Levine,2017-09-30 *Long Strange Journey* presents the first critical analysis of visual objects and discourses that animate Zen art modernism and its legacies with particular emphasis on the postwar Zen boom Since the late nineteenth century Zen and

Zen art have emerged as globally familiar terms associated with a spectrum of practices beliefs works of visual art aesthetic concepts commercial products and modes of self fashioning They have also been at the center of fiery public disputes that have erupted along national denominational racial ethnic class and intellectual lines Neither stable nor strictly a matter of euphoric religious or intercultural exchange Zen and Zen art are best approached as productive predicaments in the study of religion spirituality art and consumer culture especially within the frame of Buddhist modernism Long Strange Journey's modern contemporary emphasis sets it off from most writing on Zen art which focuses on masterworks by premodern Chinese and Japanese artists gushes over timeless visual qualities as indicative of metaphysical states or promotes with ahistorical trend spotting flair Zen art's design appeal and therapeutic values In contrast the present work plots a methodological through line distinguished by discourse analysis moving from the first contacts between Europe and Japanese Zen in the sixteenth century to late nineteenth early twentieth century transnational exchanges driven by Japanese Buddhists and intellectuals and the formation of a Zen art canon to postwar Zen transformations of practice and avant garde expressions to popular embodiments of our Zen zeitgeist such as Zen cartoons The book presents an alternative history of modern contemporary Zen and Zen art that emphasizes their unruly and polythetic prototypical natures taking into consideration serious religious practice and spiritual and creative discovery as well as conflicts over Zen's value amid the convolutions of global modernity squabbles over authenticity resistance against the notion of Zen influence and competing claims to speak for Zen art made by monastics lay advocates artists and others

**Harmony and Strife** Shuxian Liu, Robert Elliott Allinson, 1988 This volume is intended for professional philosophers and laymen with an interest in East West studies and comparative philosophy and religion The central focus is the concept of comparing perspectives from both the Eastern and the Western philosophical traditions on harmony and strife The unique and happy result is an East West anthology which is directed at analyzing a single philosophical problem which is of importance to both traditions Unlike many anthologies which tend to be collections of isolated and unrelated essays the Editors focus on a single theme has resulted in a unified volume which maintains a high continuity of interest throughout The Editors have carefully culled and organized essays from a select group of philosophers from the United States West Germany Japan Australia Beijing Taipei and Hong Kong Harmony and strife are analyzed as systematic concepts in Western philosophy as parts of classical Chinese thought as central concepts in Buddhism as metaphysical concepts as dialectical concepts and even as null concepts The Editors have taken great care so that a continuity and a coherence of presentation is achieved despite the striking variety of perspectives from which harmony and strife are analyzed It is both unusual and important to have such a systematic and thorough investigation of a topic of

paramount social and philosophical significance by some of the leading minds of the day Besides the essays included are eminently readable The volume is likely to become a standard work in this area for some years to come *Existence and Enlightenment in the Laṅkāvatāra-Sūtra* Florin Giripescu Sutton,1991-01-01 This book offers a systematic analysis of one of the most important concepts characterizing the Yog c ra School of Buddhism the last creative stage of Indian Buddhism as outlined and explained in one of its most authoritative and influential texts La k vat ra S tra Compiled in the second half of the fourth century A D this sutra not only represents a comprehensive synthesis of both early and late religio philosophical ideas crucial to the understanding of Buddhism in India but it also provides an insight into the very early roots of the Japanese Zen Buddhism in the heart of the South Asian esotericism The first part of the book outlines the three fold nature of Being as conceptualized in Buddhist metaphysics The author uses an interpretive framework borrowed from the existentialist philosophy of Heidegger in order to separate the transcendental Essence of Being from its Temporal manifestation as Self and from its Spatial or Cosmic dimension The second part clarifies the Buddhist approach to knowledge in its religious transcendental sense and it shows that the Buddhists were actually first in making use of dialectical reasoning for the purpose of transcending the contradictory dualities imbedded in the common ways of perceiving thinking and arguing about reality **Impermanence Is Buddha-Nature** Joan Stambaugh,1990-06-01 D gen Zenji was a Japanese Zen Buddhist teacher born in Ky to and the founder of the S t school of Zen in Japan after travelling to China and training under the Chinese Caodong lineage there D gen is known for his extensive writing including the Treasury of the Eye of the True Dharma or Sh b genz a collection of ninety five fascicles concerning Buddhist practice and enlightenment The primary concept underlying D gen s Zen practice is oneness of practice enlightenment In fact this concept is considered so fundamental to D gen s variety of Zen and consequently to the S t school as a whole that it formed the basis for the work Shush gi which was compiled in 1890 by Takiya Takush of Eihei ji and Azegami Baisen of S ji ji as an introductory and prescriptive abstract of D gen s massive work the Sh b genz Treasury of the Eye of the True Dharma Dogen is a profoundly original and difficult 13th century Buddhist thinker whose works have begun attracting increasing attention in the West Admittedly difficult for even the most advanced and sophisticated scholar of Eastern thought he is bound initially to present an almost insurmountable barrier to the Western mind Yet the task of penetrating that barrier must be undertaken and in fact is being carried out by many gifted scholars toiling in the Dogen vineyard **Sarva-darsana-sangraha** John C. Plott,1966 *Zen Comes West* Christmas Humphreys,2013-11-05 Zen Buddhism was founded in China in the 6th century and its direct path to Enlightenment first came west in 1927 with D T Suzuki s first Essays This work guides the reader towards Zen teaching in practice and theory and to provide material for further explorations into its meditative experience SQ Danah Zohar,Ian Marshall,I.
