History of Technology Volume 29 Ian Inkster, 2016-09-30 The common question from the western point of view is of the sort why did China lose its early leadership of productive technologies to Europe during the early modern period Answers to this seemingly clear enquiry vary from general cultural inwardness to the interferences of imperial governance This collection surveys such theories but alters the issue by raising the notion that Chinese technologies did not so much fail as move along a path different from that of Europe Our second collection on the Mindful Hand also shifts common ground by querying and modifying common views of the links between knowledge and technique in early modern European development Scientific or related knowledge was not brought to technique as a socio cultural gift from an educated elite to the working man Rather educated gents practitioners instrument makers craftsfolk and technicians of all kinds intermingled both socially and in terms of the recognition of technical problems as well as in the assemblage of the mental commercial and cognitive resources required to pursue innovative production projects

History of Technology Volume 4 A. Rupert Hall, Norman Smith, 2016-09-30 The annual collections in the History of Technology series look at the history of technological discovery and change exploring the relationship of technology to other aspects of life and showing how technological development is affected by the society in which it occurred

Progress in Refrigeration Science and Technology Sam Stuart, 2014-05-12 Progress in Refrigeration Science and Technology Volume I is a collection of papers from the Eleventh International Congress of Refrigeration held in

Munich in August September 1963 These papers deal with the various scientific and technical aspects designs and technology of refrigeration One paper explains technological advances in the use of very low temperature fluids namely liquid hydrogen and liquid helium as rocket fuels as bubble chambers in the study of mesons or hyperons and in experiments involving the reaction of metals in a wide range of temperature Another paper examines the requirements for improved food refrigeration and the limitations of certain methods when compared to other cold processing forms Freeze drying is also used in biology such as in freeze drying of biological solutions tissues or living organisms One paper explains the purification method for obtaining very pure hydrogen at high pressures to be used in comparative experiments on the thermodynamical properties of ortho and para hydrogen and their mixtures Another paper investigates the effect of heat exchange between capillary tube and suction line on the performance of small hermetic compressor systems This collection is suitable for engineers or technologists in the area of refrigeration as well as for scientists involved in the space industry and materials research

International Critical Tables of Numerical Data, Physics, Chemistry and Technology ,1929 Notions de système et d'ingénierie de système Alain Faisandier,2014 **Resources in Education** ,1994 Projectile Technology Heidi Knecht,2013-06-29 Artifacts linked to projectile technologies traditionally have provided the foundations for time space systematics and cultural historic frameworks in archaeological research having to do with foragers With the shift in archaeological research objectives to processual interpretations projectile technologies continue to receive marked attention but with an emphasis on the implications of variability in such areas as design function and material as they relate to the broader questions of human adaptation The reason that this particular domain of foraging technology persists as an important focus of research I think comes in three parts A projectile technology was a crucial part of most foragers strategies for survival it was functionally specific and it generally was fabricated from durable materials likely to be detected archaeologically Being fundamental to meat acquisition and the principal source of calories projectile technologies were typically afforded greater time investment formal modification and elaboration of attributes than others Moreover such technologies tend to display greater standardization because of constraints on size morphology and weight that are inherent to the delivery system The elaboration of attributes and standardization of form gives projectile technologies time and space sensitivity that is greater than most other foraging technologies And such sensitivity is immensely valuable in archaeological research

Scientific and Technical Aerospace Reports ,1992 *Technology, Industry and Trade* Eliyahu Ashtor,Benjamin Z. Kedar,2024-10-28 This is the fifth collection of articles by Eliyahu Ashtor to be published by Variorum and focuses on the fundamental question of why during the later Middle Ages technology and industry declined even collapsed in the Muslim Levant while simultaneously making enormous progress in the Christian West An indefatigable researcher in archives all over the Mediterranean Ashtor amassed quantities of data on this subject and began to propose causal links between on the one hand demographic trends types of political regime economic policies and attitudes towards innovation and on the other the

progress or decline of technology and industry Although his work was cut short by his death in 1984 the information that Ashtor has made available for instance on the sugar and the alkali industries and the questions and hypotheses he has suggested will provide a vital basis for continuing research The final article dealing more specifically with the history of commerce represents in effect a summation of the author's views on the role of the Jews in the trade of the Mediterranean La cinquieme collection d'articles d'Eliyahu Ashtor tre publie par Variorum pour les deux volumes encore disponibles voir p 00 se concentre sur la raison fondamentale pour laquelle durant le Bas Moyen Age la technologie et l'industrie dans le Levant musulman taient en declin voire meme en plein effondrement alors qu'elles faisaient simultanement des progres dans l'Ouest chretien Cherchiste infatigable des archives mediterrannees Ashtor a amasse quantite d'informations ce sujet et a commence suggerer l'existence de lien de cause entre d'une part les tendances demographiques les types de regimes politiques la politique conomique et les attitudes vis vis du changement et d'autre part le progres ou le declin de la technologie et de l'industrie Bien que son travail ait et interrompu par sa mort en 1984 *Compte Rendu de la Consultation D'Experts FAO Sur la Technologie Du Poisson en Afrique*, 1989-01-01 *History of Technology Volume 15* Graham Hollister-Short, Frank James, 2016-09-30 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays Volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology In addition to dealing with the history of technical discovery and change History of Technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred *The Changing Scene of Health Care and Technology* R.G. Kensett, 2005-07-15 This book provides an excellent opportunity to review developments in health care technology many facets of which are just as applicable to professionals in the wider field of building services as to those working in health care facilities This book reflects the adaptation of strategies in health care to economic and demographic change in both developed and developing countries *The Changing Scene of Health Care and Technology* International Federation of Hospital Engineering. Congress, R. G.
