**The Rise of Progressive Cities East and West** Mike Douglass, Romain Garbaye, K. C. Ho, 2019-02-25 This book explores the leading role that cities can play in shaping progressive policies in collaboration with various stakeholders It examines the timing of such shifts to progressivity in cities the interactions that enable progressive actions to be developed and sustained and the challenges and constraints facing progressive cities The book approaches the themes using an array of methods to investigate how progressive city governments emerge what constitutes a progressive city in terms of governance institutions processes and outcomes and

whether progressive cities are destined to be ephemeral or if they can be sustained over time With its focus on the emerging role of local governments in shaping city futures this book is useful for students academics government official and policy makers interested in geography sociology urban planning public policy political economy social movements participatory democracy and Asian and European studies Handbook of Gentrification Studies Loretta Lees,Martin Phillips,2018-04-27 It is now over 50 years since the term gentrification was first coined by the British urbanist Ruth Glass in 1964 in which time gentrification studies has become a subject in its own right This Handbook the first ever in gentrification studies is a critical and authoritative assessment of the field Although the Handbook does not seek to rehearse the classic literature on gentrification from the 1970s to the 1990s in detail it is referred to in the new assessments of the field gathered in this volume The original chapters offer an important dialogue between existing theory and new conceptualisations of gentrification for new times and new places in many cases offering novel empirical evidence **The Routledge Handbook of International Resilience** David Chandler,Jon Coaffee,2016-11-10 Resilience is increasingly discussed as a key concept across many fields of international policymaking from sustainable development and climate change insecurity conflict and terrorism to urban and rural planning international aid provision and the prevention of and responses to natural and man made disasters Edited by leading academic authorities from a number of disciplines this is the first handbook to deal with resilience as a new conceptual approach to understanding and addressing a range of interdependent global challenges The Handbook is divided into nine sections Introduction contested paradigms of resilience the challenges of resilience governing uncertainty resilience and neoliberalism environmental concerns and climate change adaptation urban planning disaster risk reduction and response international security and insecurity the policy and practices of international development Highlighting how resilience thinking is increasingly transforming international policy making and government and institutional practices this book will be an indispensable source of information for students academics and the wider public interested in resilience international relations and international security Architectural Regeneration Aylin Orbasli,Marcel Vellinga,2020-08-03 A comprehensive and detailed overview of the active regeneration rehabilitation and revitalisation of architectural heritage The combined processes of globalisation urbanisation environmental change population growth and rapid technological development have resulted in an increasingly complex dynamic and interrelated world in which concerns about the meaning of cultural heritage and identity continue to grow As the need for culturally and environmentally sustainable design grows the challenge for professionals involved in the management of inherited built environments is to respond to this ever changing context in a critical dynamic and creative way Our knowledge and understanding of the principles approaches and methods to sustainably adapt existing buildings and places is rapidly expanding Architectural Regeneration contributes to this knowledge base through a holistic approach that links policy with practice and establishes a theoretical framework within which to understand architectural regeneration It includes extensive case studies of the

regeneration rehabilitation and revitalisation of architectural heritage from around the world Different scales and contexts of architectural regeneration are discussed including urban suburban rural and temporary At a time when regeneration policy has shifted to the recognition that heritage matters and that the historic environment and creative industries are a vital driver of regeneration an increasing workload of architectural practices concerns the refurbishment adaptive re use or extension of existing buildings As a result this book is ideal for undergraduate and graduate students of architecture historic conservation urban and environmental design sustainability and urban regeneration as well as for practitioners and decision makers working in those fields

*Inclusionary Housing and Urban Inequality in London and New York City* Yuca Meubrink, 2024-09-10 Municipalities around the world have increasingly used inclusionary housing programs to address their housing shortages This book problematizes those programs in London and New York City by offering an empirical research based perspective on the socio spatial dimensions of inclusionary housing approaches in both cities The aim of those programs is to produce affordable housing and foster greater socio economic inclusion by mandating or incentivizing private developers to include affordable housing units within their market rate residential developments The starting point of this book is the so called poor door practice in London and New York City which results in mixed income developments with separate entrances for affordable housing and wealthier market rate residents Focusing on this poor door practice allowed for a critical look at the housing program behind it By exploring the relationship between inclusionary housing new build gentrification and austerity urbanism this book highlights the complexity of the planning process and the ambivalences and interdependencies of the actors involved Thereby it provides evidence that the provision of affordable housing or social mixing through this program has only limited success and above all that it promotes in a sense through the back door the very gentrification and displacement mechanisms it is supposed to counteract This book will be of interest to researchers and students of housing studies planning and urban sociology as well as planners and policymakers who are interested in the consequences of their own housing programs

*Deeper City* Joe Ravetz, 2020-05-19 *Deeper City* is the first major application of new thinking on deeper complexity applied to grand challenges such as runaway urbanization climate change and rising inequality The author provides a new framework for the collective intelligence the capacity for learning and synergy in many layered cities technologies economies ecologies and political systems The key is in synergistic mapping and design which can move beyond smart winner takes all competition towards wiser human systems of cooperation where winners are all Forty distinct pathways from smart to wise are mapped in *Deeper City* and presented for strategic action ranging from local neighbourhoods to global finance As an atlas of the future and resource library of pathway mappings this book expands on the author's previous work *City Region 2020* From a decade of development and testing *Deeper City* combines visual thinking with a narrative style and practical guidance This book will be indispensable for those seeking a sustainable future students politicians planners systems designers activists engineers and researchers A new postscript looks

at how these methods can work with respect to the 2020 pandemic and asks How can we turn crisis towards transformation

