Most Popular Compact Cars Wikipedia contributors, Vauxhall Ian Coomber, 2017-11-07. The untold story of Britain's oldest car maker. Many previously unpublished images from the vaults of Vauxhall. A view from the inside that has been untold until now. Of interest to the motorcar historian and modellers. Vauxhall has been making cars in Britain for longer than anyone else. The first Vauxhall car left a cramped Thames side works in 1903. Moving to Luton in 1905, Vauxhall became famous as a maker of sporting and luxury cars. Bought by the American giant General Motors, the company entered the era of mass production and with the addition of Bedford trucks and vans became one of the top five UK producers. After the Second World War, Vauxhall became the household name it is today with models such as Viva, Astra, Cresta, Victor, Nova, Cavalier and Vivaro. The journey from the Thames to today's plants at Ellesmere Port and Luton is full of twists, turns, dramas and triumphs and continues with the announcement of the sale of General Motors European operations to the PSA Groupe. The author worked at Vauxhall for 38 years, from apprentice to boardroom. He has told the Vauxhall story with the benefit of years of experience and a lifelong passion for the marque. Personal Brand Creation in the Digital Age Mateusz Grzesiak, 2018-03-20.

Presenting a scientific exploration of personal branding and digital communication, this ground-breaking book aims to fill a gap between theory and practice. Describing how social media can increase brand profiles online, it explains basic terms before investigating the cultural context for online personal branding. With a special focus on YouTube, the author provides a comparative analysis of two countries, USA and Poland, to open further avenues for research into this growing area. An essential read for management and marketing scholars, this study outlines and explores the evolution of media in the digital age from a business perspective and offers a thought-provoking analysis for those interested in social media. **Automotive**

Global Value Chain Wilson Kia Onn Wong, 2017-08-09. Today, some suppliers have grown increasingly powerful and in certain cases earn revenues that rival or even exceed that of their automaker clients. In the pre-globalisation period,

automakers wielded absolute power over their significantly smaller suppliers This book reveals the upending of this relationship with the gradual shift in the balance of power from automakers to their suppliers in this era of globalisation The book examines how suppliers in the global tyres seats constant velocity joints hereafter CVJs braking systems and automotive semiconductor industries have evolved into powerful oligopolies through a mix of acquisition and organic growth strategies It also highlights how joint ventures could be strategically deployed as springboards to acquisition as they enable firms to familiarise themselves with their partners markets and operations Moreover the book analyses the disruption stirred by the entry of well resourced technology titans into this industry and their inevitable clash with the traditional incumbents This book is an invaluable reference for anyone interested in learning more about the automakers and now their suppliers
