Zulu Home Language Paper 1 Last Years Paper:

Learning Zulu Mark Sanders, 2019-06-04 Why are you learning Zulu When Mark Sanders began studying the language he was often asked this question In Learning Zulu Sanders places his own endeavors within a wider context to uncover how in the past 150 years of South African history Zulu became a battleground for issues of property possession and deprivation Sanders combines elements of analysis and memoir to explore a complex cultural history Perceiving that colonial learners of Zulu saw themselves as repairing harm done to Africans by Europeans Sanders reveals deeper motives at work in the development of Zulu language learning from the emergence of the pidgin Fanagalo among missionaries and traders in the nineteenth century to widespread efforts in the twentieth and twenty first centuries to teach a correct form of Zulu Sanders looks at the white appropriation of Zulu language music and dance in South African culture and at the association of Zulu with a martial masculinity In exploring how Zulu has come to represent what is most properly and powerfully African Sanders examines differences in English and Zulu language press coverage of an important trial as well as the role of linguistic purism in xenophobic violence in South Africa Through one person s efforts to learn the Zulu language Learning Zulu explores how a language s history and politics influence all individuals in a multilingual society

Between Worlds Linda Chisholm, 2017-11-30 How the story of how missionary schools adopted the Bantu education reforms gives insight into the ongoing legacy of the apartheid in the South African educational system The transition from apartheid to the post apartheid era has highlighted questions about the past and the persistence of its influence in present day South Africa This is particularly so in education where the past continues to play a decisive role in relation to inequality Between Worlds German Missionaries and the Transition from Mission to Bantu Education in South Africa scrutinises the experience of a hitherto unexplored German mission society probing the complexities and paradoxes of social change in education It raises challenging questions about the nature of mission education legacies Linda Chisholm shows that the transition from mission to Bantu Education was far from seamless Instead past and present interpenetrated one another with resistance and compliance cohabiting in a complex new social order At the same time as missionaries complied with the new Bantu Education dictates they sought to secure a role for themselves in the face of demands of local communities for secular state controlled education When the latter was implemented in a perverted form from the mid 1950s one of its tools was textbooks in local languages developed by mission societies as part of a transnational project with African participation Introduced under the guise of expunging European control Bantu Education merely served to reinforce such control The response of local communities was an attempt to domesticate and master the foreign body of the mission so as to create access to a larger world This book focuses on the ensuing struggle fought on many fronts including medium of instruction and textbook content with concomitant sub texts relating to gender roles and sexuality South Africa s educational history is to this day informed by networks of people and ideas crossing geographic and racial boundaries The colonial legacy has inevitably involved cultural mixing and hybridisation with paradoxically parallel pleas for purity Chisholm explores how these ideas found expression in colliding and coalescing worlds one African the other European caught between mission and apartheid education
