Episodes in Early Modern and Modern Christian-Jewish Relations Paolo L. Bernardini, 2016-09-23 The history of the Christian Jewish relations is full of curious intense and occasionally tragic episodes In the dialectical development of the Western monotheistic religions Judaism plays the role of the thesis of the origins and background for the rise of Christianity and Islam With the rise of Christianity Judaism was progressively marginalized since it was denied the same essence and validity of Christianity which grew immensely in terms of spiritual and secular power Christian scholars since the Middle Ages looked at Judaism as at the broken staff in the evolutionist line of religion to quote the insightful work of the late Frank E Manuel At the same time while re discovering Judaism Christian scholars redefined themselves and Christianity as well However while Christianity encompassed many sects and many nations the relatively weak diversity within Judaism the religion of a single nation seemed to hinder its evolution and development While the intellectual battle was fought in a scholarly way the emergence of the Christian State condemned the Jews to perpetual discrimination and occasional toleration until a lay State Nazi Germany threatened the survival of the Jewish people Neutral controversial works became powerful extermination tools when used in the political arena This volume casts light on some crucial episodes in the long dialectics within the same intellectual and religious framework touching upon themes such as the conception of time future in the age of Spinoza the early encounters of Judaism and Christianity in eighteenth century England the memory of the Shoah and the political revolution present in the system of the Jewish Commonwealth From early to late Modernity there is a history of friendship and diffidence mutual understanding and dramatic disagreements which even today largely conditions the Western intellectual world **American Literary Gazette and Publishers' Circular** ,1865 **The Gregg Shorthand Magazine** ,1916 **The Latest Early American Literature** R. C. De Prosopo, 2016-01-21 The Latest Early American Literature according to readers for the University of Delaware Press is a collection of polemics and manifestoes In it R C De Prosopo bids to follow in the footsteps of the two rare early Americanist dissenters whom Philip F Gura once distinguished as prophets without honor in the field William Spengemann and Michael Colacurcio The book contends that a supposedly retired nationalist modernist telos continues to reign in most of the latest scholarship and even more influentially in all of the current literary histories and anthologies no matter how expansive in gender ethnic racial and hemispheric inclusiveness they profess to be Old teloi in particular that old American exceptionalist one can be cunning Updating and expanding upon essays written over the past thirty years De Prosopo proposes not only negatively to critique how the latest scholarly receptions of early American literature differ insignificantly from the earlier ones but positively to propose how a transnationalist concession that as a neocolonial culture America s lags behind that of Europe might advance post modern historiography by radically repositioning the past as no longer the present s diachronic predecessor but to quote Lyotard s semiotics its synchronic differend Closer to earth De Prosopo tries at the same time to remain mindful of the pedagogical imperative that ultimately to save the texts of early American literature will require making them legible to average non
