Michael Burleigh,2017-11-02 In the decades since the end of the Second World War it has been widely assumed that the western model of liberal democracy and free trade is the way the world should be governed However events in the early years of the twenty first century first the 2003 war with Iraq and its chaotic aftermath and second the financial crash of 2008 have threatened the general acceptance that continued progress under the benign or sometimes not so benign gaze of the western powers is the only way forwards And as America turns inwards and Europe is beset by austerity politics and populist nationalism the post war consensus looks less and less secure But is this really the worst of times In a forensic examination of the world we now live in acclaimed historian Michael Burleigh sets out to answer that question Who could have imagined that China would champion globalization and lead the battle on climate change Or that post Soviet Russia might present a greater threat to the world s stability than ISIS And while we may be on the cusp of still more dramatic change perhaps the risks will in time bring not only change but a wholly positive transformation Incisive robust and always insightful **The Best of Times The Worst of Times** by Michael Burleigh is both a dazzling tour d horizon of the world as it is today and a surprisingly optimistic vision of the world as it might become **Population Crisis** United States.
