses broader debates in African politics and shows how insidious violence ethnic tensions and the weakness of opposition parties serve to undermine democracy across Africa Adopting an interdisciplinary approach he explores the various ways in which violence can be understood and crucially how it might be prevented
