**Politics and Pan-Africanism** Dawn Nagar, 2019-12-12 Offering an examination of the diplomatic and economic regional power structures in Africa and their relationships with each other Dawn Nagar discusses the potential and future of pan Africanism. The three primary regional economic communities RECs that are recognised by the African Union as the key building blocks of a united Africa are examined these are the Common Market for Eastern and Southern Africa COMESA the East African Community EAC and the Southern African Development Community SADC. These RECS include Africa's major economies Egypt South Africa and Kenya but are also home to Africa's most conflict prone and volatile states the Democratic Republic of the Congo DRC Burundi South Sudan Somalia and Lesotho. Providing a detailed overview of the current relationship between these power blocs this book provides insight into the current state of diplomatic and economic relations within Africa and shows how far there is to go for a future of Pan Africanism.

**Remote Sensing of Night-time Light** Christopher Elvidge, Xi Li, Yuyu Zhou, Changyong Cao, Timothy A. Warner, 2021-08-09 Satellite images acquired at night provide a visually arresting perspective of the Earth and the human activities that light up the otherwise mostly dark Earth. These night time light satellite images can be compiled into a geospatial time series that represent an invaluable source of information for both the natural and social sciences. Night time light remote sensing has been shown to be particularly useful for a range of natural science and social science applications including studies relating to urban development demography sociology fishing activity light pollution and the consequences of civil war. Key sensors for these time series include the Defense Meteorological Satellite Program's Operational Linescan System DMSP OLS and the Suomi National Polar orbiting Partnership Satellite's Visible Infrared Imaging Radiometer Suite Day Night Band Suomi NPP VIIRS DNB. An increasing number of alternative sources are also available including high spatial resolution and multispectral sensors. This book captures key methodological

issues associated with pre processing night time light data documents state of the art analysis methods and explores a wide range of applications Major sections focus on NPP VIIRS DNB processing inter calibration between NPP VIIRS and DMPS OLS applications associated with socio economic activities applications in monitoring urbanization and fishing activity monitoring The chapters in this book were originally published as a special issue of the International Journal of Remote Sensing Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International