*The Short Guide to Urban Policy* Claire Edwards, Rob Imrie, 2015-06-19 With an ever increasing proportion of the world's population inhabiting urban environments the management of cities remains a perennial challenge for governments and policymakers This concise but wide ranging text makes sense of the multiple ways in which urban issues and problems have been defined and addressed in different places at different times From initiatives that focus on social tensions within the urban realm to those which seek to develop cities as economic entities the book provides an accessible discussion and critique of some of the key approaches that have characterised urban policy across the globe Providing case studies of urban policy actions explanations of key concepts and succinct chapter summaries this unique introductory text is invaluable reading for both students and practitioners who are new to the area of urban policy and who wish to understand and assess policy responses to the challenges posed by urban living and lifestyles

*The Routledge Companion to Urban Imaginaries* Christoph Lindner, Miriam Meissner, 2018-09-28 The Routledge Companion to Urban Imaginaries delves into examples of urban imaginaries across multiple media and geographies from new visions of smart eco and resilient cities to urban dystopias in popular culture from architectural renderings of starchitecture and luxury living to performative activism for new spatial justice and from speculative experiments in urban planning fiction and photography to augmented urban realities in crowd mapping and mobile apps The volume brings various global perspectives together and into close dialogue to offer a broad interdisciplinary and critical overview of the current state of research on urban imaginaries Questioning the politics of urban imagination the companion gives particular attention to the role that urban imaginaries play in shaping the future of urban societies communities and built environments Throughout the companion issues of power resistance and uneven geographical development remain central Adopting a transnational perspective the volume challenges research on urban imaginaries from the perspective of globalization and postcolonial studies inviting critical reconsiderations of urbanism in its diverse current forms and definitions In the process the companion explores issues of Western centrism in urban research and design and accommodates current attempts to radically rethink urban form and experience This is an essential resource for scholars and graduate researchers in the fields of urban planning and architecture art media and cultural studies film visual and literary studies sociology and political science geography and anthropology

***Handbook of Urban Geography*** Tim Schwanen, Ronald van Kempen, 2019 This collection brings together the latest thinking in urban geography It provides a comprehensive overview of topical issues and draws on experiences from across the world Chapters have been prepared by leading researchers in the field and cover themes as diverse as urban economies inequalities and diversity conflicts and politics ecology and sustainability and information technologies The Handbook offers a valuable resource for students and researchers interested in cities and the urban in geography and across the wider social sciences

*Frankenstein Urbanism* Federico Cugurullo, 2021-05-16 This book tells the story of visionary urban experiments shedding light on the theories that

preceded their development and on the monsters that followed and might be the end of our cities The narrative is threefold and delves first into the eco city second the smart city and third the autonomous city intended as a place where existing smart technologies are evolving into artificial intelligences that are taking the management of the city out of the hands of humans The book empirically explores Masdar City in Abu Dhabi and Hong Kong to provide a critical analysis of eco and smart city experiments and their sustainability and it draws on numerous real life examples to illustrate the rise of urban artificial intelligences across different geographical spaces and scales Theoretically the book traverses philosophy urban studies and planning theory to explain the passage from eco and smart cities to the autonomous city and to reflect on the meaning and purpose of cities in a time when human and non biological intelligences are irreversibly colliding in the built environment Iconoclastic and prophetic Frankenstein Urbanism is both an examination of the evolution of urban experimentation through the lens of Mary Shelley's Frankenstein and a warning about an urbanism whose product resembles Frankenstein's monster a fragmented entity which escapes human control and human understanding Academics students and practitioners will find in this book the knowledge that is necessary to comprehend and engage with the many urban experiments that are now alive ready to leave the laboratory and enter our cities

**The Routledge Handbook of Architecture, Urban Space and Politics, Volume II** Nikolina Bobic, Farzaneh Haghighi, 2024-11-22 Architecture and the urban are connected to challenges around violence security race and ideology spectacle and data The first volume of this handbook extensively explored these oppressive roles This second volume illustrates that escaping the corporatized and bureaucratized orders of power techno managerial and consumer oriented capitalist economic models is more urgent and necessary than ever before Herein lies the political role of architecture and urban space including the ways through which they can be transformed and alternative political realities constituted The volume explores the methods and spatial practices required to activate the political dimension and the possibility for alternative practices to operate in the existing oppressive systems while not being swallowed by these structures Fostering new political consciousness is explored in terms of the following themes Events and Dissidence Biopolitics Ethics and Desire Climate and Ecology Urban Commons and Social Participation Marginalities and Postcolonialism Volume II embraces engagement across disciplines and offers a wide range of projects and critical analyses across the so called Global North and South This multidisciplinary collection of 36 chapters provides the reader with an extensive resource of case studies and ways of thinking for architecture and urban space to become more emancipatory Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license

