Bodies on the Verge Joseph A. Marchal, 2019-05-24 A collection that resets the terms of interpreting the Pauline letters Interpretation of Paul's letters often

proves troubling since people frequently cite them when debating controversial matters of gender and sexuality. Rather than focusing on the more common defensive responses to those expected proof texts that supposedly address homosexuality, the essays in this collection reflect the range, rigor, vitality, and creativity of other interpretive options influenced by queer studies. Thus, key concepts and practices for understanding these letters in terms of history, theology, empire, gender, race, and ethnicity among others are rethought through queer interventions within both ancient settings and more recent history and literature. Features New options for how to interpret and use Paul's letters, particularly in light of their use in debates about sexuality and gender. Developing approaches in queer studies that help with understanding and using Pauline letters and interpretations differently. Key reflections on the two clobber passages Rom 1:26-27 and 1 Cor 6:9 that demonstrate the relevance of a far wider range of texts throughout the Pauline corpus.

Make-Believe David Dickinson, 2020-01-30 I will tell you a story that will make you believe in God. No story can guarantee being able to do this. Yet novelists can tell stories that make us think about what we believe about God and why. Despite repeated predictions of the death of the novel, thousands of works of fiction are published and read in Britain each year. Although Western society is less religiously observant than it was many 21st century novelists persist in pursuing theological, religious, and spiritual themes. *Make Believe* seeks to explain why. With chapters offering analyses of novels from several genres: so-called literary fiction, historical fiction, science fiction, fantasy, and dystopia. David Dickinson discusses a wide spectrum of novelists. Authors who are avowedly atheistic and authors who have a vested interest in perpetuating biblical stories are both featured. Well-known writers such as Rushdie, McEwan, McCarthy, and Martell rub shoulders with some you may be meeting for the first time. Appealing to literature students and people who simply enjoy reading, whether Christian or not, this study of God in novels invites us to open our minds and allow aspects of our culture to shape our understanding of God and to change our ways of talking about the divine.

Future Folk Horror Simon Bacon, 2023-07-24 *Future Folk Horror: Contemporary Anxieties and Possible Futures* analyzes folk horror by looking at its recent popularity in novels and films such as *The Ritual* (2011), *The Witch* (2015), and *Candyman* (2021). Countering traditional views of the genre as depictions of the monstrous rural and pagan past trying to consume the present, the contributors to this collection posit folk horror as being able to uniquely capture the anxieties of the twenty-first century caused by an ongoing pandemic and the divisive populist politics that have arisen around it. Further, this book shows how, through its increasing intersections with other genres such as science fiction, the weird, and eco-criticism as seen in films and texts like *The Zero Theorem* (2013), *The Witcher* (2007, 2021), and *Annihilation* (2018), as well as through its engagement with topics around climate change, racism, and identity politics, folk horror can point to other ways of being in the world and visions of possible futures.

The Rejects Jamie Collinson, 2024-02-22 Very readable, the history of the late 20th-century empire, music business. Bret Easton Ellis: Imagine you've made it. You and your friends have hit the big time in music, and you're going to be a star. But then quite suddenly it's over. Your best friends don't want you anymore, and you're on the outside. Perhaps

they're tired of your bad habits they think you're not good enough or they sense you just don't want it as much as they do. Whatever the cause you're a reject. So what do you do next? Featuring a player rejected by both Nirvana and Soundgarden who became a decorated special forces soldier, Britpoppers who spiraled into addiction before becoming novelists and missionaries, the terrifying story of Guns N' Roses' first drummer, super-rejecting band leaders, self-destroying rappers, troubled hard rock bassists, and girl band burnouts, *The Rejects* takes an intimate, thoughtful look at people who've been kicked out of bands, what they experienced, and what came afterwards. Coming from a writer with twenty years' music industry experience, *The Rejects* is a sympathetic study of some of music's most fascinating characters and what happens when the dream comes crashing to an end. The result is a compelling alternative history of popular music. *Narrative and Cognition in Literature and Science* Michael Sinding, Aura Heydenreich, Klaus Mecke, 2025-07-21 This volume explores cognitive perspectives on how science and narrative shape one another. Narrative is a principle of cognition and cognition is fundamental to narrative. This duality enables a deeper mapping of the feedback between story and the natural sciences. Science as a culturally organized and systematic mode of knowing the world may seem opposed to narrative thinking. Yet they are deeply interwoven. Scientists tell many kinds of stories across genres and media. In thought experiments, lab experiments, written arguments, and histories and philosophies of fields, they recount and interpret unfoldings of events at often uncanny scales, from particle collisions to the evolution of life to cosmic expansion. Science stories go beyond science. Early science is entwined with myth, religion, and magic. We still mythologize beneficent or evil geniuses, the promises and perils of technology. Teachers, journalists, politicians, and lawyers all tell science stories for their own purposes. Literary artists use scientific ideas and forms, reimagining physical forces, causality, and time in storyworlds, themes, and figures. This is the first cognition-focused, multi-disciplinary analysis of these narrative-science relations. **The Readers' Advisory Guide to Genre Fiction, Third Edition** Neal Wyatt, Joyce G. The Secret Book of Sacred Things Torsten Krol,2012-10-01 A fantastic journey into a postapocalyptic world seen through the eyes of a

