sequence with decimal numbers, according to their position in the Chapter — eg Fig. 8.4 is the fourth drawing (illustration) in Chapter 8. Photographs carry the same number (either individually or in related groups) as the figures in each section to which they refer.

There is an alphabetical index at the back of the manual to refer to a contents list in the front. Each Chapter is also preceded by its own individual contents list.

References to the left or right of the vehicle are in the sense of a person in the driver's seat facing forward.

Unless otherwise stated, nuts and bolts are referred to having anti-rusting, and ignored by having rust-free.

Various illustrations contain notes on changes in specifications and recommendations, and these are indicated by a horizontal line to the right of the text.

The text gives you the sequence of information given in this manual, but certain manufacturers make alterations and design changes during the production run of a particular vehicle of which they do not advise us. This liability can be accepted by the vehicle or publisher for loss, damage or injury caused by any error in, or omission from, the information given.