**Queer Premises** Ben Campkin, 2023-06-01 Queer premises provide vital social and cultural infrastructure a queer infrastructure connecting different generations and locations facilitating the movement of resources across and beyond the city Queer Premises offers evidence for how London's diverse LGBTQ populations have embedded themselves into urban space systems and resources It sets out to understand

how across their different material dimensions bars caf s nightclubs pubs community centres and hybrids of these typologies have been imagined created and sustained From the 1980s to the present Campkin asks how where and why these venues have been established how they operate and the purposes they serve what challenges they face and why they close down

Everyday Lives in the Global City Jörg Dürrschmidt,2013-04-15 Rejecting simplifying notions of globalisation as a macro economic force this book provides a grounded picture of the various ways in which people s biographies are tied up with the global cultural economy The main argument of the book is that the globalisation of lives is experienced by people as the extension of their milieux both spatially and symbolically *The Future of the City* Kheir Al-Kodmany,Mir M. Ali,2013

Drawing on the experience of several cities from different parts of the world this text provides a global perspective on the urbanization phenomenon and tall building development and examines their underlying logic design drivers contextual relationships and pitfalls **Companion to Public Space** Vikas Mehta,Danilo Palazzo,2020-05-13 The Companion to Public

Space draws together an outstanding multidisciplinary collection of specially commissioned chapters that offer the state of the art in the intellectual discourse scholarship research and principles of understanding in the construction of public space Thematically the volume crosses disciplinary boundaries and traverses territories to address the philosophical political legal planning design and management issues in the social construction of public space The Companion uniquely assembles important voices from diverse fields of philosophy political science geography anthropology sociology urban design and planning architecture art and many more under one cover It addresses the complete ecology of the topic to expose the interrelated issues challenges and opportunities of public space in the twenty first century The book is primarily intended for scholars and graduate students for whom it will provide an invaluable and up to date guide to current thinking across the range of disciplines that converge in the study of public space The Companion will also be of use to practitioners and public officials who deal with the planning design and management of public spaces **Ecotopia 2121** Alan Marshall,2016-10-04

A 2016 Green Book Festival Future Forecasts Winner A stunningly original lushly illustrated vision for a Green Utopia published on the 500th anniversary of the original Big Idea Five hundred years ago a powerful new word was unleashed upon the world when Thomas More published his book Utopia about an island paradise far away from his troubled land It was an instant hit and the literati across Europe couldn t get enough of its blend of social fantasy with a deep desire for a better world Five hundred years later Ecotopia 2121 once again harnesses the power of the utopian imagination to confront our current problems among them climate change and offer a radical alternative vision for the future of our troubled planet Depicting one hundred cities around the globe from New York to San Francisco London Tokyo Sydney Rio de Janeiro Mexico City Beijing Vienna Singapore Cape Town Abu Dhabi and Mumbai Alan Marshall imagines how each may survive and prosper A striking full color scenario painting illustrates each city The chapters tell how each community has found either a social or technological innovation to solve today s crises Fifteen American cities are covered Around the world urban planners like to

tailor scenarios for the year 2020 to take advantage of the metaphor of 20 20 vision In Ecotopia 2121 the vision may be fuzzy but its sharp insights captivating illustrations and playful storytelling will keep readers coming back again and again

*Governing Cities* Madeleine Pill, 2021-06-21 In our urban world cities are where most of us experience how our economies and societies are organised and the inequalities which result This textbook introduces ideas theories concepts and examples to help us understand the political and policy challenges of governing cities centred on the principal challenge of how to make our cities more equitable It poses critical questions about how cities are governed by whom according to what values and for whom and draws from a wide range of urban scholarship The how covers urban politics and the policy instruments which result The by whom addresses power relations within and beyond the city and the tensions between different priorities and values The for whom centres equity and the role of citizens and collective action in how we are governed In addressing these questions the book provides an overview of the core theories of urban politics and governance thinks about what happens at different scales and examines new forms of citizen activism which herald alternatives for cities It is a unique introduction to students policymakers and practitioners who want to understand and seek to improve urban politics and policy

Politics of Urban Knowledge Bert De Munck, Jens Lachmund, 2023-03-23 This book uses politics of urban knowledge as a lens to understand how professionals administrations scholars and social movements have surveyed evaluated and theorized the city identified problems and shaped and legitimized practical interventions in planning and administration Urbanization has been accompanied and partly shaped by the formation of the city as a distinct domain of knowledge This volume uses politics of urban knowledge as a lens to develop a new perspective on urban history and urban planning history Through case studies of mainly 19th and 20th century examples the book demonstrates that urban knowledge is not simply a neutral means to represent cities as pre existing entities but rather the outcome of historically contingent processes and practices of urban actors addressing urban issues and the power relations in which they are embedded It shows how urban knowledge making has reshaped the categories rationales and techniques through which urban spaces were produced governed and contested and how the knowledge concerned became performative of newly emerging urban orders The volume will be of interest to scholars and students in the field of urban history and urban studies as well as the history of technology science and knowledge and of science studies