12 year old girl told by a master storyteller For fans of China Mieville and the sci fi of Margaret Atwood and Doris Lessing The coming of the Great Stone destroyed almost everything that used to be But high in one remote valley the Church of Selene has found its way back from ruin Sister Luka and her female converts offer sacrifices to the scarred and very close moon that hangs over their convent It has been this way since the Stone hit Among the Little Sisters of Selene is 12 year old Aurora respected Scribe of the church She endlessly writes down the name of the moon to keep her in the sky where she belongs But Aurora has a secret book she keeps hidden in her Scribe s chamber and into this diary she pours out her hopes and desires Upsetting this fragile equilibrium is Willa a young tomboy whose flamboyant arrival threatens the hard won status quo of the sisters community As Aurora and Willa inch toward friendship insurrection grows But when an unexpected marvel occurs in the sky it is clear that Aurora s work as the Scribe has failed The moon is threatening to remake the world all over again This is the Secret Book of Sacred Things this is Aurora s story **Genre Bending** Jeremy Rosen,2025-12-09 Detective horror fantasy romance science fiction spy thrillers westerns zombie novels In recent decades acclaimed and ambitious writers of literary fiction have increasingly gravitated to popular fiction genres In this comprehensive account Jeremy Rosen describes literary fiction s embrace of genre fiction s conceits as genre bending and argues that while literary writers adopt genres for a wide variety of purposes what they share is a revitalized attitude toward genre a recognition that while genres can be used in formulaic ways they can also be adapted and transformed endlessly Rosen reads across the outpouring of fiction of the last several decades by writers like Margaret Atwood Michael Chabon Jennifer Egan Louise Erdrich Kazuo Ishiguro Chang rae Lee David Mitchell Cormac McCarthy Ian McEwan Haruki Murakami and Colson Whitehead He finds that literary writers embrace of popular genres is the product of several seemingly contradictory forces including their attempt to extend a modernist inspired project of formal experiment to pursue high cultural prestige and to preserve the distinctiveness of the literary which they perceive to be under threat while also embracing the role of providing pleasure to readers Examining what today s most critically acclaimed and widely read literary writers have done with the genres of genre fiction Genre Bending reveals the values practices and forms as well as the tensions that constitute literary fiction today Atlantic Afterlives in Contemporary Fiction S. Ahlberg,2016-04-08 Atlantic Afterlives in Contemporary Fiction offers fresh readings of what has been called transatlantic literature In selected twentieth and twenty first century texts it discovers a shift from oceanic place based knowledge to an atmospheric placeless circulation of information Consonant with the displacements of the Information Age this book reads contemporary narrative as it imagines and navigates today s virtual spaces An important conclusion of the book is that intellectual resources are finite and should be used sustainably Thus arguing against a conventional comparative approach this book proposes reading practices that resist the tendency toward an oversupply of reworked literary contexts that seems bent on matching the reach of the World Wide Web Instead the book reimagines place as a practice in the way it is communicated and narrated Ultimately this book

empowers the reader to reimagine a future for narrative in the Information Age **Epistolarity in a Post-Letter World**
Sindija Franzetti, 2024-11-18 The study intervenes in a field hitherto dominated by formal and historical analyses of the literary letter Across the five case studies the method of reading epistolarity as a motif is applied to a selection of American novels published after 1990 Nick Bantock's Griffin Lish and Dunn test the limitations of letters for conveying individual experience to a distant other Robinson and Erdrich envision epistolarity as an address to a future Exploring the employment of epistolarity as a motif the study offers an interpretation of the messages these fictions extend for readers in a post letter world Communication technologies and practices may change but epistolarity as a motif a reprise of a scene of encounter that depends on keeping a distance between addresser and addressee remains a deeply compelling site of inquiry in twenty first century literature *Tribe of Mentors* Timothy Ferriss, 2017 Life changing wisdom from 130 of the world's highest achievers in short action packed pieces featuring inspiring quotes life lessons career guidance personal anecdotes and other advice
