contemporary times Revisiting the ways in which modern architects and artists have endeavored to create sacred spaces and buildings for the modern world will address the underlying questions of how religious ideas especially those related to esotericism and to alternative religiosities have transformed the way sacred spaces are conceptualized today Confessions of an Illuminati, Volume III Leo Lyon Zagami, 2017-05-01 Zagami pushes the boundaries once again with this unique and personal journey into the mysteries of the secretive world of the Dark Cabal In the third book of this acclaimed series Zagami explores a variety of cryptic topics that are always verified with documentation This is not a work of fiction but a tool with which readers can comprehend topics that range from the truth about the mythical Knights Templars to the Jesuits and their Vatican espionage game Zagami uncovers the most credible candidates of the Grail mystery with proven testimony from an official saint of the Catholic Church Zagami also upholds what he calls conspiracy reality a way to fight back against the system of lies and deceit responsible for the rise of Satanism in the Vatican showing in the process the magical practices of the Illuminati *Handbook of Invocations* Bernard Augustus, 2012-04-07 **Aleister Crowley and Western Esotericism** Henrik Bogdan, Martin P. Starr, 2012-08-01 This volume is the first comprehensive examination of one of the twentieth century's most distinctive iconoclasts Aleister Crowley 1875-1947 was a study in contradictions Born into a fundamentalist Christian family and educated at Cambridge he was vilified as a traitor drug addict and debaucher yet revered as perhaps the most influential thinker in contemporary esotericism Moving beyond the influence of contemporary psychology and the modernist understanding of the occult Crowley declared himself the revelator of a new age of individualism Crowley's occult bricolage Magick was an eclectic combination of spiritual exercises drawn from Western European magical ceremonies and Indic sources for meditation and yoga This journey of self liberation culminated in harnessing sexual power as a magical discipline a sacralization of the self as practiced in Crowley's mixed masonic group the Ordo Templi Orientis The religion Crowley created Thelema legitimated his role as a charismatic revelator and herald of a new age of freedom Aleister Crowley's lasting influence can be seen in the counter culture movement of the late 1960s and early 1970s and in many forms of alternative spirituality and popular culture The essays in this volume offer crucial insight into Crowley's foundational role in the study of Western esotericism new religious movements and sexuality *Rites of the Mummy* Jeffrey D. Evans, Peter Levenda, 2021-11-15 An arcane ritual reveals a code hidden within Thelema's most holy book Over a period of several years the former head of Kenneth Grant's Typhonian Order in the United States conducted a bizarre sexual ritual with elements of Thelema Lovecraft and the Egyptian mummification ceremony to unlock a mathematical code buried in plain sight in Aleister Crowley's Book of the Law Jeffrey Evans a follower of Aleister Crowley's Thelema since his teenage years had an encounter on a bridge in Washington DC with a being he identified as his holy guardian angel This being Karla provided him with the inspiration to begin a series of rituals incorporating Egyptian and Lovecraftian elements in an effort to traverse the Tunnels of Set pathways on the dark side of the Qabalistic Tree of Life The ritual conducted with his wife Ruth Keenan employed

cross dressing and bondage as well as Cthulhian imagery and chanting and resulted in a series of revelations concerning the mathematical code hidden within the verses of Crowley's Book of the Law a circumstance that Crowley always suspected but was never able to prove not even with the help of accomplished mathematicians Evans tried in vain to demonstrate this code to other members of the Typhonian Order to no avail but a chance meeting online with Peter Levenda resulted in Levenda's taking a closer look at the data and what he discovered astounded him He agreed to help bring this discovery to the attention of the general public There has been very little new work published in the field of Thelema in the last 10 years or so at least since the death of Kenneth Grant Most publishing concerning Crowley has been biographical or reissues of Crowley's own material This work is a departure from all of that It is new material completely unexpected within the Crowley Thelema OTO environment for it offers a new approach to the mathematical nature of Thelema that so far has been based on Qabalah This work brings attention to the existence of a sacred geometry within the verses of the Book of the Law a completely unexpected discovery but nonetheless mathematically verifiable It bridges the gap between Thelema Freemasonry and

Templarism as well as Gnosticism demonstrating a continuum of esoteric thought spanning millennia The Tantric Alchemist Peter Levenda, 2015-09-01 The Tantric Alchemist is a work on alchemy as decoded by Tantra and a work on Tantra as understood by alchemists It uncovers works by Thomas Vaughan and suggests how he and his wife a 17th century Welsh couple unique in the history of western alchemy met their fate when dealing with forces they knew only too well but which were stronger than their ability to control them Using the works of Vaughan as his text Levenda applies the twilight language of Tantra to the surreal prose of the alchemist and in the process lays bare the lineaments of the arcane tradition that gave rise to the legend of Christian Rosenkreutz the reputed founder of Rosicrucianism who learned his art in the East and to the 19th and 20th century occult movements led by such luminaries as P B Randolph Theodore Reuss Helena Blavatsky and Aleister Crowley who also sought and discovered this technology in the religions and cultures of Asia Readers will find that the many disparate threads of an authentic spiritual tradition are woven together here in a startling tapestry that reveals without pretense or euphemism the psycho sexual technique that is at the root of both Tantra and alchemy that is to say of both Asian and European forms of esoteric praxis **Aleister Crowley and the Temptation of Politics** Marco

Pasi, 2014-09-11 Aleister Crowley 1875 1947 is one of the most famous and significant authors in the history of western esotericism Crowley has been long ignored by scholars of religion whilst the stories of magical and sexual practice which circulate about him continue to attract popular interest Aleister Crowley and the Temptation of Politics looks at the man behind the myth by setting him firmly within the politics of his time and the development of his ideas through his extensive and extraordinarily varied writings Crowley was a rationalist sympathetic to the values of the Enlightenment but also a romantic and a reactionary His search for an alternative way to express his religious feelings led him to elaborate his own vision of social and political change Crowley's complex politics led to his involvement with many key individuals organisations
