*Killing the Buddha* Jennifer Cowe, 2020-09-10 Incorporating the novels pamphlets and letters of Henry Miller *Killing the Buddha* argues for Miller's written work to be considered as a whole in relation to the theme of Zen Buddhism specifically the concept of Satori awakening By reading Miller's literary output and letters as a spiritual journey to awakening it is possible to chart his development as a writer and offer insight into his repetitive use of biographical material Reflecting upon the influence of Otto Rank and Henri Bergson on Miller's conceptualization of the role of the writer and then by examining his complex rejection of Surrealism it is possible to show Miller's burgeoning Zen Buddhism as a life long quest for acceptance and authenticity explicitly explored within his work With close readings of the Obelisk Trilogy of the 1930s *Tropic of Cancer* *Tropic of Capricorn* and *Black Spring* and *The Rosy Crucifixion* Trilogy 1949 1960 Miller's complex journey to Satori is shown as a continuous progression from his early notorious novels through to the essays and pamphlets of his later career

*Fighting without Fighting* Luke White, 2022-07-11 From classic Bruce Lee films to the comedies of Jackie Chan a vibrant look at the enduring fascination with the kung fu cinema of Hong Kong In the spring and summer of 1973 a wave of martial arts movies from Hong Kong epitomized by Bruce Lee's *Enter the Dragon* smashed box office records for foreign language films in America and ignited a kung fu craze that swept the world *Fighting without Fighting* explores this dramatic phenomenon and it argues that more than just a cinematic fad the West's sudden fascination with and moral panic about the Asian fighting arts left lasting legacies still present today The book traces the background of the craze in the longer development of Hong Kong's martial arts cinema It discusses the key films in detail as well as their popular reception and the debates they ignited where kung fu challenged Western identities and raised anxieties about violence both on and off screen And it examines the proliferation of ideas and images from these films in fields as diverse as popular music superhero franchises children's cartoons and contemporary art Illuminating and accessible *Fighting without Fighting* draws a vivid bridge between East and West

**Ineffability and Philosophy** André Kukla, 2004-08-02 Presenting a

fascinating analysis of the idea of what can't be said this book ascertains whether the notion of there being a truth or a state of affairs or knowledge that can't be expressed linguistically is a coherent notion The author distinguishes different senses in which it might be said that something can't be said The first part looks at the question of whether ineffability is a coherent idea Part two evaluates two families of arguments regarding whether ineffable states of affairs actually exist the argument from mysticism and the argument from epistemic boundedness Part three looks more closely at the relation between mystic and non mystic stances In the fourth and final part the author distinguishes five qualitatively different types of ineffability Ineffability and Philosophy is a significant contribution to this area of research and will be essential reading for philosophers and those researching and studying the philosophy of language

**The Mind and Spirit of India** Nand Kishore Devaraja, **Sovereignty and the Sacred** Robert A. Yelle, 2018-11-26 Sovereignty and the Sacred challenges

contemporary models of polity and economy through a two step engagement with the history of religions Beginning with the recognition of the convergence in the history of European political theology between the sacred and the sovereign as creating states of exception that is moments of rupture in the normative order that by transcending this order are capable of re founding or remaking it Robert A Yelle identifies our secular capitalist system as an attempt to exclude such moments by subordinating them to the calculability of laws and markets The second step marshals evidence from history and anthropology that helps us to recognize the contribution of such states of exception to ethical life as a means of release from the legal or economic order Yelle draws on evidence from the Hebrew Bible to English deism and from the Aztecs to ancient India to develop a theory of polity that finds a place and a purpose for those aspects of religion that are often marginalized and dismissed as irrational by Enlightenment liberalism and utilitarianism Developing this close analogy between two elemental domains of society Sovereignty and the Sacred offers a new theory of religion while suggesting alternative ways of organizing our political and economic life By rethinking the transcendent foundations and liberating potential of both religion and politics Yelle points to more hopeful and ethical modes of collective life based on egalitarianism and popular sovereignty Deliberately countering the narrowness of currently dominant economic political and legal theories he demonstrates the potential of a revived history of religions to contribute to a rethinking of the foundations of our political and social order

**WALNECK'S CLASSIC CYCLE TRADER, JANUARY 2004** Causey Enterprises, LLC, *Everyday Life* Michael Sheringham, 2006-03-09 In the last twenty years the concept of the quotidien or the everyday has been prominent in contemporary French culture and in British and American cultural studies This book provides the first comprehensive analytical survey of the whole field of approaches to the everyday It offers firstly a historical perspective demonstrating the importance of mainstream and dissident Surrealism the indispensable contribution over a 20 year period 1960-80 of four major figures Henri Lefebvre Roland Barthes Michel de Certeau and Georges Perec and the recent proliferation of works that investigate everyday experience Secondly it establishes the framework of philosophical ideas on which discourses on the

everyday depend but which they characteristically subvert Thirdly it comprises searching analyses of works in a variety of genres including fiction the essay poetry theatre film photography and the visual arts consistently stressing how explorations of the everyday tend to question and combine genres in richly creative ways By demonstrating the enduring contribution of Perec and others and exploring the Surrealist inheritance the book proposes a genealogy for the remarkable upsurge of interest in the everyday since the 1980s A second main objective is to raise questions about the dimension of experience addressed by artists and thinkers when they invoke the *quotidien* or related concepts Does the everyday refer to an objective content defined by particular activities or is it best thought of in terms of rhythm repetition festivity ordinariness the generic the obvious the given Are there events or acts that are uniquely everyday or is the *quotidien* a way of thinking about events and acts in the here and now as opposed to the longer term What techniques or genres are best suited to conveying the nature of everyday life The book explores these questions in a comparative spirit drawing new parallels between the work of numerous writers and artists including Andr Breton Raymond Queneau Walter Benjamin Michel Leiris Maurice Blanchot Michel Foucault Stanley Cavell Annie Ernaux Jacques R da and Sophie Calle *What Can't be Said* Yasuo Deguchi, Jay L. Garfield, Graham Priest, Robert H. Sharf, 2021-02-12 This multi authored monograph argues that the use of paradox and contradictions in contrast to in typical Western thought can deepen rather than disprove philosophical thought and discussion Here the authors apply this view to East Asian philosophy examining two classical Daoist texts the *Daodejing* and the *Zhuangzi* and the trajectory of Buddhism in East Asia including the San Lun Tiantai Chan and Zen traditions culminating with the Kyoto school of philosophy in the twentieth century The work ultimately concludes that contradictory positions illuminate deeper understandings of inconsistencies in reality and in the world **Students' Guide to Good Reading**
